BIO 004 ANATOMY ATLAS · BLOOD · CARD 1 · BLOOD CELLS

Blood cell 1

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

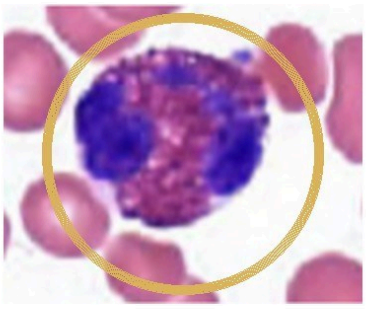

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 2 · BLOOD CELLS

Blood cell 2

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

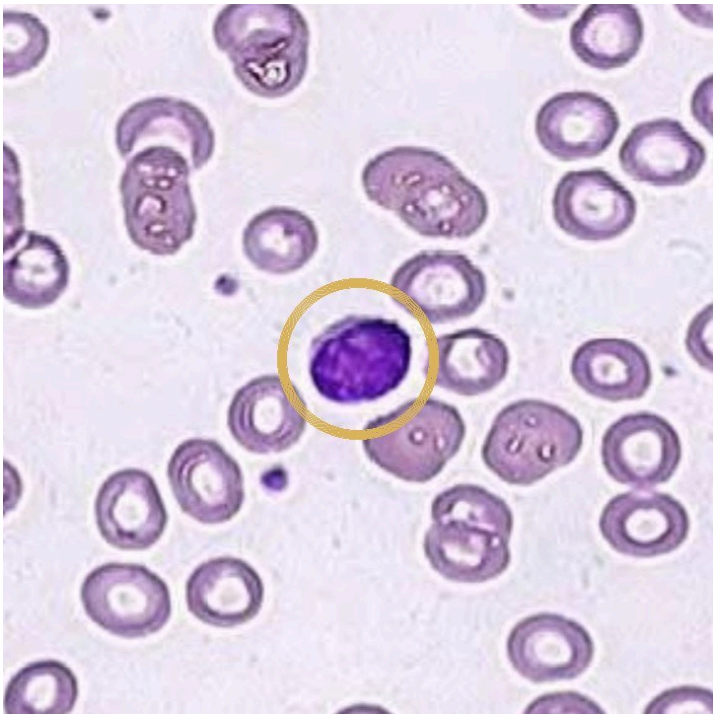

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 1 · BLOOD CELLS

Blood cell 1

ANSWER KEY

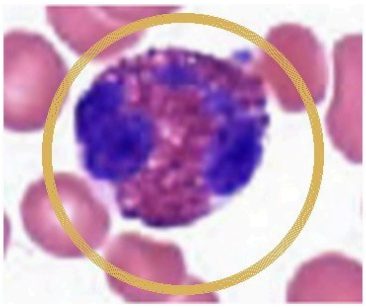

1. Name the cell inside the gold ring.
   Lymphocyte
2. Granulocyte or agranulocyte?
   Agranulocyte
3. Main job?
   Specific immunity: B cells make antibodies, T cells attack infected cells

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 2 · BLOOD CELLS

Blood cell 2

ANSWER KEY

1. Name the cell inside the gold ring.
   Eosinophil
2. Granulocyte or agranulocyte?
   Granulocyte
3. Main job?
   Attacks parasites and helps regulate allergic reactions

