PRACTICE

Pectoral girdle, anterior (model)

1. Name this bone.

2. Name this bone. _____

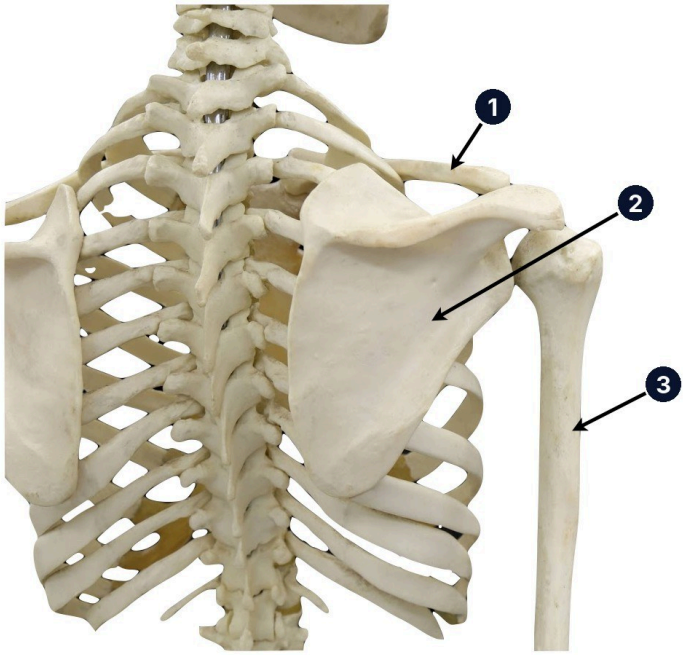

3. Name this bone. _____

_____

Write each answer on its line with a dry-erase marker, then flip the card to check.

PRACTICE

Pectoral girdle, posterior (model)

1. Name this bone.

2. Name this bone. _____

3. Name this bone. _____

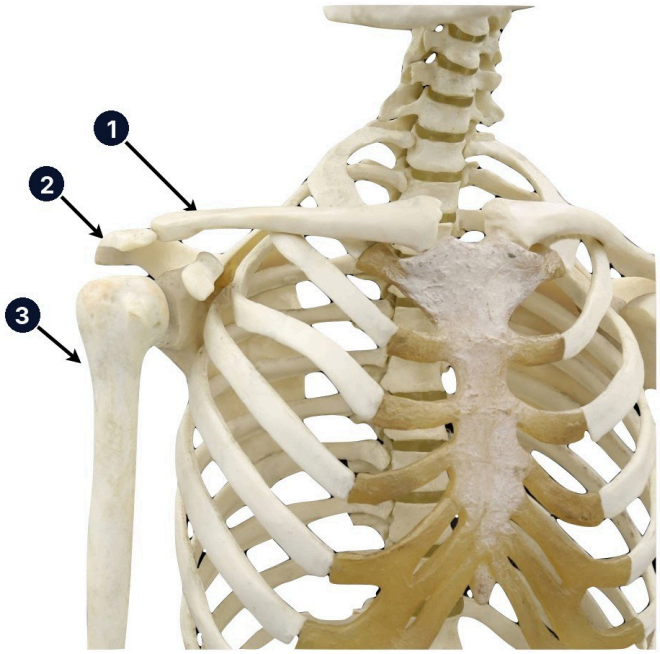

_____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 1 · PECTORAL GIRDLE

ANSWER KEY

Pectoral girdle, anterior (model)

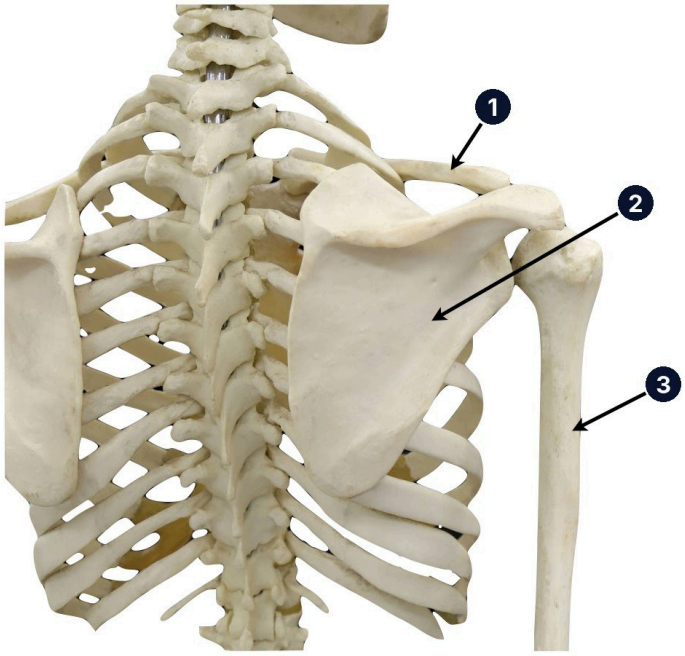

1. Name this bone.
   Clavicle
2. Name this bone.
   Scapula
3. Name this bone.
   Humerus

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 2 · PECTORAL GIRDLE

ANSWER KEY

Pectoral girdle, posterior (model)

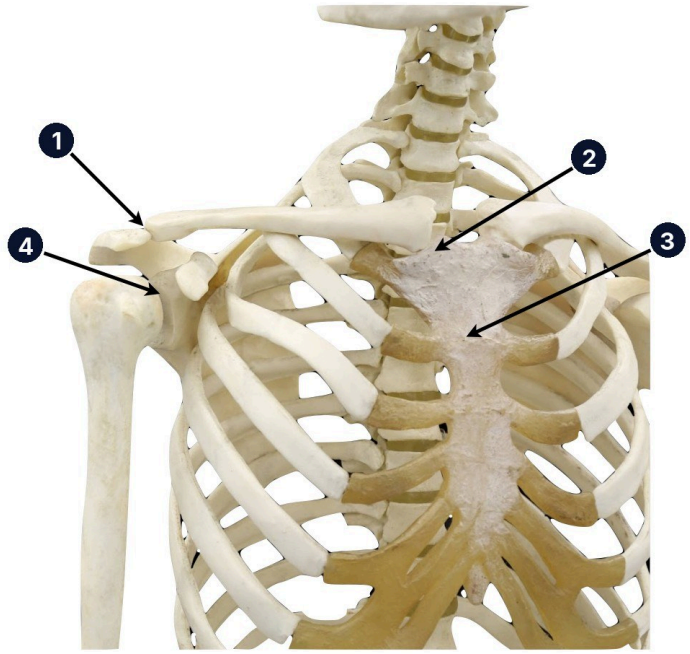

1. Name this bone.
   Clavicle
2. Name this bone.
   Scapula
3. Name this bone.
   Humerus

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 3 · PECTORAL GIRDLE

PRACTICE

Joints of the pectoral girdle (model)

1. Name this joint.
2. Name this joint.
3. Name this joint.
4. Name this joint.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 4 · PECTORAL GIRDLE

PRACTICE

Clavicle (model)

