BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 1 · MICROSCOPE SLIDES

Artery, vein and nerve (slide)

PRACTICE

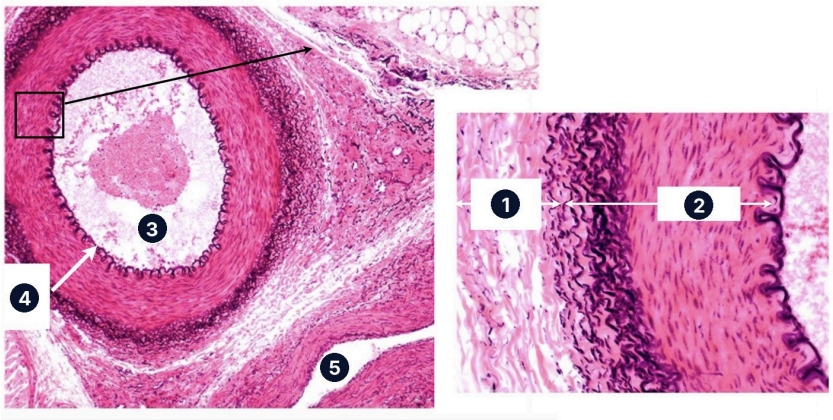

1. Name this structure. _____
2. Name this structure. _____
3. Name this structure. _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 2 · MICROSCOPE SLIDES

Artery wall, low and high power (slide)

PRACTICE

1. Name this layer of the artery wall. _____
2. Name this layer of the artery wall. _____
3. Name this structure. _____
4. Name this layer of the artery wall. _____
5. Name this structure. _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 1 · MICROSCOPE SLIDES

Artery, vein and nerve (slide)

ANSWER KEY

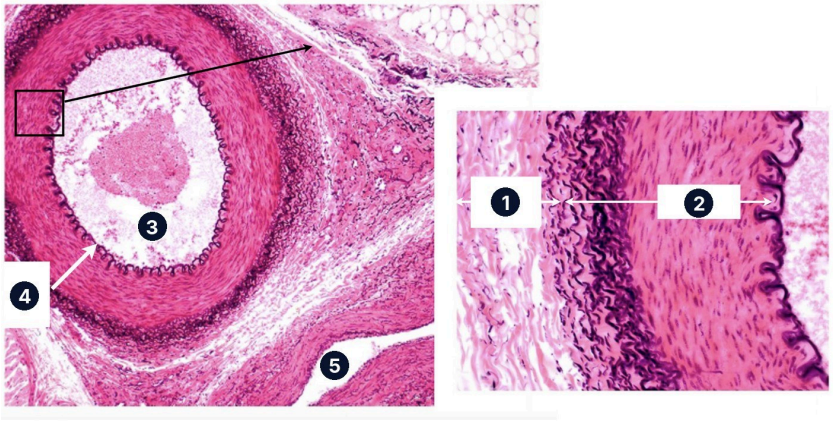

1. Name this structure.
   Artery
2. Name this structure.
   Nerve
3. Name this structure.
   Vein

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 2 · MICROSCOPE SLIDES

Artery wall, low and high power (slide)

ANSWER KEY

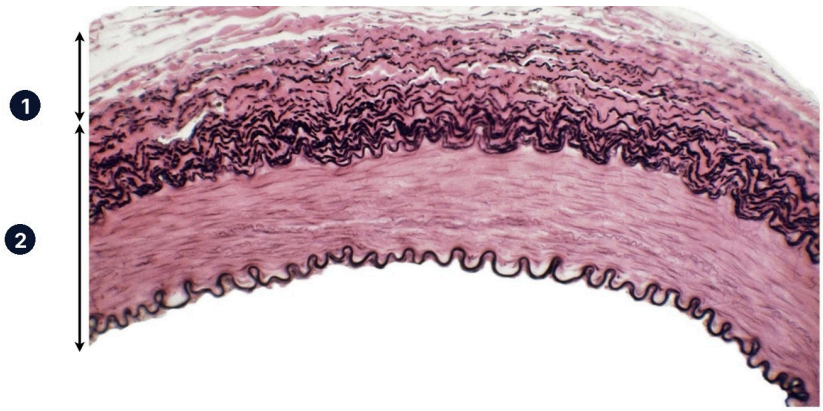

1. Name this layer of the artery wall.
   Tunica externa
2. Name this layer of the artery wall.
   Tunica media
3. Name this structure.
   Artery
4. Name this layer of the artery wall.
   Tunica intima
5. Name this structure.
   Vein

