BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 1 · SHOULDER AND BACK

PRACTICE

Muscle chart 1

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 2 · SHOULDER AND BACK

PRACTICE

Muscle chart 2

1. Name the highlighted muscle.

2. Origin?

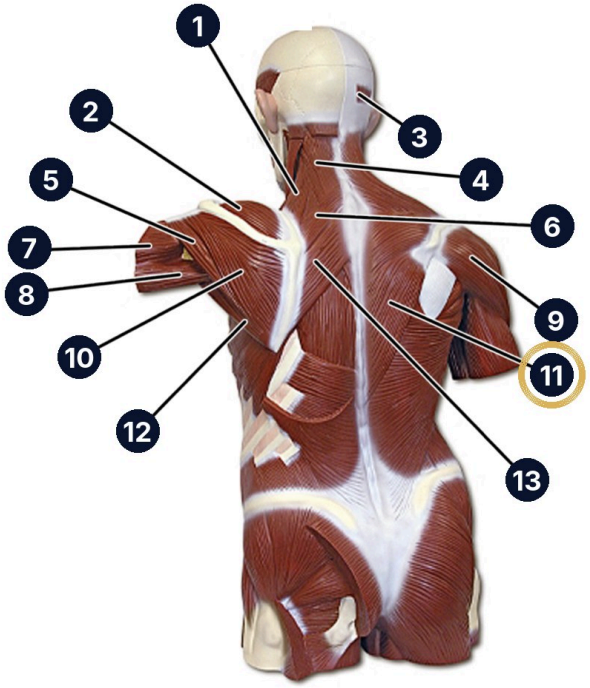

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 1

1. Name the muscle at the gold ring.
   Trapezius
2. Origin?
   Occipital bone; ligamentum nuchae; spinous processes of C7 to T12
3. Insertion?
   Lateral clavicle; acromion process; spine of scapula
4. Action?
   Upper fibers elevate the scapula and extend the neck; middle fibers adduct (retract) the scapula; lower fibers depress the scapula; together they upwardly rotate the

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 2

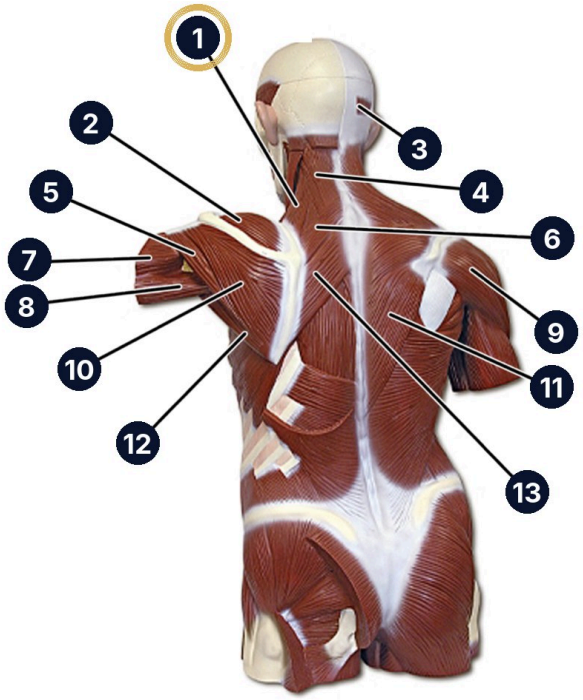

1. Name the highlighted muscle.
   Latissimus dorsi
2. Origin?
   Spinous processes of T7 to L5; thoracolumbar fascia; iliac crest; ribs 9 to 12
3. Insertion?
   Intertubercular groove of humerus
4. Action?
   Extends, adducts and medially rotates the shoulder; horizontal extension (the "swimming muscle")

Check your answers, then wipe the front clean for the next round.