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 3 · BLOOD CELLS

Blood cell 3

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

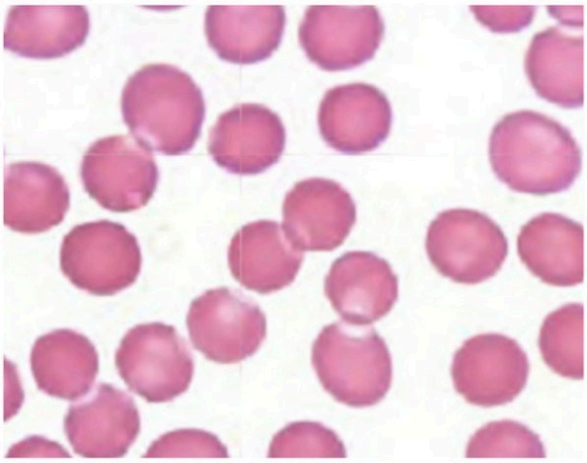

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 4 · BLOOD CELLS

Blood cell 4

PRACTICE

1. Name these cells.

2. Do they have a nucleus when mature?

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 3 · BLOOD CELLS

Blood cell 3

ANSWER KEY

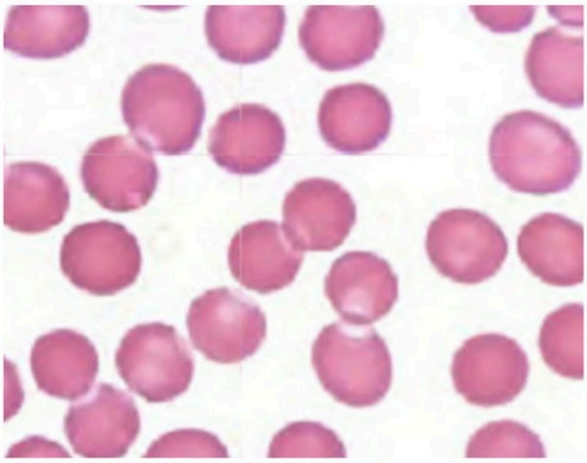

1. Name the cell inside the gold ring.
   Monocyte
2. Granulocyte or agranulocyte?
   Agranulocyte
3. Main job?
   Leaves the blood and becomes a macrophage that phagocytizes debris and pathogens

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 4 · BLOOD CELLS

Blood cell 4

ANSWER KEY

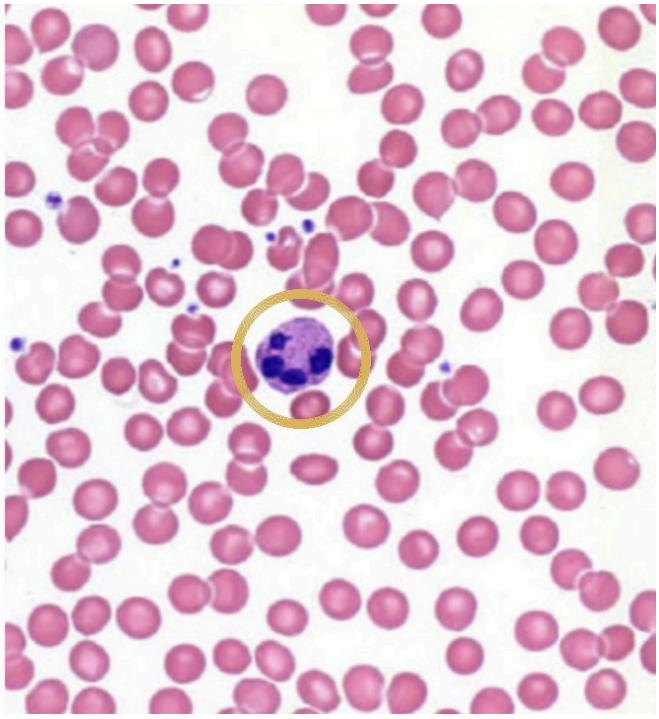

1. Name these cells.
   Erythrocytes (red blood cells)
2. Do they have a nucleus when mature?
   No
3. Main job?
   Carry oxygen and carbon dioxide on hemoglobin