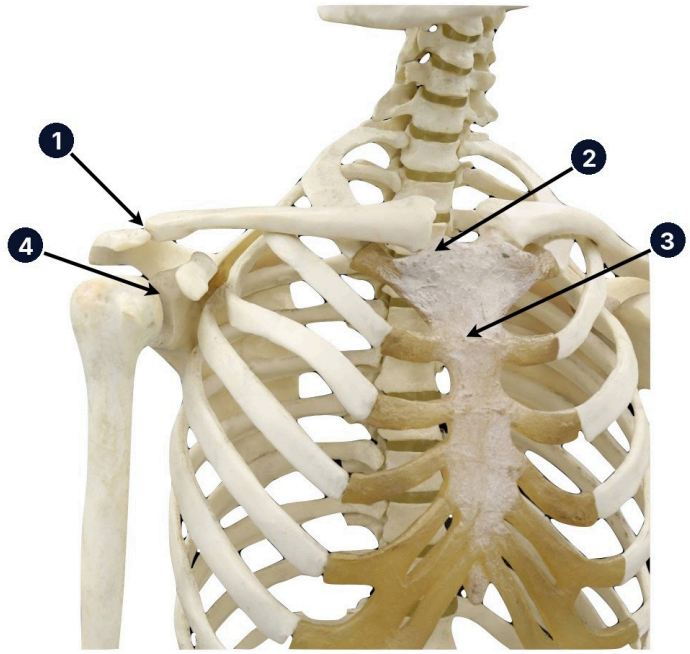

1. Name this feature of the clavicle.
2. Name this end of the clavicle.
3. Name this end of the clavicle.

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Joints of the pectoral girdle (model)

1. Name this joint.
   Acromioclavicular joint
2. Name this joint.
   Sternoclavicular joint
3. Name this joint.
   Manubriosternal joint
4. Name this joint.
   Glenohumeral joint

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Clavicle (model)

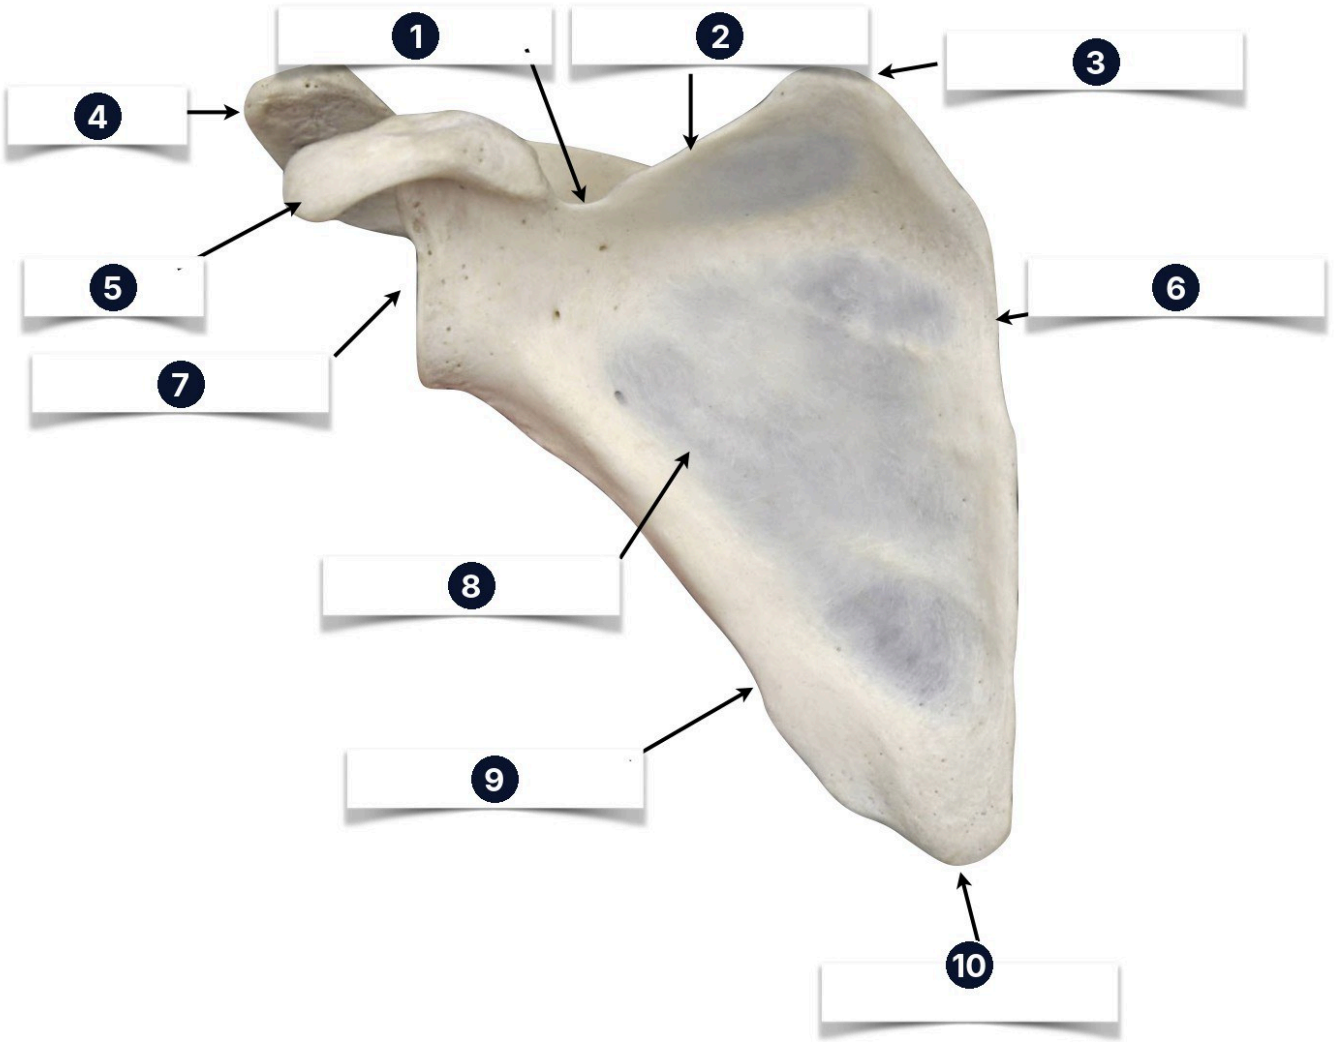

1. Name this feature of the clavicle.
   Conoid tubercle
2. Name this end of the clavicle.
   Acromial end
3. Name this end of the clavicle.
   Sternal end

Check your answers, then wipe the front clean for the next round.