PRACTICE

Muscle chart 3

1. Name the muscle at the gold ring.

2. Origin?

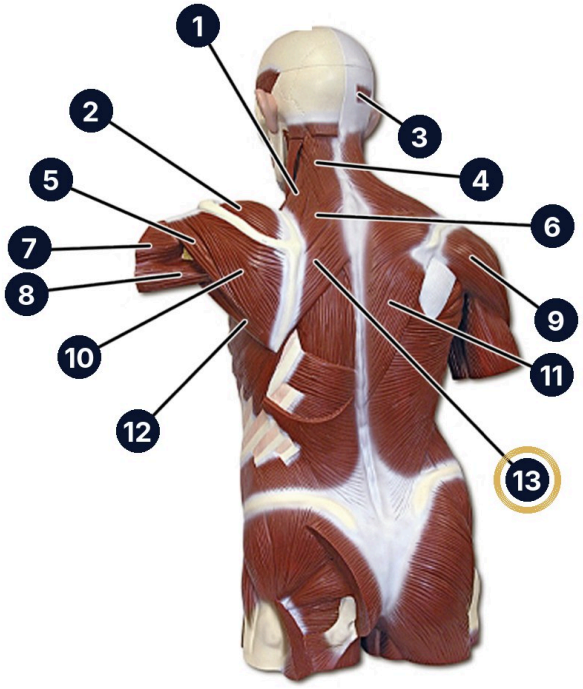

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

PRACTICE

Muscle chart 4

1. Name the muscle at the gold ring.

2. Origin?

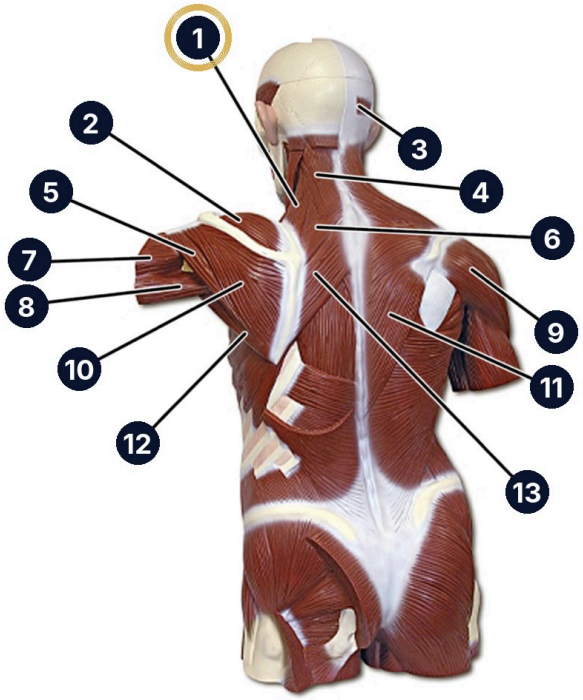

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 3

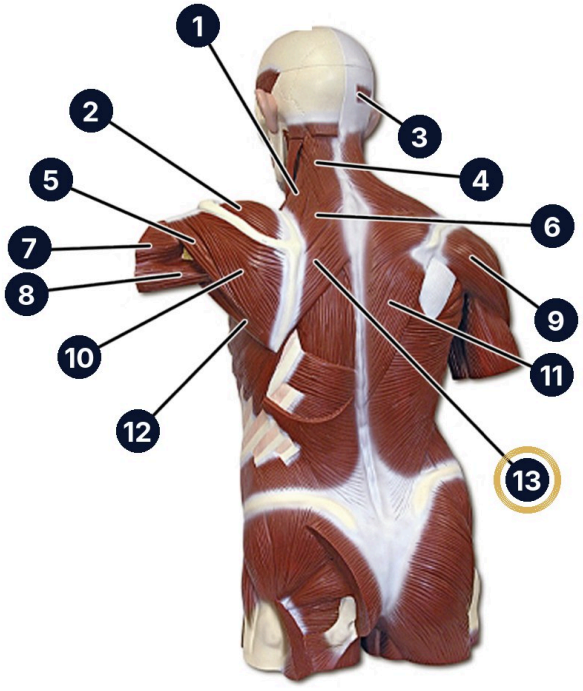

1. Name the muscle at the gold ring.
   Levator scapulae
2. Origin?
   Transverse processes of C1 to C4
3. Insertion?
   Medial border of scapula (superior angle)
4. Action?
   Elevates the scapula; downwardly rotates the scapula (with the rhomboids)