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 5 · BLOOD CELLS

Blood cell 5

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

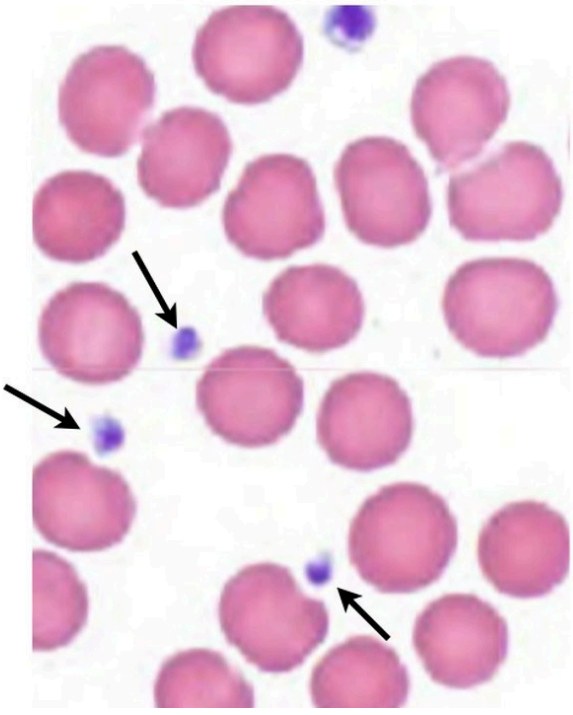

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 6 · BLOOD CELLS

Blood cell 6

PRACTICE

1. Name the small purple pieces at the arrows.

2. What large cell do they break off from?

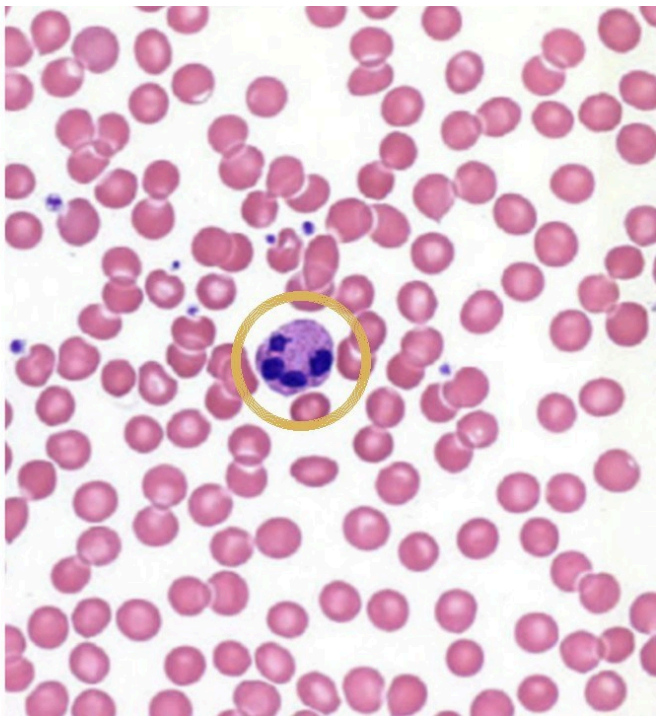

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 5 · BLOOD CELLS

Blood cell 5

ANSWER KEY

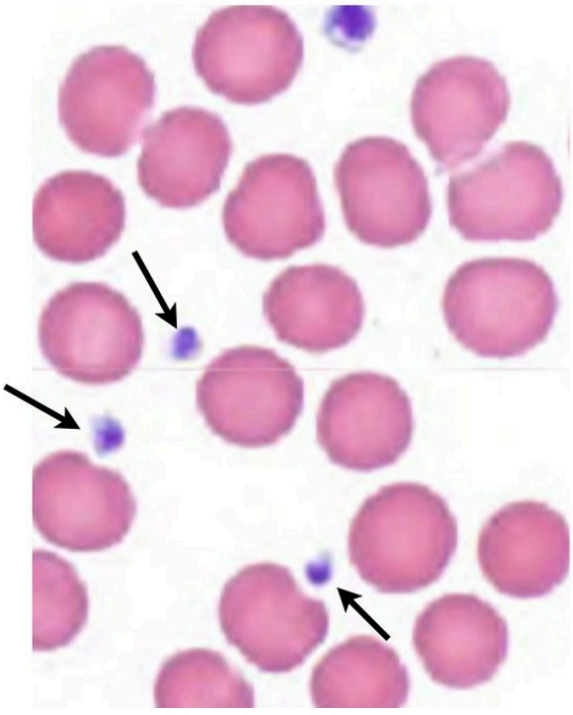

1. Name the cell inside the gold ring.
   Neutrophil
2. Granulocyte or agranulocyte?
   Granulocyte
3. Main job?
   Phagocytizes bacteria; the first responder to infection

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 6 · BLOOD CELLS

Blood cell 6

ANSWER KEY

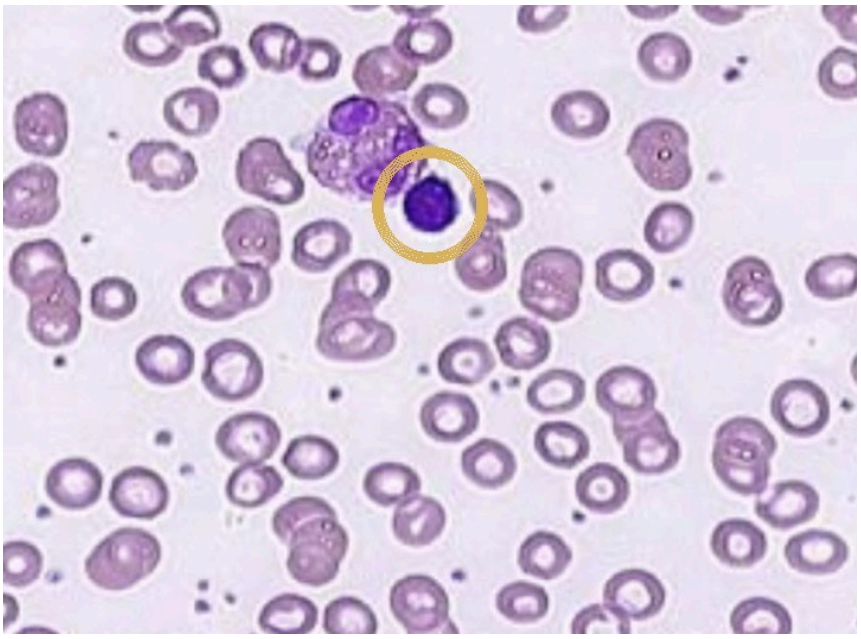

1. Name the small purple pieces at the arrows.
   Thrombocytes (platelets)
2. What large cell do they break off from?
   Megakaryocyte
3. Main job?
   Start blood clotting and plug damaged vessels