PRACTICE

Scapula, anterior (model)

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

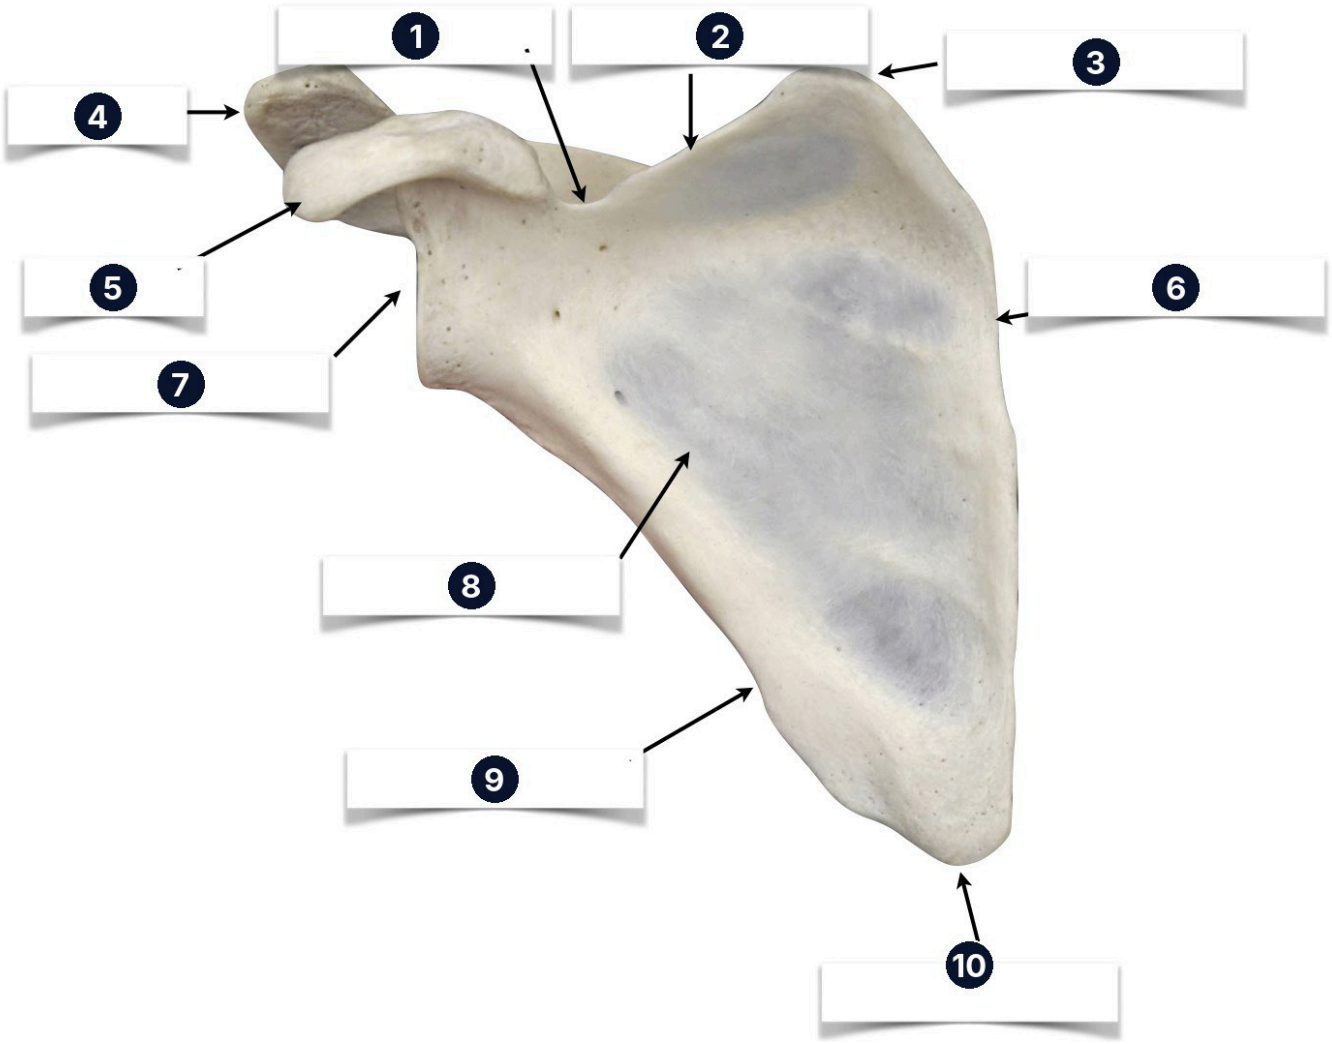

9 _____

10 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Scapula, anterior (model)

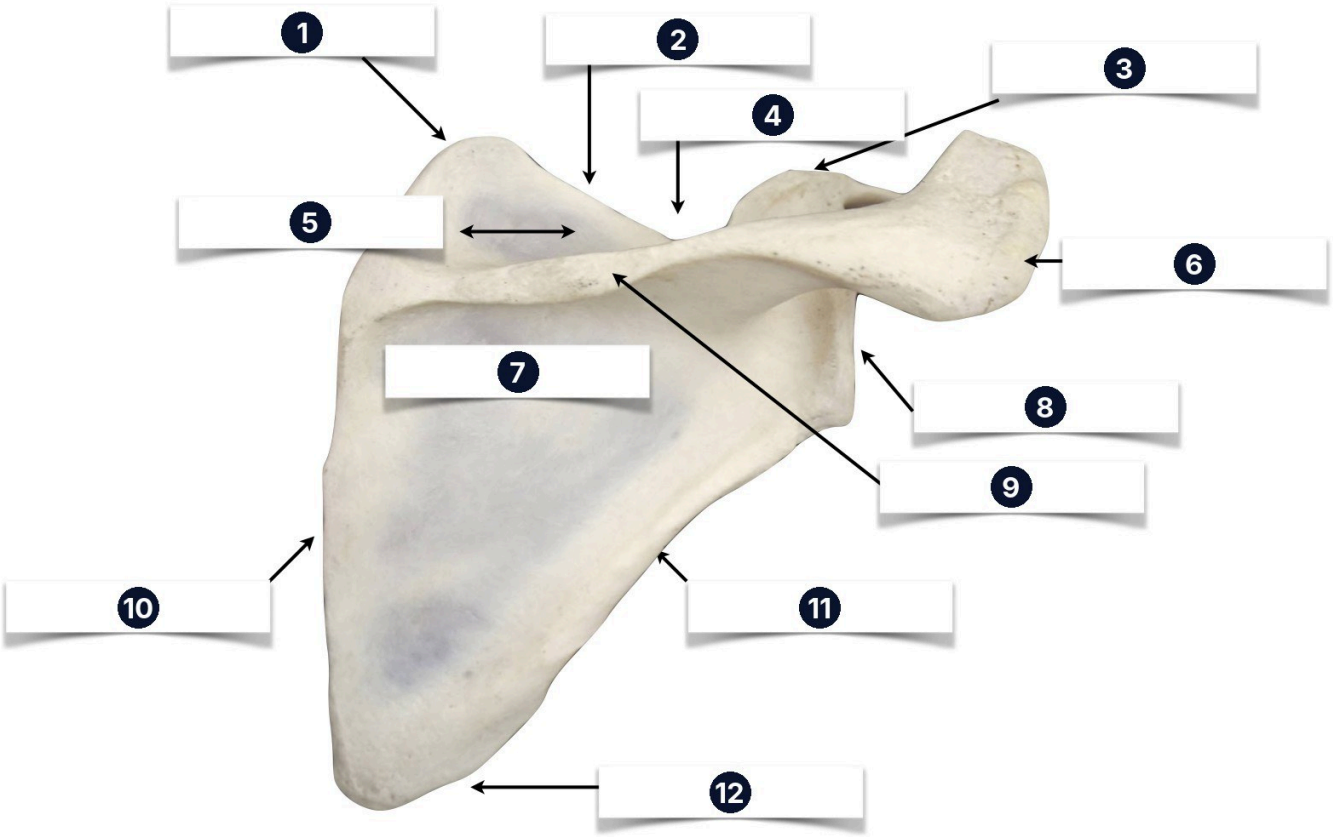

1. Suprascapular notch
2. Superior border
3. Superior angle
4. Acromion
5. Coracoid process
6. Medial (vertebral) border
7. Glenoid cavity (fossa)
8. Subscapular fossa
9. Lateral (axillary) border
10. Inferior angle

Check your answers, then wipe the front clean for the next round.