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 4

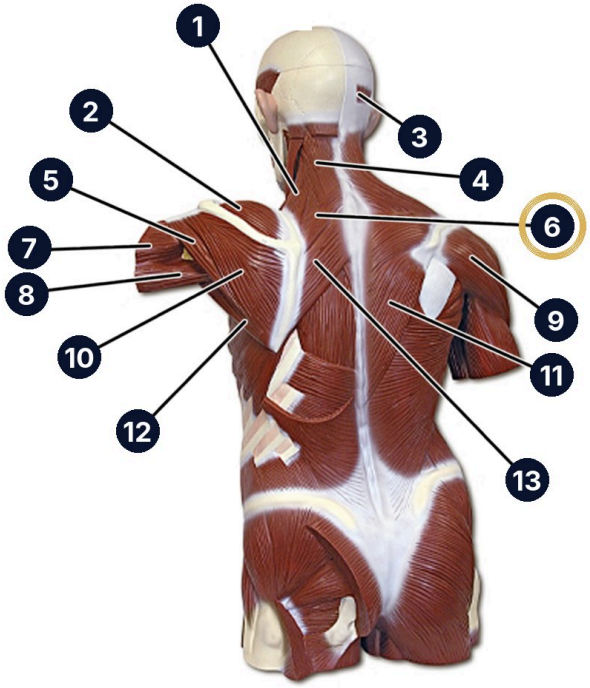

1. Name the muscle at the gold ring.
   Rhomboid major
2. Origin?
   Spinous processes of T2 to T5
3. Insertion?
   Medial border of scapula (below the spine of the scapula)
4. Action?
   Adducts (retracts) the scapula; downwardly rotates the scapula; elevates the medial border