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 7 · BLOOD CELLS

Blood cell 7

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

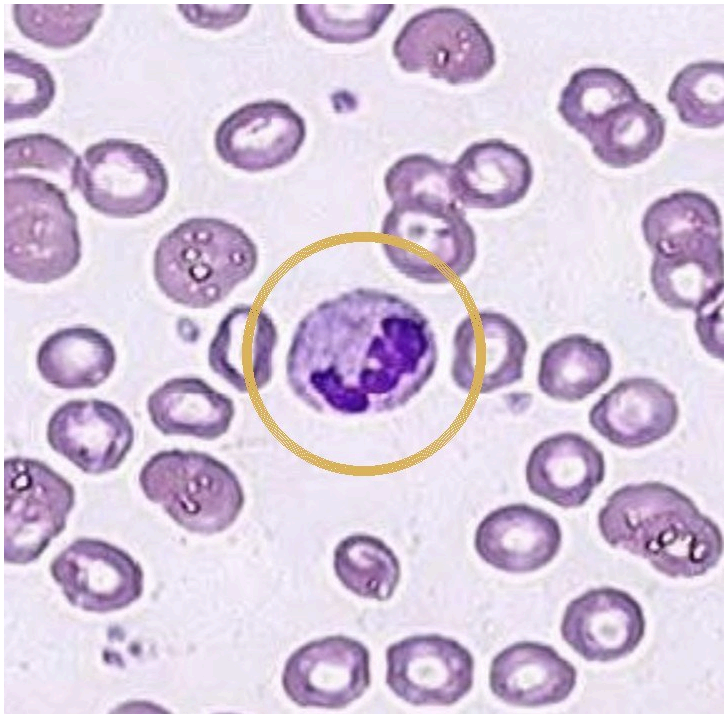

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 8 · BLOOD CELLS

Blood cell 8

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

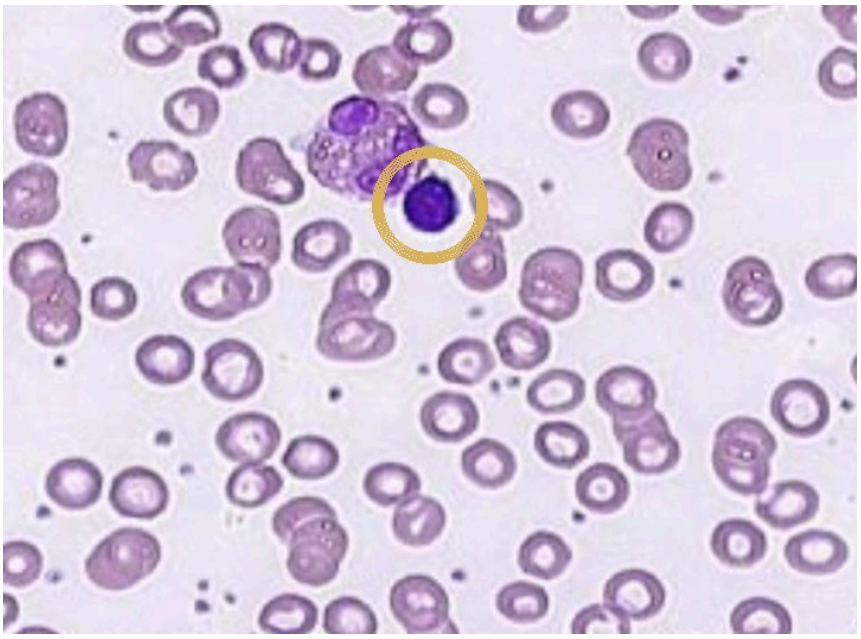

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 7 · BLOOD CELLS

Blood cell 7

ANSWER KEY

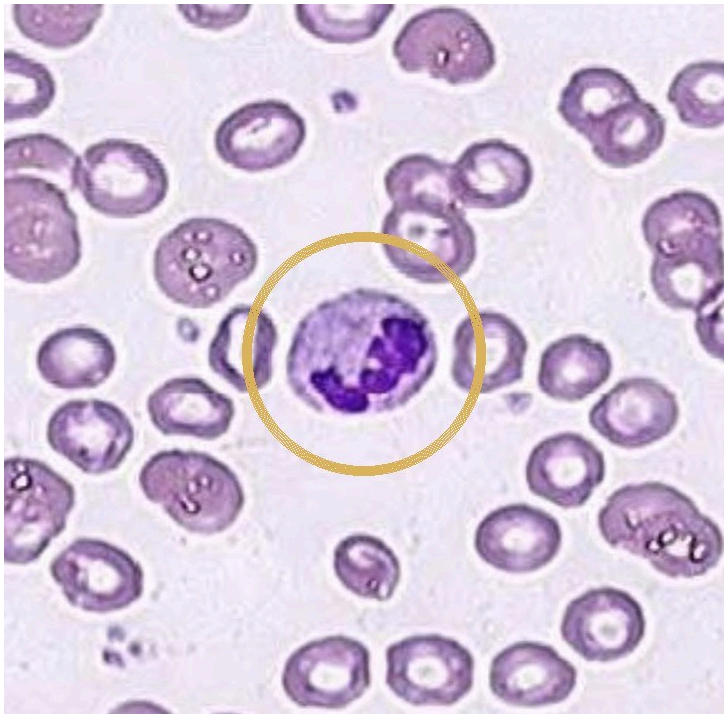

1. Name the cell inside the gold ring.
   Lymphocyte
2. Granulocyte or agranulocyte?
   Agranulocyte
3. Main job?
   Specific immunity: B cells make antibodies, T cells attack infected cells

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 8 · BLOOD CELLS

Blood cell 8