PRACTICE

Scapula, posterior (model)

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

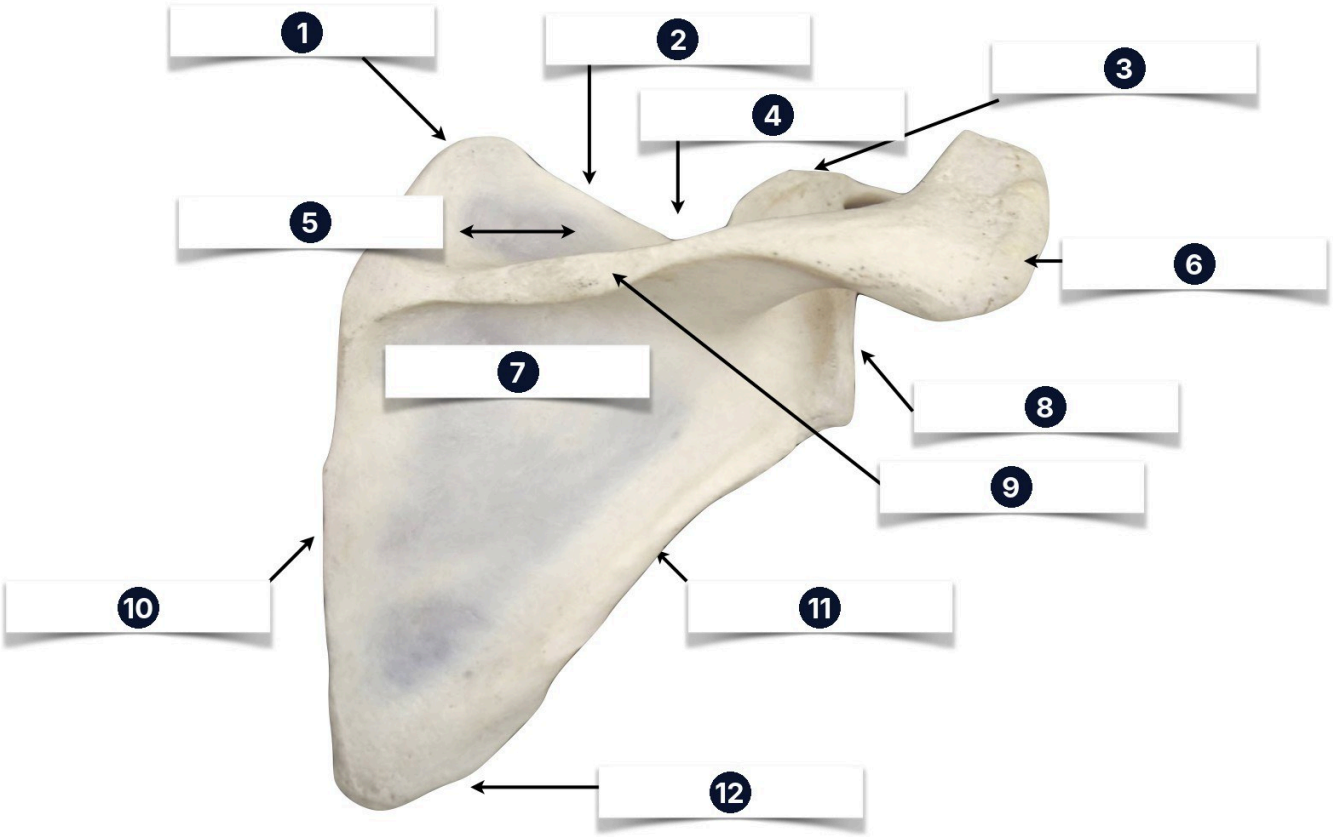

11 _____

12 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Scapula, posterior (model)

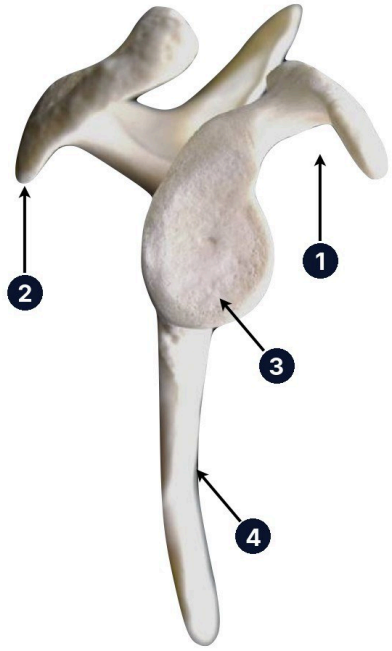

1. Superior angle
2. Superior border
3. Coracoid process
4. Suprascapular notch
5. Supraspinous fossa
6. Acromion
7. Infraspinous fossa
8. Glenoid cavity (fossa)
9. Spine of scapula
10. Medial (vertebral) border
11. Lateral (axillary) border
12. Inferior angle

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 7 · PECTORAL GIRDLE

PRACTICE

Scapula, lateral (model)

1. Name this feature of the scapula.

2. Name this feature of the scapula.

3. Name this feature of the scapula.

4. Name this feature of the scapula.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 10 · HUMERUS

PRACTICE

Humerus, posterior view: distal end

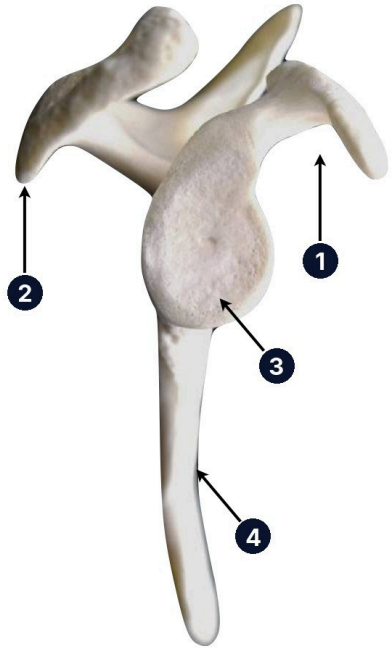

1. Name this bone feature.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 7 · PECTORAL GIRDLE

ANSWER KEY

Scapula, lateral (model)

1. Name this feature of the scapula.
   Coracoid process
2. Name this feature of the scapula.
   Acromion
3. Name this feature of the scapula.
   Glenoid cavity (fossa)
4. Name this feature of the scapula.
   Lateral (axillary) border

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 10 · HUMERUS

ANSWER KEY

Humerus, posterior view: distal end

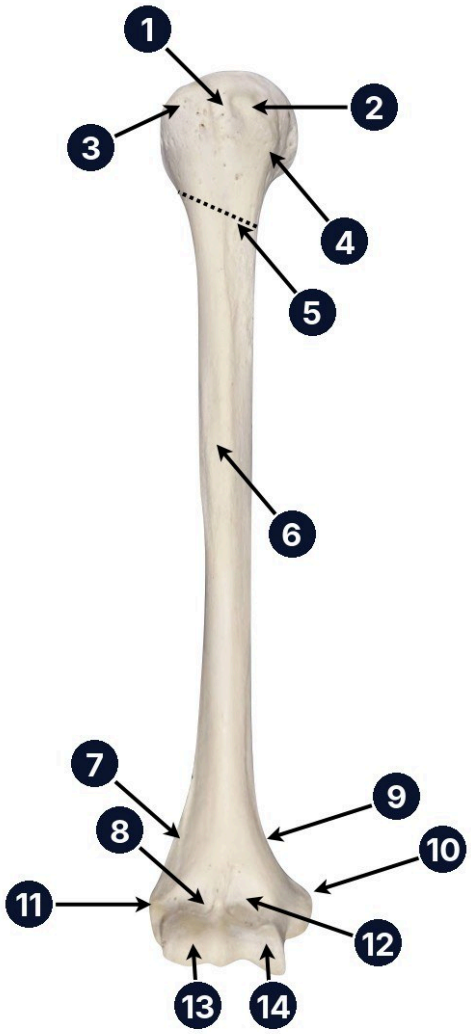

1. Name this bone feature.
   Olecranon fossa

Check your answers, then wipe the front clean for the next round.