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 3 · MICROSCOPE SLIDES

Large muscular artery (slide)

PRACTICE

1. Name this layer of the artery wall.

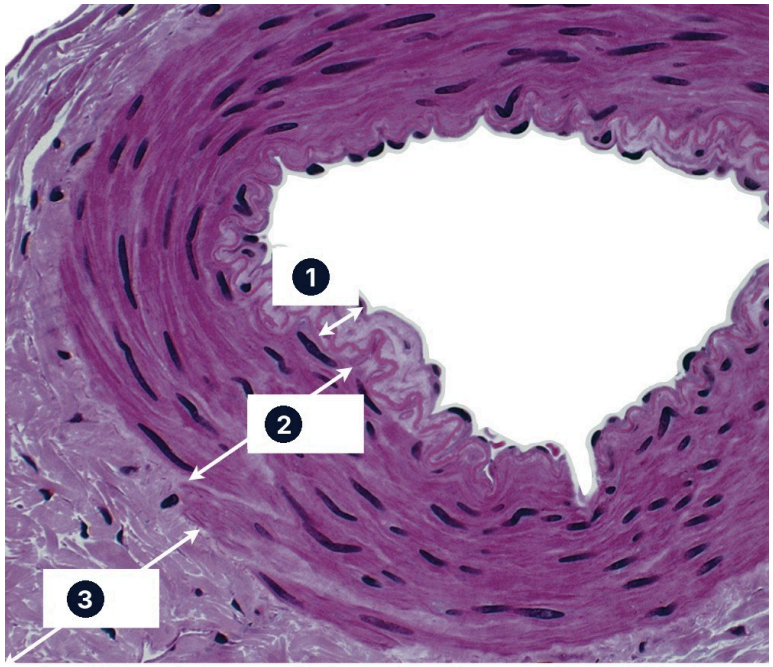

2. Name this layer of the artery wall.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 4 · MICROSCOPE SLIDES

Small muscular artery (slide)

PRACTICE

1. Name this layer of the artery wall.

2. Name this layer of the artery wall.

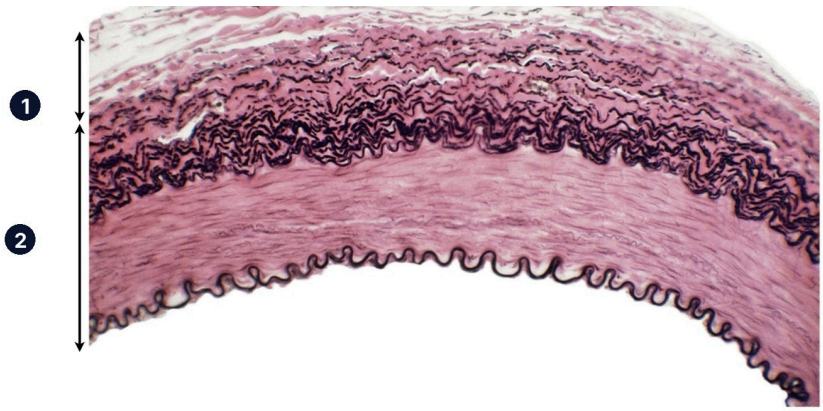

3. Name this layer of the artery wall.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 3 · MICROSCOPE SLIDES

Large muscular artery (slide)