ANSWER KEY

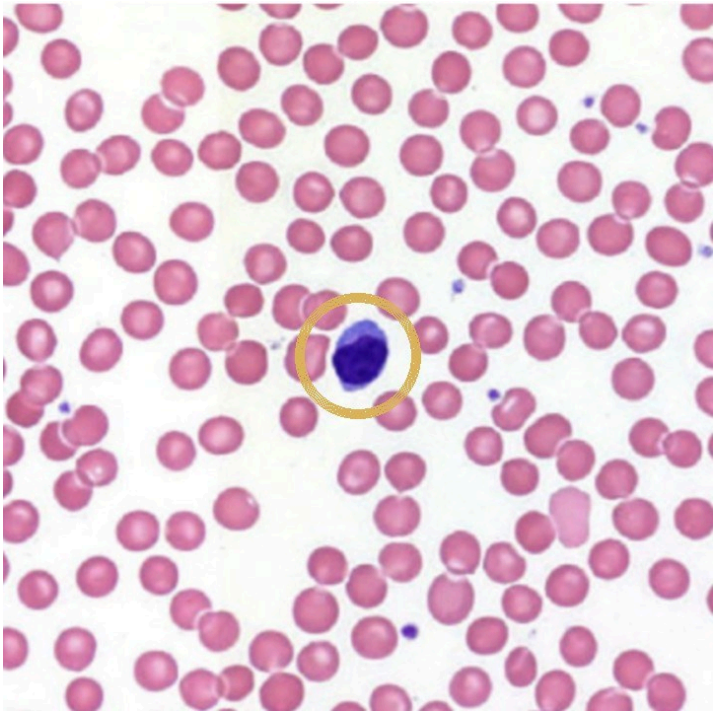

1. Name the cell inside the gold ring.
   Neutrophil
2. Granulocyte or agranulocyte?
   Granulocyte
3. Main job?
   Phagocytizes bacteria; the first responder to infection

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 9 · BLOOD CELLS

Blood cell 9

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 10 · BLOOD CELLS

Blood cell 10

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

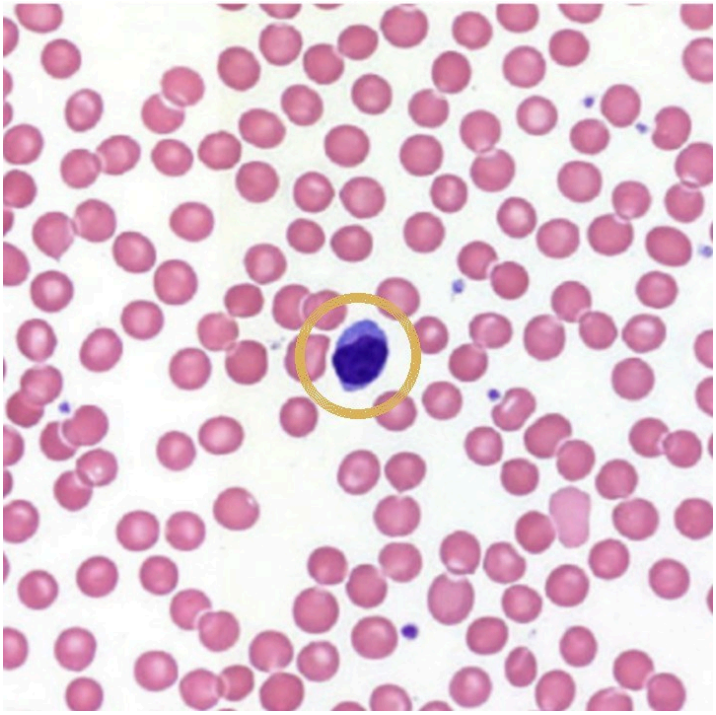

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 9 · BLOOD CELLS

Blood cell 9

ANSWER KEY

1. Name the cell inside the gold ring.
   Lymphocyte
2. Granulocyte or agranulocyte?
   Agranulocyte
3. Main job?
   Specific immunity: B cells make antibodies, T cells attack infected cells