PRACTICE

Humerus, anterior (model)

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

12 _____

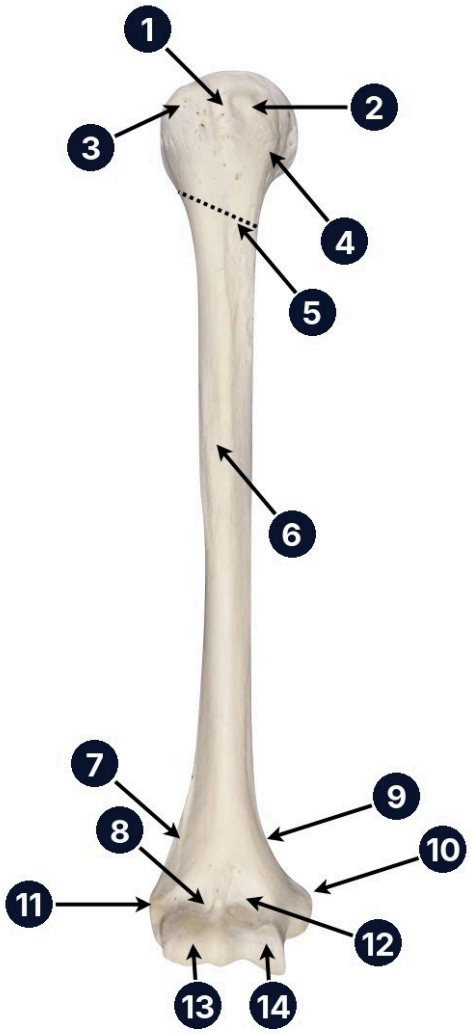

13 _____

14 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Humerus, anterior (model)

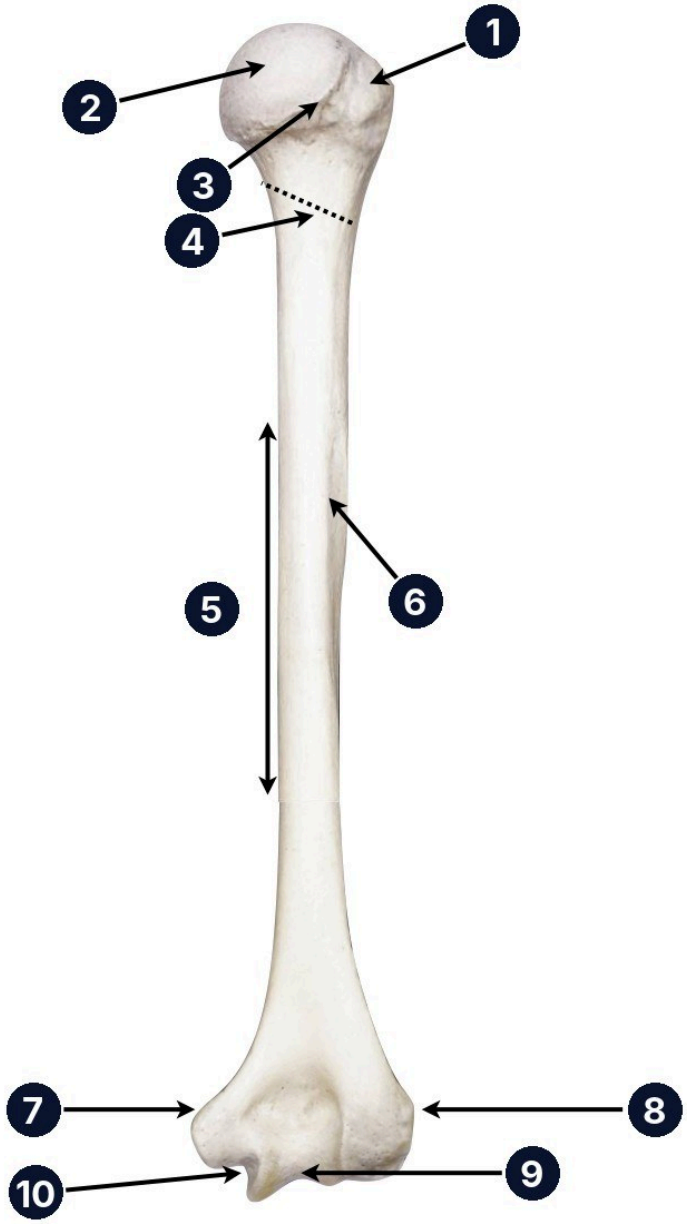

1. Intertubercular sulcus
2. Lesser tubercle
3. Greater tubercle
4. Anatomical neck
5. Surgical neck
6. Deltoid tuberosity
7. Lateral supracondylar ridge
8. Radial fossa
9. Medial supracondylar ridge
10. Medial epicondyle
11. Lateral epicondyle
12. Coronoid fossa
13. Capitulum
14. Trochlea

Check your answers, then wipe the front clean for the next round.

PRACTICE

Humerus, posterior (model)