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 5 · SHOULDER AND BACK

PRACTICE

Muscle chart 5

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

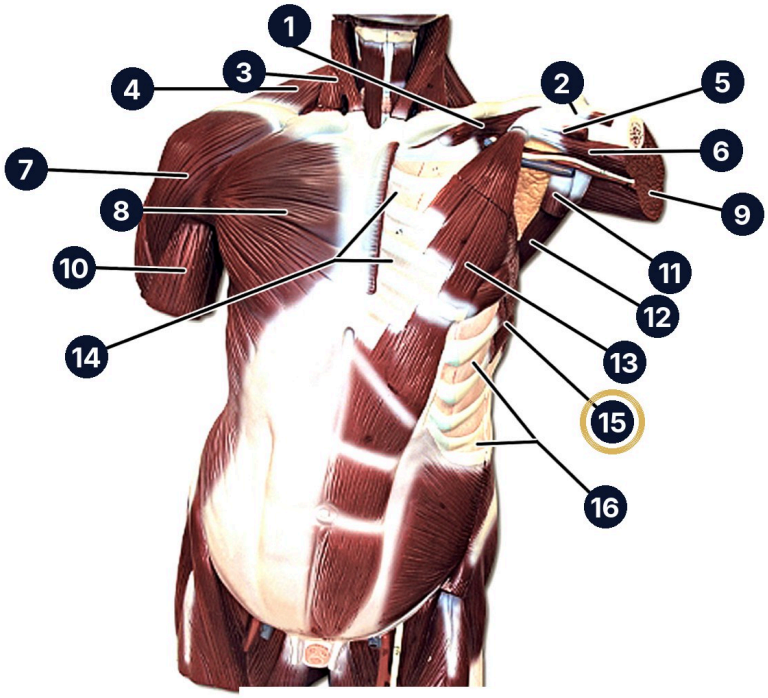

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 6 · SHOULDER AND BACK

PRACTICE

Muscle chart 6

1. Name the muscle at the gold ring.

2. Origin?

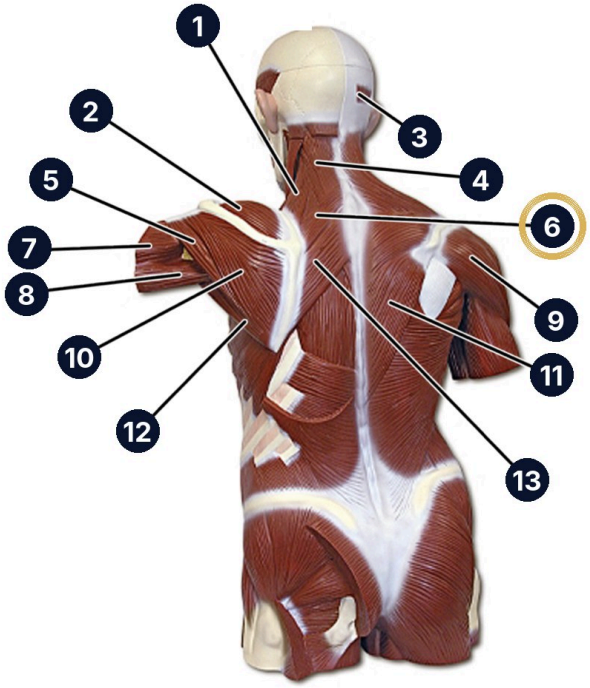

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 5

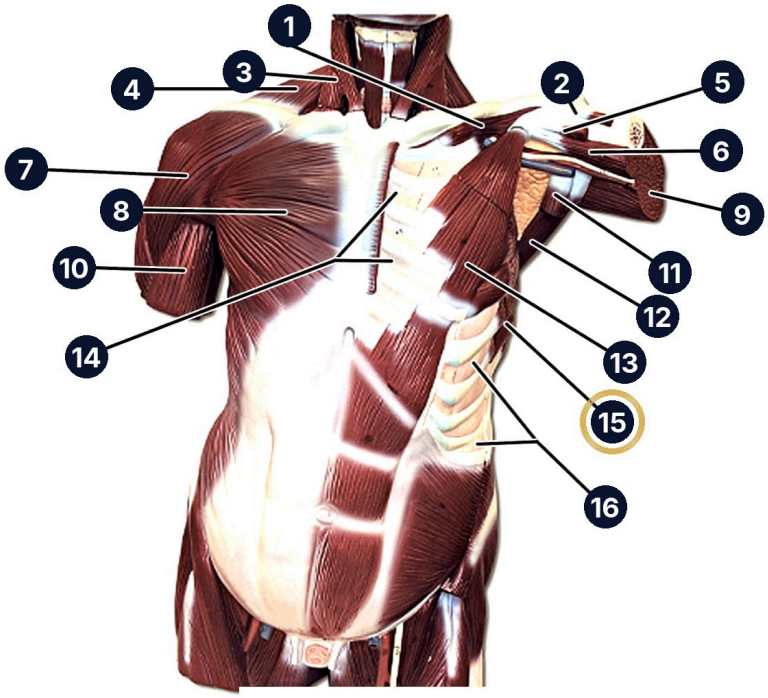

1. Name the muscle at the gold ring.
   Rhomboid minor
2. Origin?
   Spinous processes of C7 and T1
3. Insertion?
   Medial border of scapula (at the level of the spine of the scapula)
4. Action?
   Adducts (retracts) the scapula; downwardly rotates the scapula

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 6

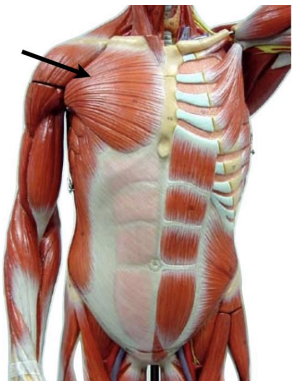

1. Name the muscle at the gold ring.
   Serratus anterior
2. Origin?
   Ribs 1 to 8 (lateral surfaces, along the midaxillary line)
3. Insertion?
   Anterior (costal) surface of medial border of scapula
4. Action?
   Protracts (abducts) the scapula; upwardly rotates the scapula; holds the scapula flat against the rib cage

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 7 · SHOULDER AND BACK

PRACTICE

Muscle chart 7

1. Name the highlighted muscle.

2. Origin?

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 8 · SHOULDER AND BACK

PRACTICE

Muscle chart 8

1. Name the highlighted muscle.

2. Origin?

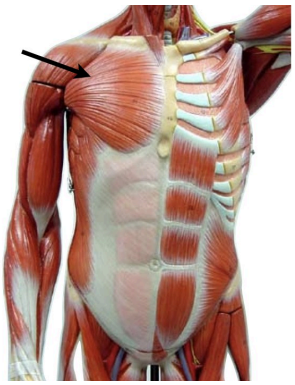

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 7

1. Name the highlighted muscle.
   Pectoralis major
2. Origin?
   Medial clavicle; sternum; costal cartilages of ribs 1 to 6
3. Insertion?
   Intertubercular (bicipital) groove of humerus and greater tubercle
4. Action?
   Flexes, adducts and medially rotates the shoulder; horizontal adduction (prime mover)

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 8

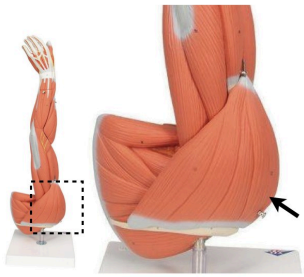

1. Name the highlighted muscle.
   Pectoralis minor
2. Origin?
   Ribs 3 to 5 (anterior surfaces and costal cartilages)
3. Insertion?
   Coracoid process of scapula
4. Action?
   Protracts and depresses the scapula; elevates the ribs (accessory inspiration)