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 10 · BLOOD CELLS

Blood cell 10

ANSWER KEY

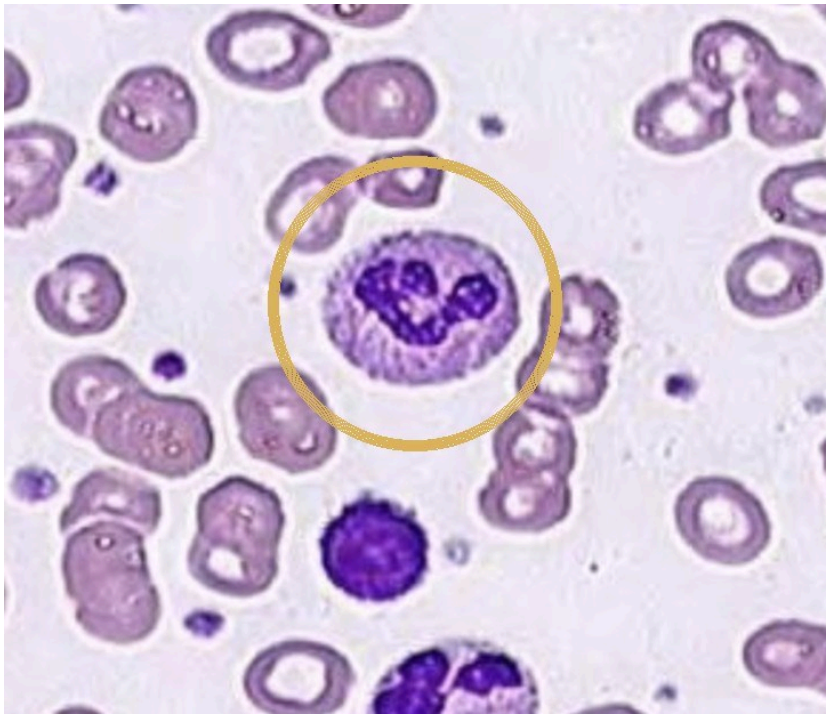

1. Name the cell inside the gold ring.
   Neutrophil
2. Granulocyte or agranulocyte?
   Granulocyte
3. Main job?
   Phagocytizes bacteria; the first responder to infection

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 11 · BLOOD CELLS

Blood cell 11

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 12 · BLOOD CELLS

Blood cell 12

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

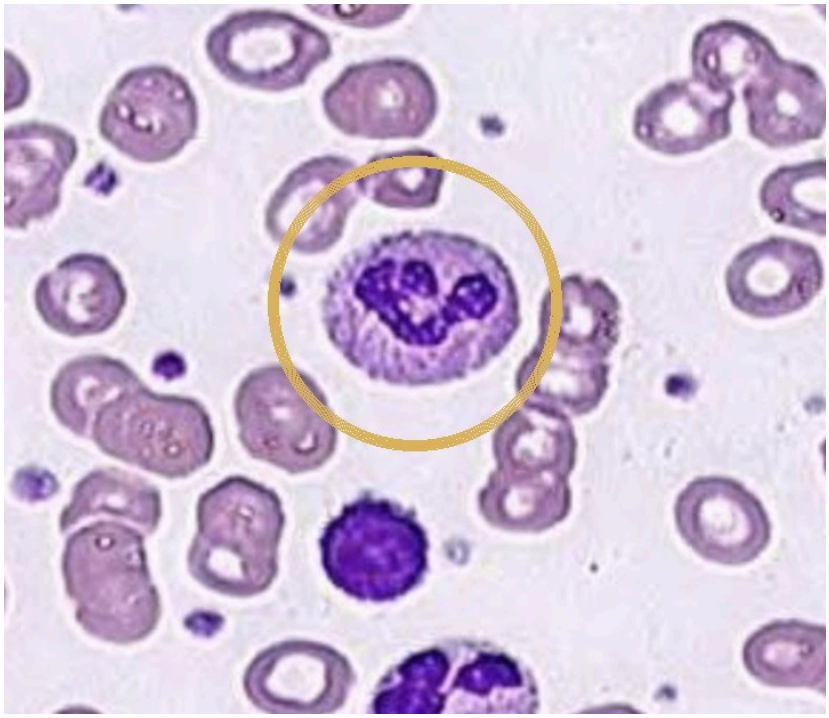

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 11 · BLOOD CELLS

Blood cell 11

ANSWER KEY

1. Name the cell inside the gold ring.
   Neutrophil
2. Granulocyte or agranulocyte?
   Granulocyte
3. Main job?
   Phagocytizes bacteria; the first responder to infection