ANSWER KEY

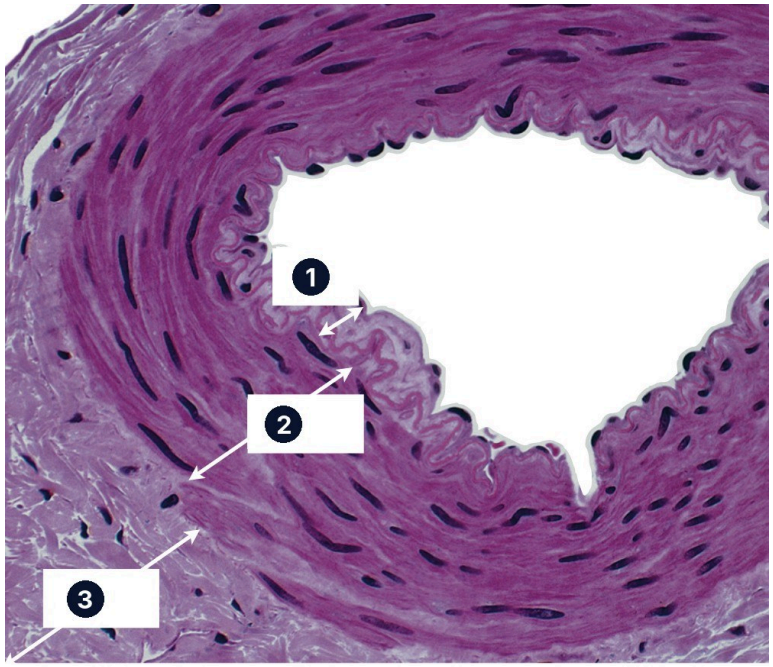

1. Name this layer of the artery wall.
   Tunica externa
2. Name this layer of the artery wall.
   Tunica media

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 4 · MICROSCOPE SLIDES

Small muscular artery (slide)

ANSWER KEY

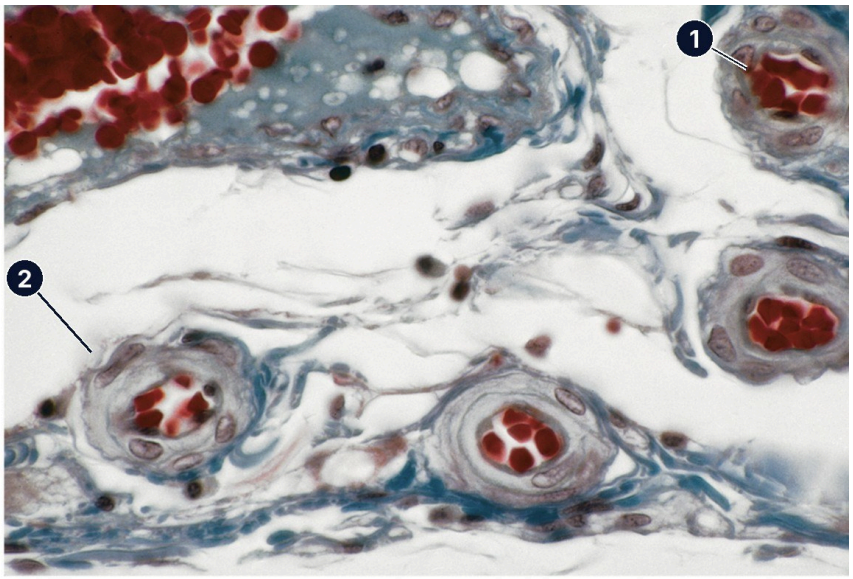

1. Name this layer of the artery wall.
   Tunica intima
2. Name this layer of the artery wall.
   Tunica media
3. Name this layer of the artery wall.
   Tunica externa

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 5 · MICROSCOPE SLIDES

Arterioles (slide)

PRACTICE

1. Name these small vessels.

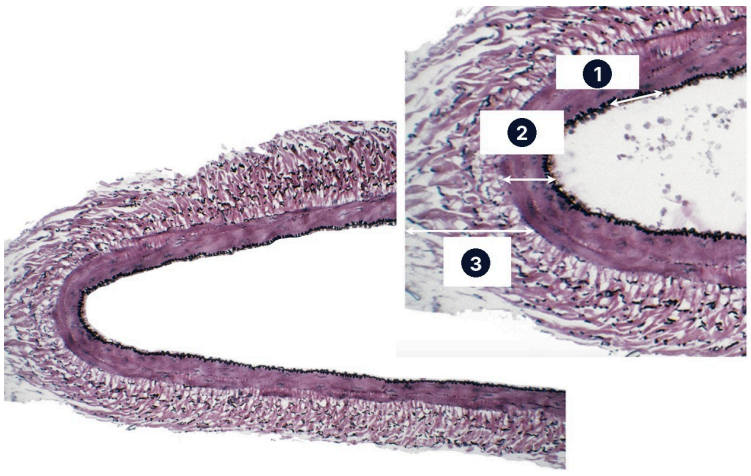

2. Name these small vessels.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 6 · MICROSCOPE SLIDES

Vein wall (slide)