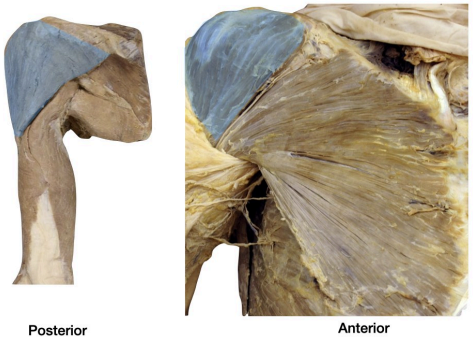

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 9 · SHOULDER AND BACK

PRACTICE

Muscle chart 9

1. Name the highlighted muscle.

2. Origin?

3. Insertion?

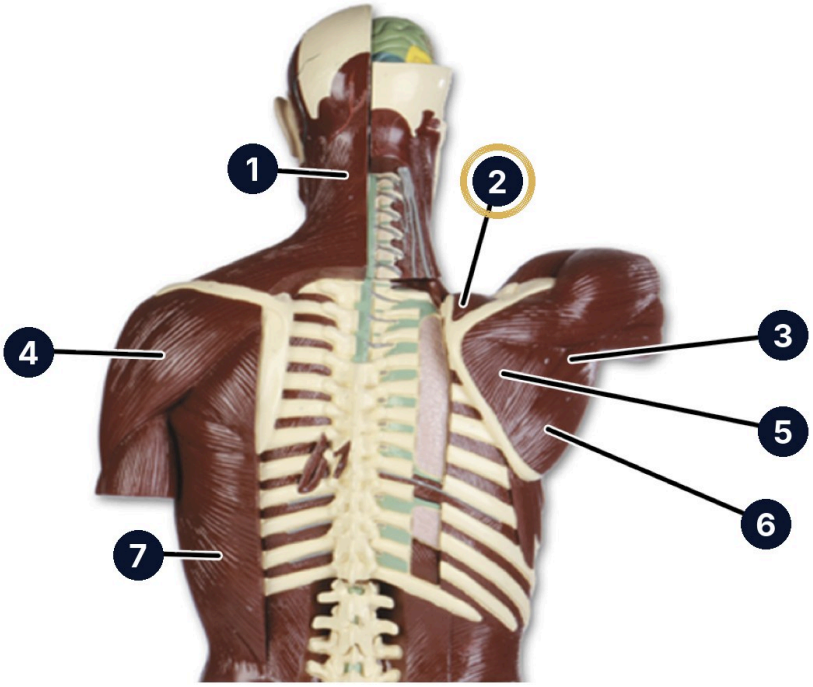

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 10 · SHOULDER AND BACK

PRACTICE

Muscle chart 10

1. Name the muscle at the gold ring.

2. Origin?

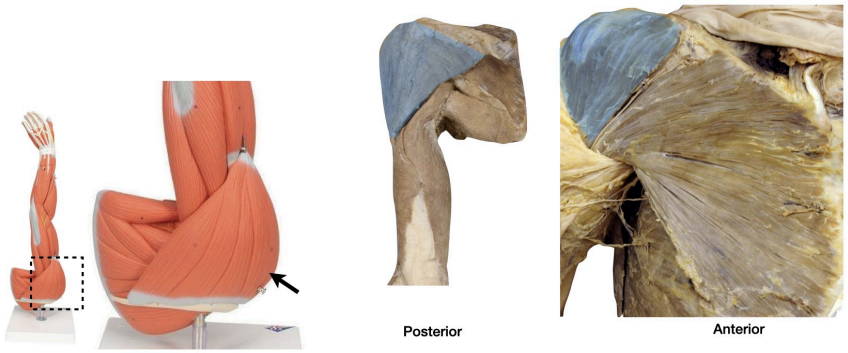

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 9

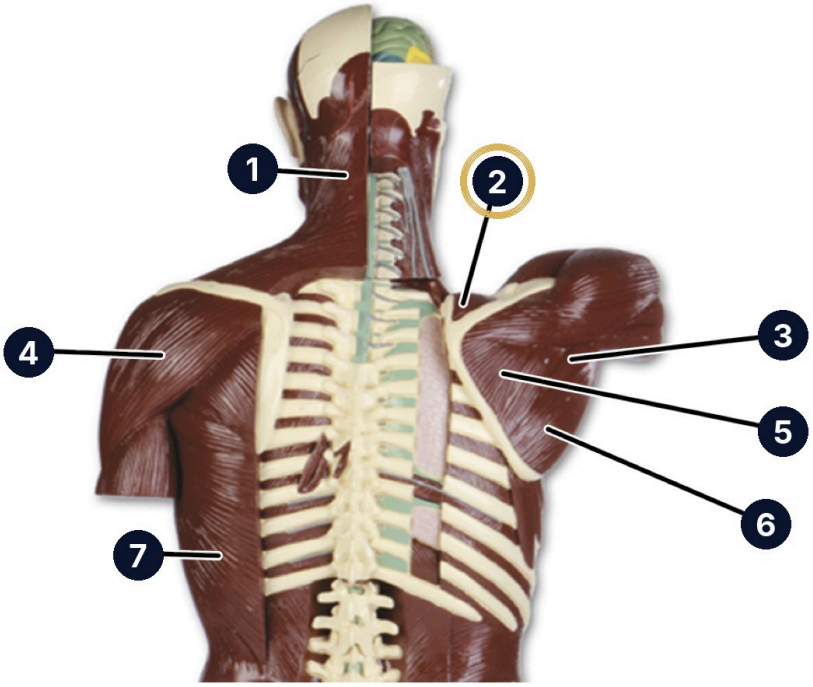

1. Name the highlighted muscle.
   Deltoid
2. Origin?