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

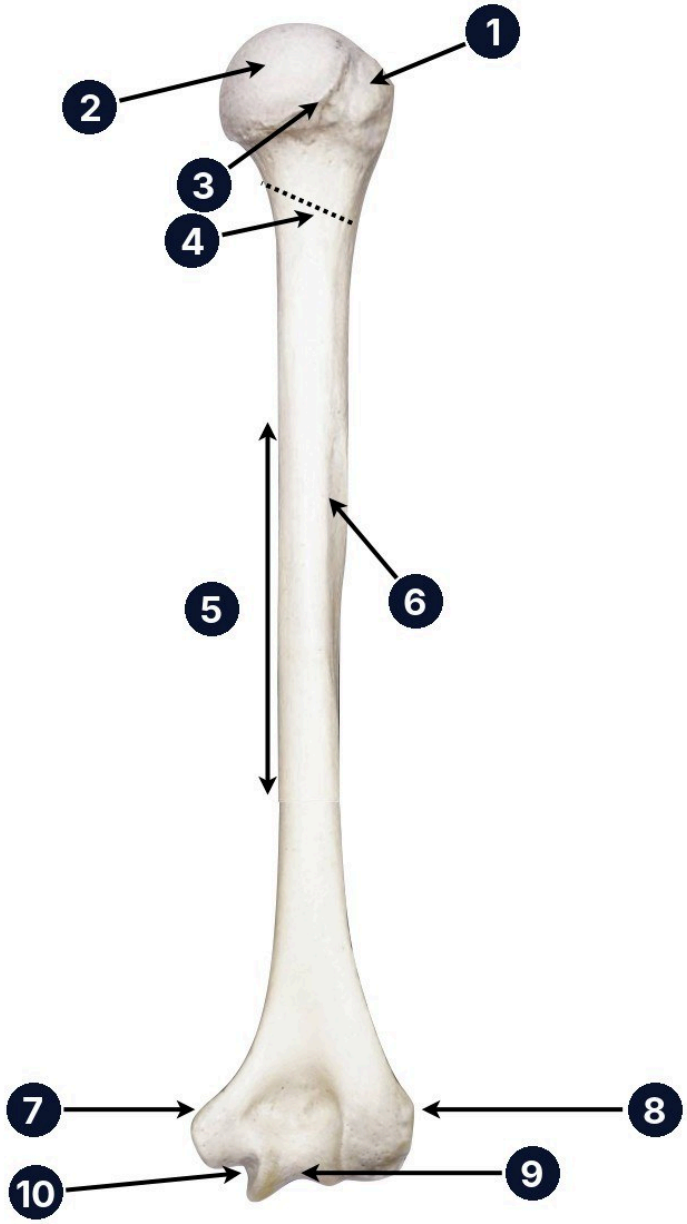

9 _____

10 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Humerus, posterior (model)

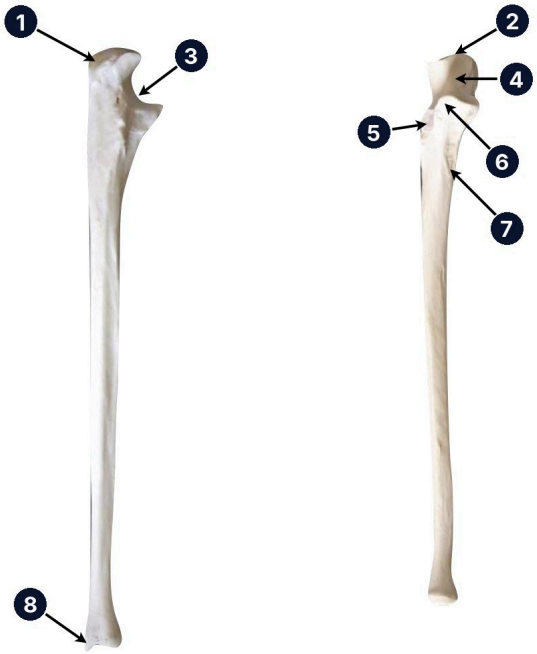

1. Greater tubercle
2. Head
3. Anatomical neck
4. Surgical neck
5. Body (shaft) of humerus
6. Radial groove
7. Medial epicondyle
8. Lateral epicondyle
9. Trochlea
10. Ulnar groove

Check your answers, then wipe the front clean for the next round.

PRACTICE

Ulna, lateral and anterior (model)

1. Name this feature of the ulna.
2. Name this feature of the ulna.
3. Name this feature of the ulna.
4. Name this feature of the ulna.
5. Name this feature of the ulna.
6. Name this feature of the ulna.
7. Name this feature of the ulna.
8. Name this feature of the ulna.

Write each answer on its line with a dry-erase marker, then flip the card to check.

PRACTICE

Radius (model)

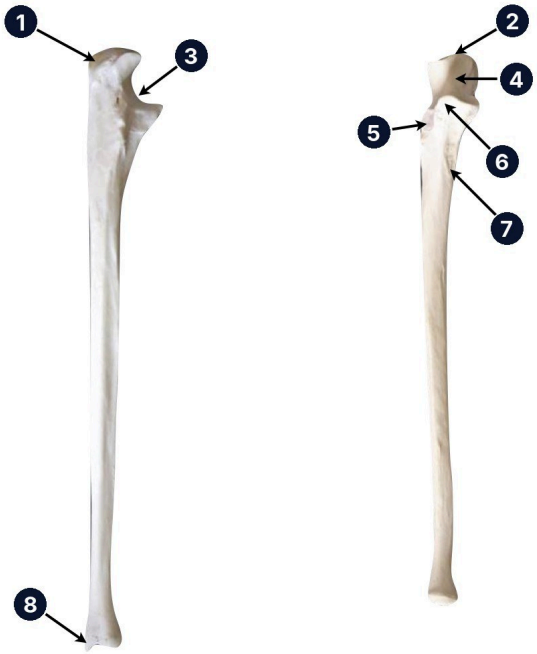

1. Name this feature of the radius.
2. Name this feature of the radius.
3. Name this feature of the radius.
4. Name this feature of the radius.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 11 · RADIUS AND ULNA

ANSWER KEY

Ulna, lateral and anterior (model)

1. Name this feature of the ulna.
   Olecranon process
2. Name this feature of the ulna.
   Olecranon process
3. Name this feature of the ulna.
   Trochlear notch
4. Name this feature of the ulna.
   Trochlear notch
5. Name this feature of the ulna.
   Radial notch
6. Name this feature of the ulna.
   Coronoid process
7. Name this feature of the ulna.
   Ulnar tuberosity
8. Name this feature of the ulna.
   Styloid process

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 12 · RADIUS AND ULNA

ANSWER KEY

Radius (model)

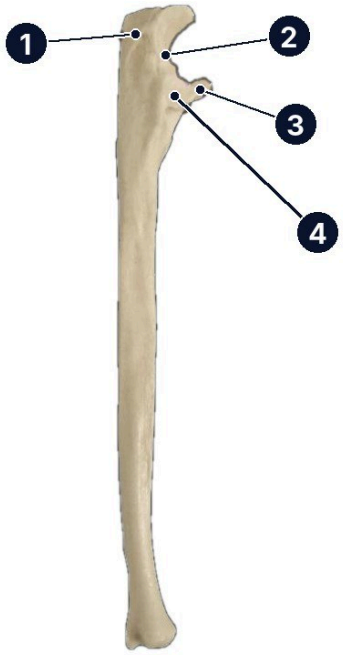

1. Name this feature of the radius.
   Articular fovea
2. Name this feature of the radius.
   Head of radius
3. Name this feature of the radius.
   Radial tuberosity
4. Name this feature of the radius.
   Styloid process

Check your answers, then wipe the front clean for the next round.

PRACTICE

Ulna, lateral view

1. Name this bone feature.

2. Name this bone feature.

3. Name this bone feature.

4. Name this bone feature.

Write each answer on its line with a dry-erase marker, then flip the card to check.