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 12 · BLOOD CELLS

Blood cell 12

ANSWER KEY

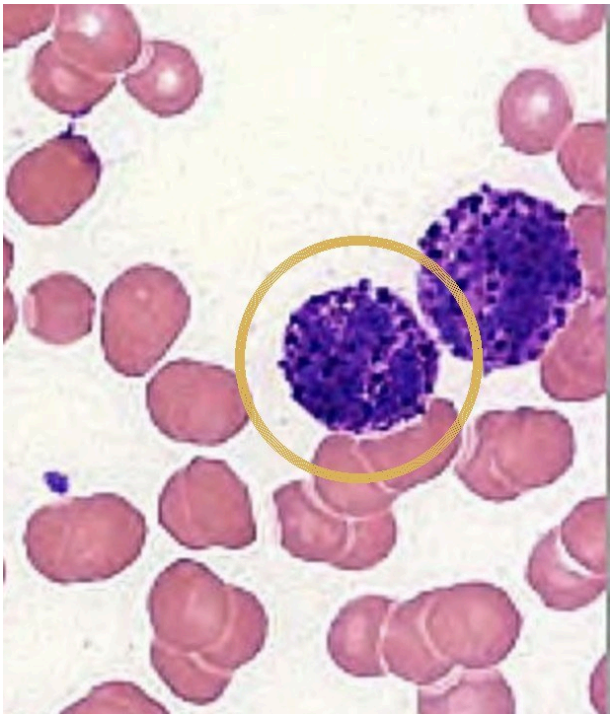

1. Name the cell inside the gold ring.
   Basophil
2. Granulocyte or agranulocyte?
   Granulocyte
3. Main job?
   Releases histamine and heparin during inflammation and allergy

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 13 · BLOOD CELLS

Blood cell 13

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 14 · BLOOD CELLS

Blood cell 14

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

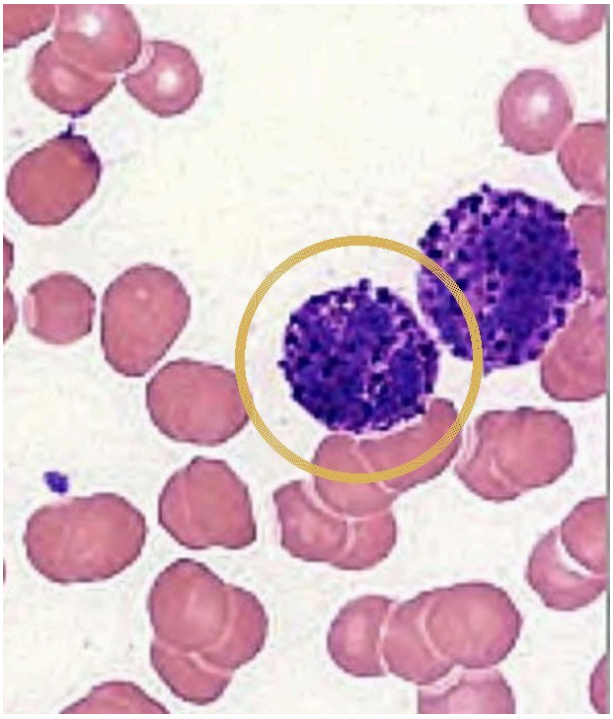

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 13 · BLOOD CELLS

Blood cell 13

ANSWER KEY

1. Name the cell inside the gold ring.
   Basophil
2. Granulocyte or agranulocyte?
   Granulocyte
3. Main job?
   Releases histamine and heparin during inflammation and allergy

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 14 · BLOOD CELLS

Blood cell 14

ANSWER KEY

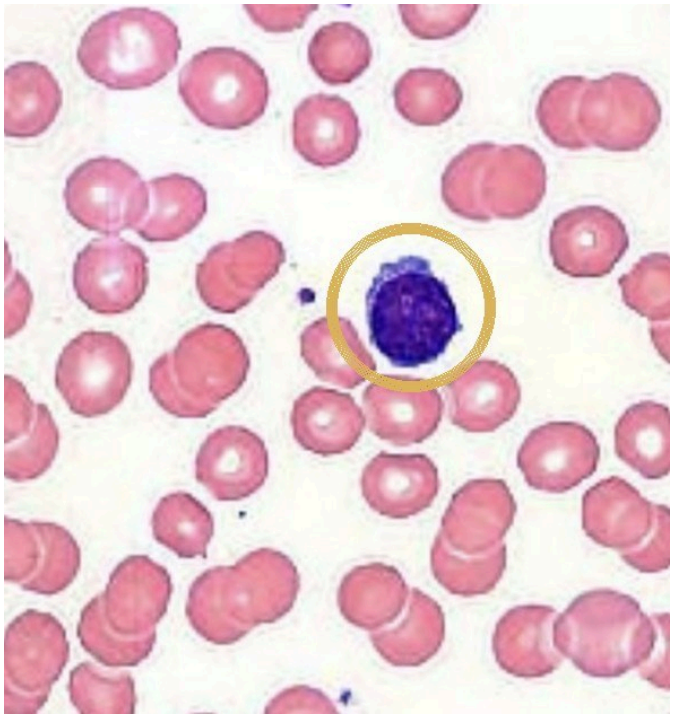

1. Name the cell inside the gold ring.
   Basophil
2. Granulocyte or agranulocyte?
   Granulocyte
3. Main job?
   Releases histamine and heparin during inflammation and allergy