   Lateral clavicle; acromion process; spine of scapula
3. Insertion?
   Deltoid tuberosity of humerus
4. Action?
   Anterior fibers flex the shoulder; posterior fibers extend the shoulder; all fibers together abduct the arm (prime mover, 15 to 90 degrees)

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 10

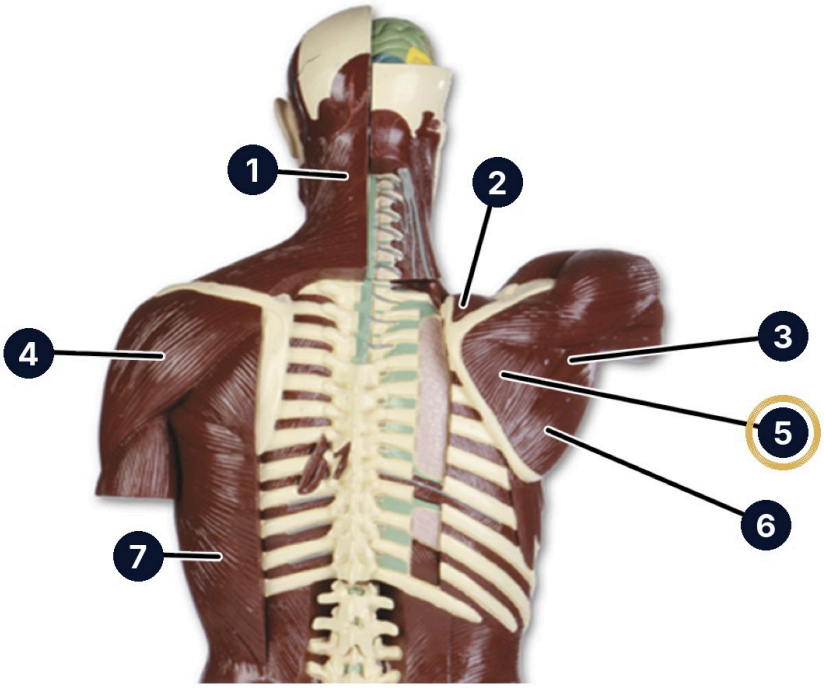

1. Name the muscle at the gold ring.
   Supraspinatus
2. Origin?
   Supraspinous fossa of scapula
3. Insertion?
   Greater tubercle of humerus (superior facet)
4. Action?
   Initiates abduction of the arm (first 15 degrees); stabilizes the glenohumeral joint