PRACTICE

Radius, anterior view

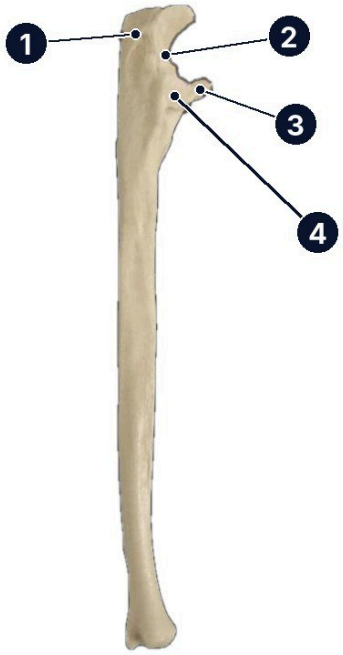

1. Name this feature of the radius.

2. Name this bone feature.

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Ulna, lateral view

1. Name this bone feature.
   Olecranon
2. Name this bone feature.
   Trochlear notch
3. Name this bone feature.
   Coronoid process
4. Name this bone feature.
   Radial notch

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Radius, anterior view

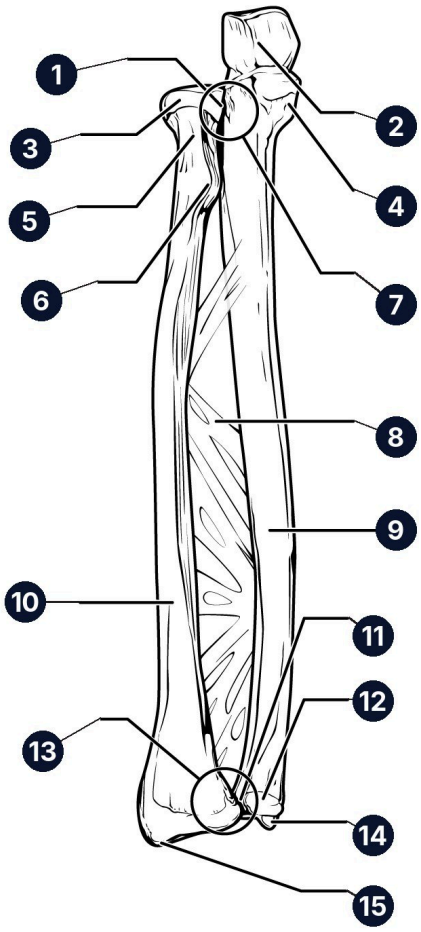

1. Name this feature of the radius.
   Head
2. Name this bone feature.
   Radial tuberosity

Check your answers, then wipe the front clean for the next round.

PRACTICE

Radius and ulna, anterior (OpenStax drawing)

Right forearm, anterior view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

12 _____

13 _____

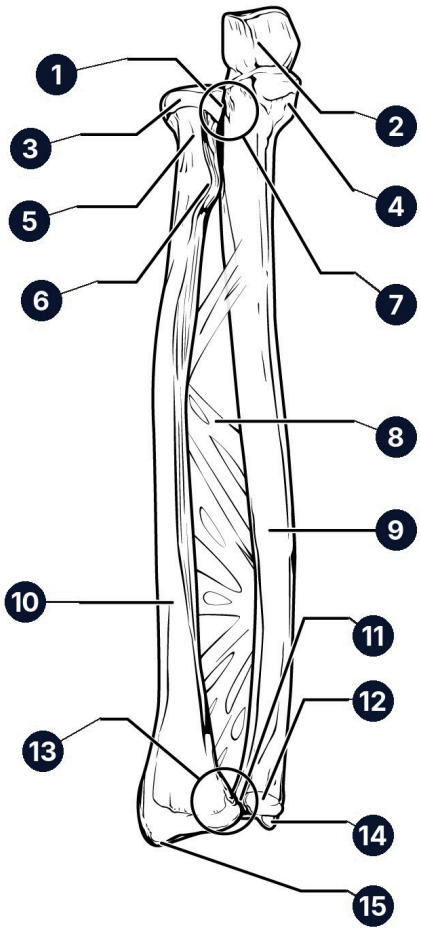

14 _____

15 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Radius and ulna, anterior (OpenStax drawing)

Right forearm, anterior view

1. Radial notch
2. Trochlear notch
3. Head of radius
4. Coronoid process
5. Neck of radius
6. Radial tuberosity
7. Proximal radioulnar joint
8. Interosseous membrane
9. Ulna
10. Radius
11. Ulnar notch
12. Head of ulna
13. Distal radioulnar joint
14. Styloid process of ulna
15. Styloid process of radius

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 16 · HAND

Hand, color-coded (model)

PRACTICE

1. Name this group of bones.
2. Name this group of bones.
3. Name this group of bones.
4. Name this group of bones.
5. Name this group of bones.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 17 · HAND

Carpal bones, color-coded (model)

PRACTICE

1. Name this carpal bone.
2. Name this carpal bone.
3. Name this carpal bone.
4. Name this carpal bone.
5. Name this carpal bone.
6. Name this carpal bone.
7. Name this carpal bone.

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Hand, color-coded (model)

1. Name this group of bones.
   Distal phalanx
2. Name this group of bones.
   Middle phalanx
3. Name this group of bones.
   Proximal phalanx
4. Name this group of bones.
   Metacarpals
5. Name this group of bones.
   Carpals

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Carpal bones, color-coded (model)

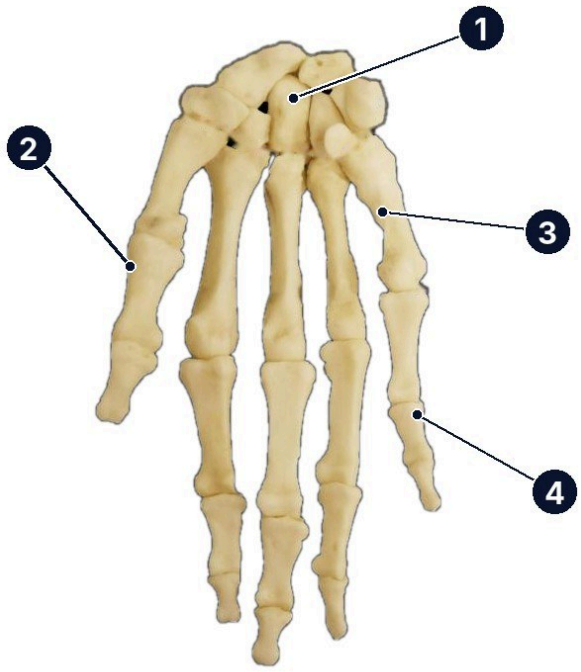

1. Name this carpal bone.
   Hamate
2. Name this carpal bone.
   Pisiform
3. Name this carpal bone.
   Trapezium
4. Name this carpal bone.
   Trapezoid
5. Name this carpal bone.
   Capitate
6. Name this carpal bone.
   Triquetrum
7. Name this carpal bone.
   Scaphoid
8. Name this carpal bone.
   Lunate

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 18 · HAND

PRACTICE

Bones of the hand, anterior view

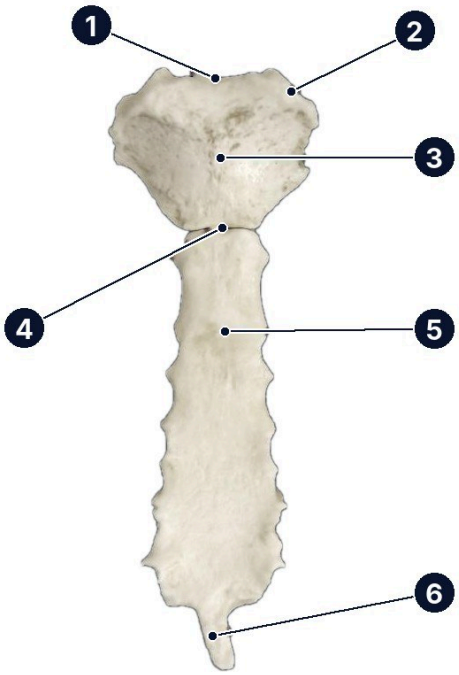

1. Name this group of bones.
2. Name this digit.
3. Name this group of bones.
4. Name this group of bones.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 19 · STERNUM