PRACTICE

1. Name this layer of the vein wall.

2. Name this layer of the vein wall.

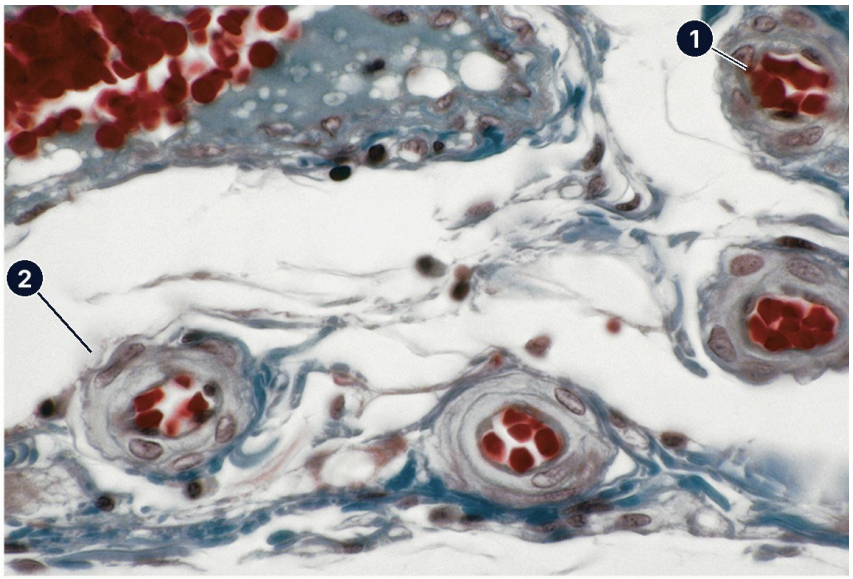

3. Name this layer of the vein wall.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 5 · MICROSCOPE SLIDES

Arterioles (slide)

ANSWER KEY

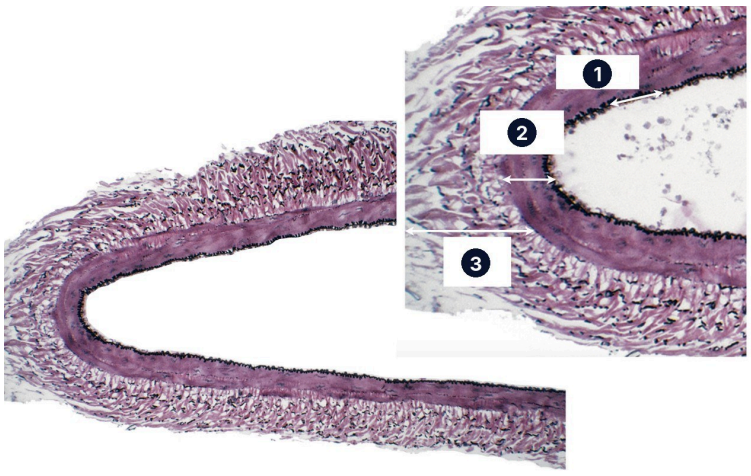

1. Name these small vessels.
   Arteriole
2. Name these small vessels.
   Arteriole

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 6 · MICROSCOPE SLIDES

Vein wall (slide)