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 11 · SHOULDER AND BACK

PRACTICE

Muscle chart 11

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

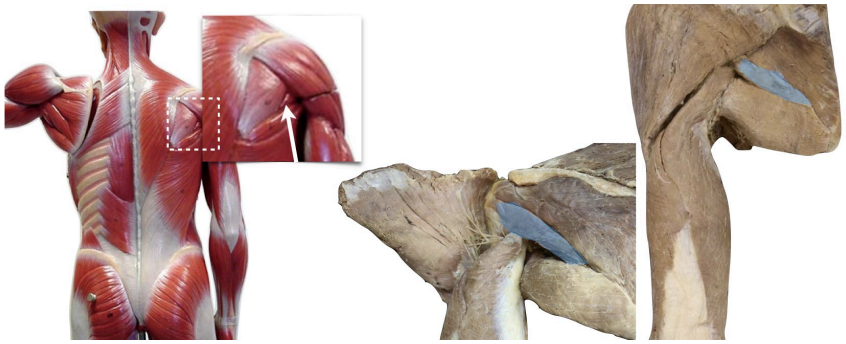

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 12 · SHOULDER AND BACK

PRACTICE

Muscle chart 12

1. Name the highlighted muscle.

2. Origin?

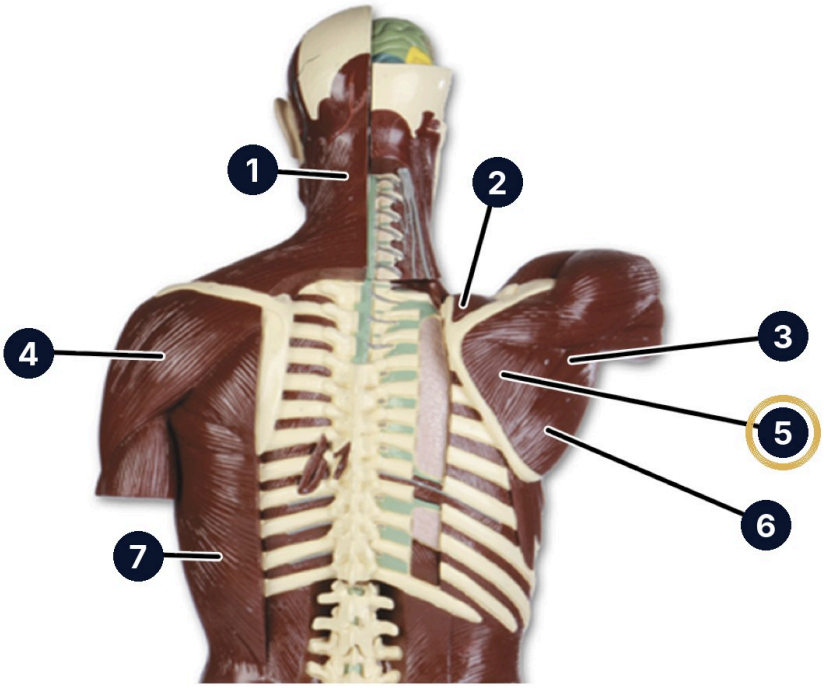

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 11

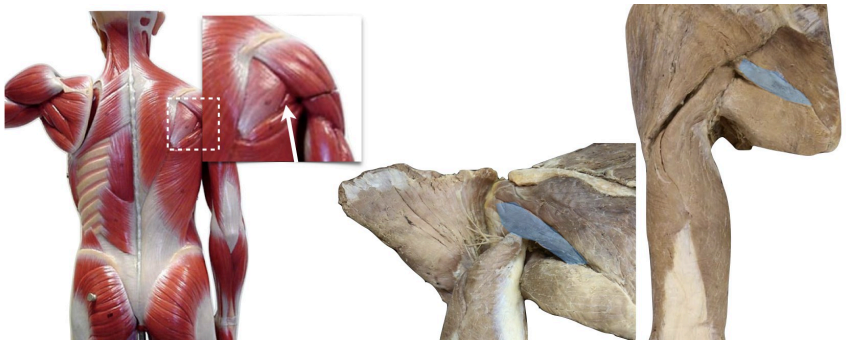

1. Name the muscle at the gold ring.
   Infraspinatus
2. Origin?
   Infraspinous fossa of scapula
3. Insertion?
   Greater tubercle of humerus (middle facet)
4. Action?
   Laterally rotates the arm; stabilizes the glenohumeral joint