PRACTICE

Sternum, anterior view

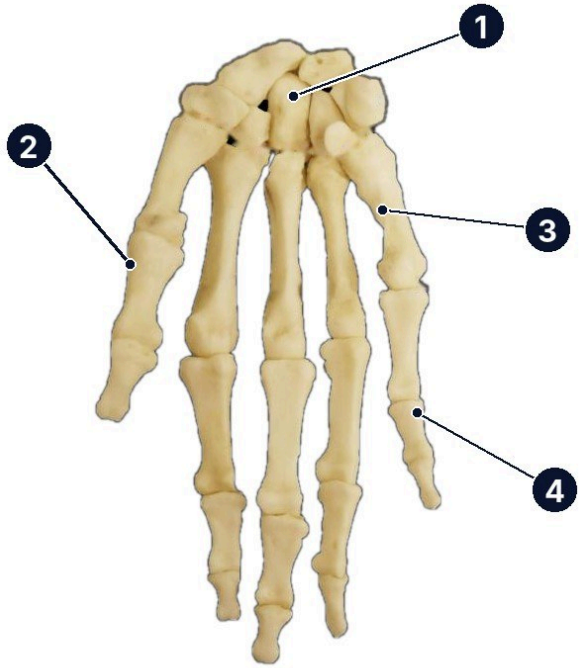

1. Name this bone feature.
2. Name this bone feature.
3. Name this part of the sternum.
4. Name this bone feature.
5. Name this part of the sternum.
6. Name this part of the sternum.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 18 · HAND

ANSWER KEY

Bones of the hand, anterior view

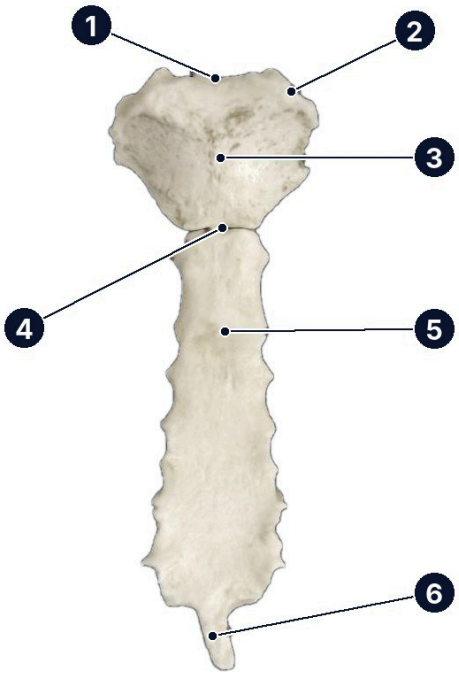

1. Name this group of bones.
   Carpals
2. Name this digit.
   Pollex (thumb)
3. Name this group of bones.
   Metacarpals
4. Name this group of bones.
   Phalanges

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 19 · STERNUM

ANSWER KEY

Sternum, anterior view

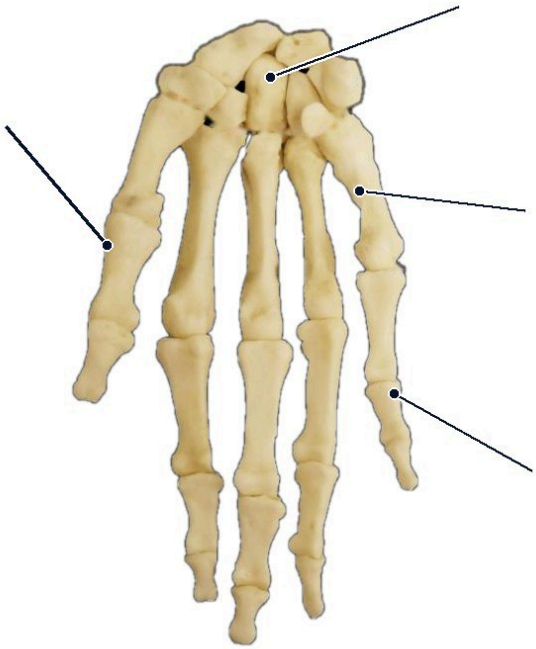

1. Name this bone feature.
   Jugular notch
2. Name this bone feature.
   Clavicular notch
3. Name this part of the sternum.
   Manubrium
4. Name this bone feature.
   Sternal angle
5. Name this part of the sternum.
   Body of sternum
6. Name this part of the sternum.
   Xiphoid process

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 20 · HAND

Upper limb bones: quick check

PRACTICE

1. Which bone of the forearm is on the thumb side?

2. Which part of the humerus meets the radius? Which meets the ulna?

3. How many carpals, metacarpals and phalanges are in one hand?

4. Which part of the scapula forms the shoulder joint with the humerus?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 21 · HAND

Carpals and digits: quick check

PRACTICE

1. Name the proximal row of carpals, lateral to medial.

2. Name the distal row of carpals, medial to lateral.

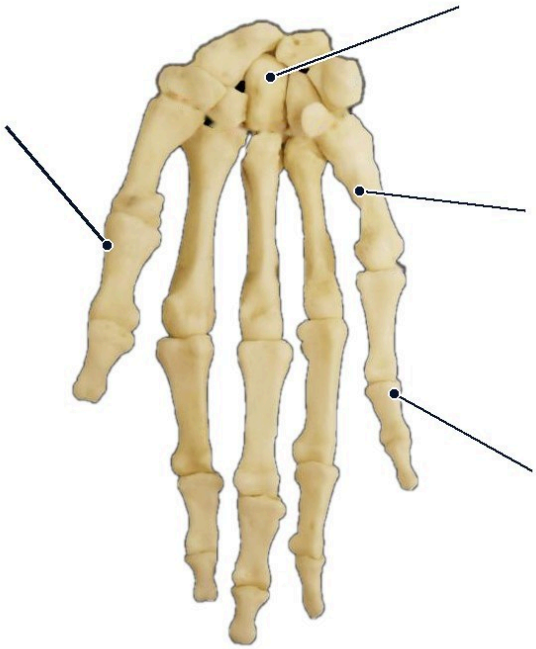

3. Which digit has no middle phalanx?

4. Metacarpals are numbered 1 to 5 starting on which side?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Upper limb bones: quick check

1. Which bone of the forearm is on the thumb side?
   Radius
2. Which part of the humerus meets the radius? Which meets the ulna?
   Capitulum meets the radius; trochlea meets the ulna
3. How many carpals, metacarpals and phalanges are in one hand?
   8 carpals, 5 metacarpals, 14 phalanges
4. Which part of the scapula forms the shoulder joint with the humerus?
   Glenoid cavity (fossa)

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Carpals and digits: quick check

1. Name the proximal row of carpals, lateral to medial.
   Scaphoid, lunate, triquetrum, pisiform (So Long To Pinky)
2. Name the distal row of carpals, medial to lateral.
   Hamate, capitate, trapezoid, trapezium (Here Comes The Thumb)
3. Which digit has no middle phalanx?
   Thumb (pollex)
4. Metacarpals are numbered 1 to 5 starting on which side?
   Lateral (thumb side)

Check your answers, then wipe the front clean for the next round.