ANSWER KEY

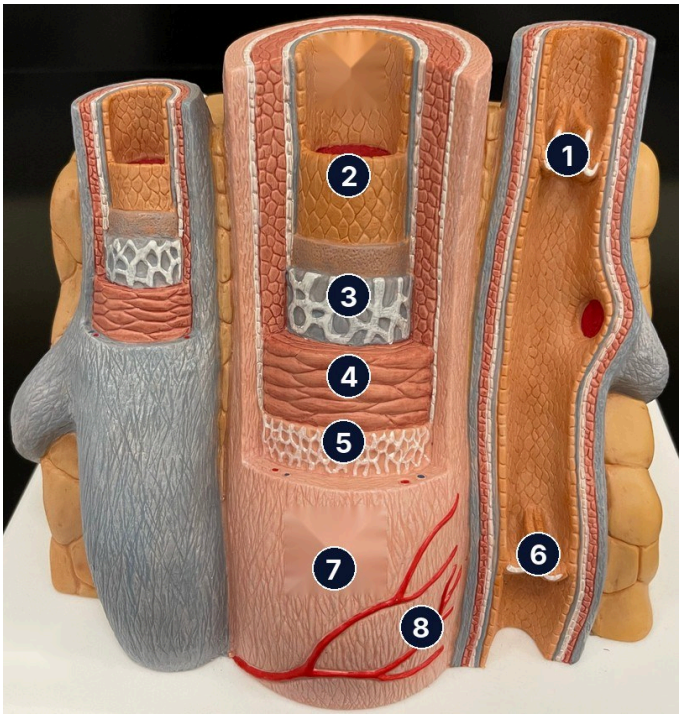

1. Name this layer of the vein wall.
   Tunica intima
2. Name this layer of the vein wall.
   Tunica media
3. Name this layer of the vein wall.
   Tunica externa

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 7 · VESSEL MODEL

PRACTICE

Artery wall layers (model)

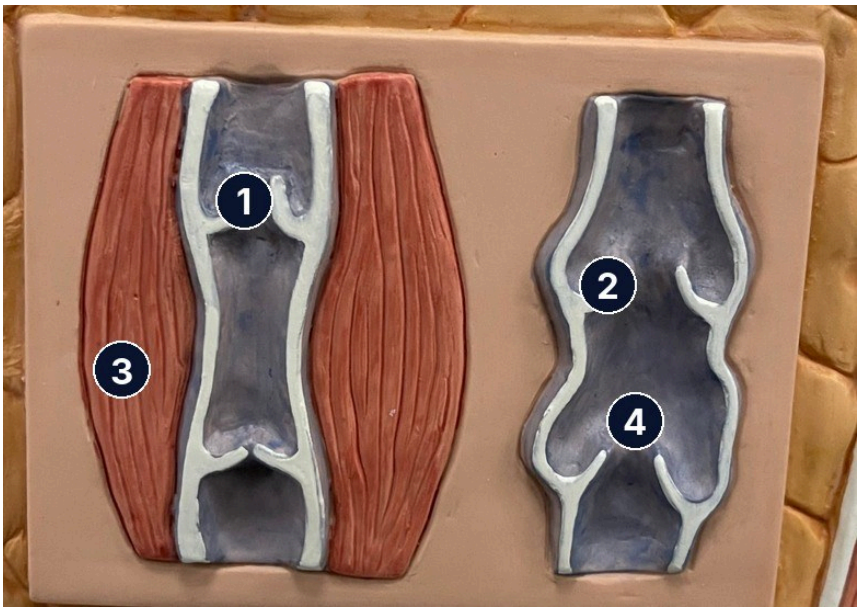

1. Name this structure inside the vein.
2. Name this layer of the artery wall.
3. Name this layer of the artery wall.
4. Name this layer of the artery wall.
5. Name this layer of the artery wall.
6. Name this structure inside the vein.
7. Name this layer of the artery wall.
8. Name these small [illegible] vessel wall.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 8 · VESSEL MODEL

PRACTICE

Veins, valves and skeletal muscle (model)