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 15 · BLOOD CELLS

Blood cell 15

PRACTICE

1. Name the cell inside the gold ring.

2. Granulocyte or agranulocyte?

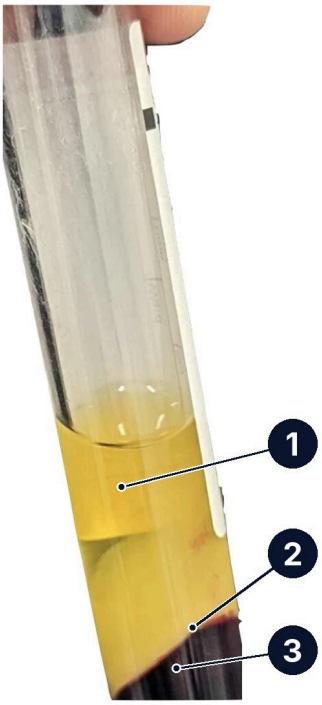

3. Main job?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 16 · CENTRIFUGED BLOOD

Centrifuged blood

PRACTICE

1. Name this layer.

2. Name this thin layer.

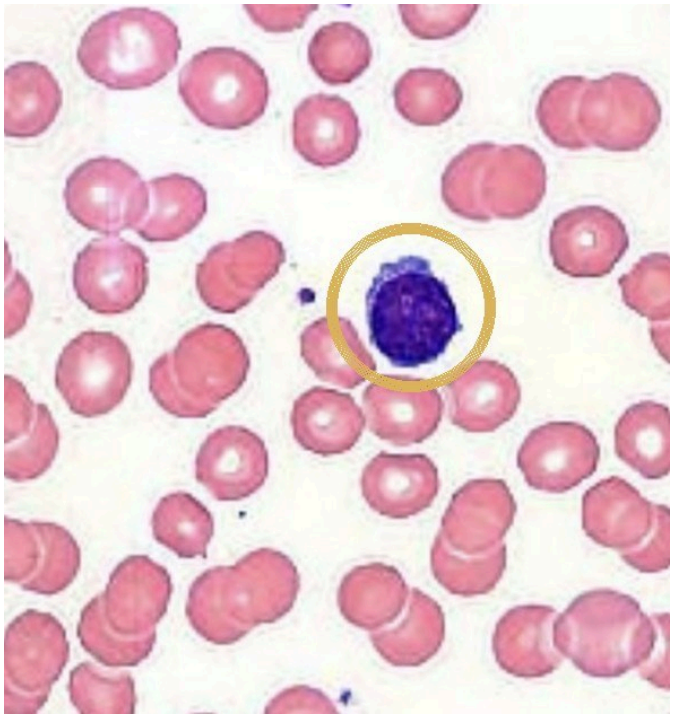

3. Name this bottom layer.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 15 · BLOOD CELLS

Blood cell 15

ANSWER KEY

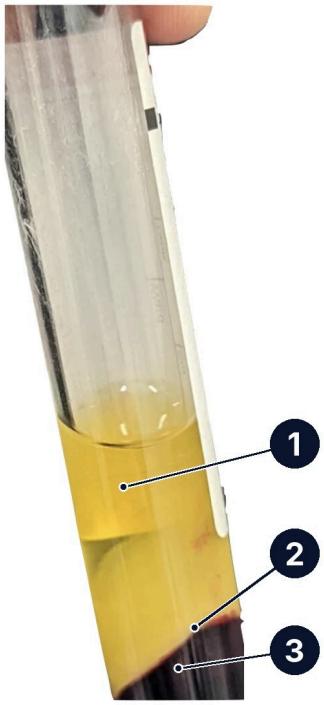

1. Name the cell inside the gold ring.
   Lymphocyte
2. Granulocyte or agranulocyte?
   Agranulocyte
3. Main job?
   Specific immunity: B cells make antibodies, T cells attack infected cells

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD · CARD 16 · CENTRIFUGED BLOOD

Centrifuged blood

ANSWER KEY

1. Name this layer.
   Plasma
2. Name this thin layer.
   Buffy coat
3. Name this bottom layer.
   Erythrocytes (packed red blood cells)

Check your answers, then wipe the front clean for the next round.