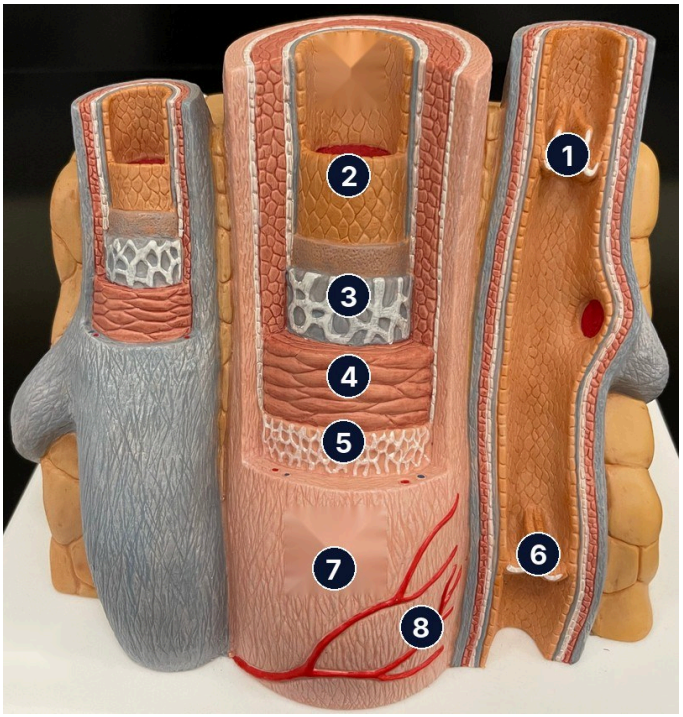

1. Name this structure inside the vein.
2. Name this structure inside the vein.
3. Name this structure.
4. Name this structure.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 7 · VESSEL MODEL

Artery wall layers (model)

ANSWER KEY

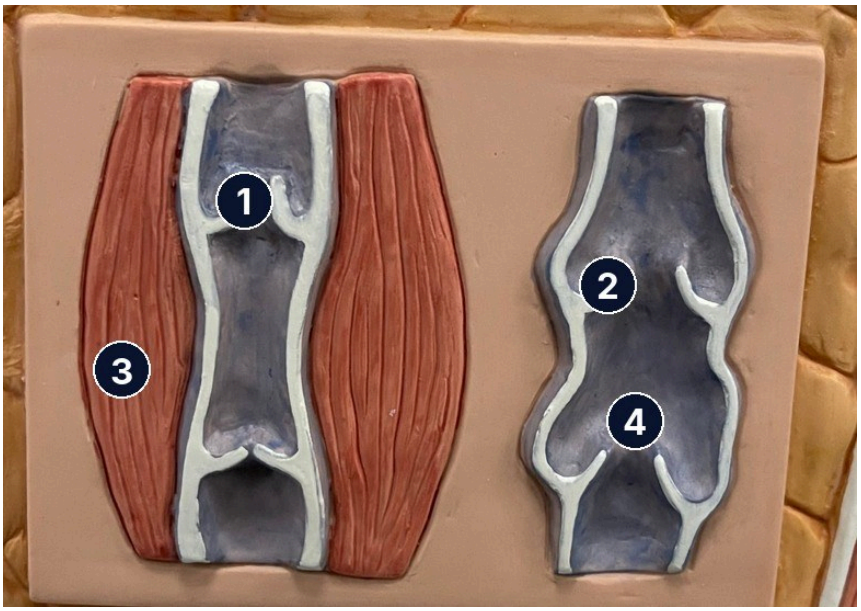

1. Name this structure inside the vein.
   Valve
2. Name this layer of the artery wall.
   Tunica intima (endothelium)
3. Name this layer of the artery wall.
   Internal elastic lamina
4. Name this layer of the artery wall.
   Tunica media
5. Name this layer of the artery wall.
   External elastic lamina
6. Name this structure inside the vein.
   Valve
7. Name this layer of the artery wall.
   Tunica externa
8. Name these small vessels on the vessel wall.
   Vasa vasorum

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BLOOD VESSELS · CARD 8 · VESSEL MODEL

Veins, valves and skeletal muscle (model)

ANSWER KEY

1. Name this structure inside the vein.
   Valve
2. Name this structure inside the vein.
   Valve
3. Name this structure.
   Skeletal muscle
4. Name this structure.
   Vein

Check your answers, then wipe the front clean for the next round.

PRACTICE

Arteries and veins: quick check

1. Name the three layers of a vessel wall, from the lumen outward.

2. Which vessel has the thicker tunica media?

3. Which vessel has valves?

4. How do skeletal muscles and valves move blood back to the heart?

Write each answer on its line with a dry-erase marker, then flip the card to check.

Arteries and veins: quick check

ANSWER KEY

1. Name the three layers of a vessel wall, from the lumen outward.

   Tunica intima, tunica media, tunica externa

2. Which vessel has the thicker tunica media?

   Artery

3. Which vessel has valves?

   Vein

4. How do skeletal muscles and valves move blood back to the heart?

   Contracting muscles squeeze the vein, and the valves stop blood from flowing backward (skeletal muscle pump)

Check your answers, then wipe the front clean for the next round.