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 12

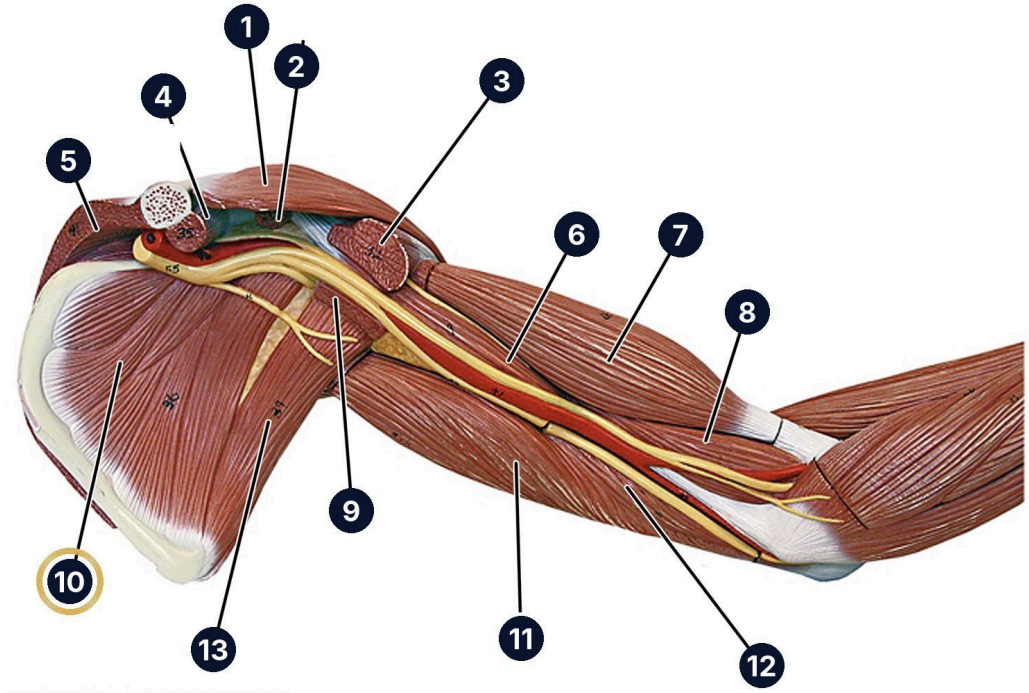

1. Name the highlighted muscle.
   Teres minor
2. Origin?
   Lateral border of scapula (superior portion)
3. Insertion?
   Greater tubercle of humerus (inferior facet)
4. Action?
   Adducts and laterally rotates the arm; stabilizes the glenohumeral joint

Check your answers, then wipe the front clean for the next round.

PRACTICE

Muscle chart 13

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

12 _____

13 _____

Number 10, the muscle at the gold ring

10 Origin of number 10?

_____

10 Insertion of number 10?

_____

10 Action of number 10?

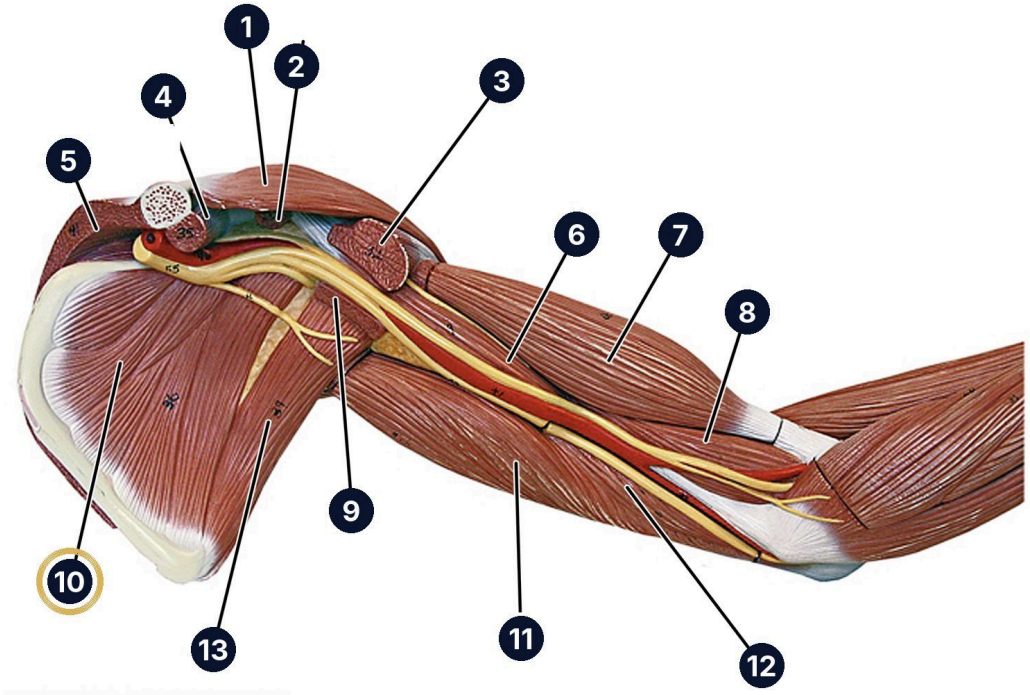

_____

_____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 13

1. Deltoid
2. Pectoralis minor (cut)
3. Pectoralis major (cut)
4. Subclavius (cut)
5. Trapezius (cut)
6. Coracobrachialis
7. Biceps brachii
8. Brachialis
9. Latissimus dorsi (cut)
10. Subscapularis
11. Triceps brachii, long head
12. Triceps brachii, medial head
13. Teres major

Number 10, the muscle at the gold ring

10 Origin of number 10?
Subscapular fossa of scapula (anterior surface)

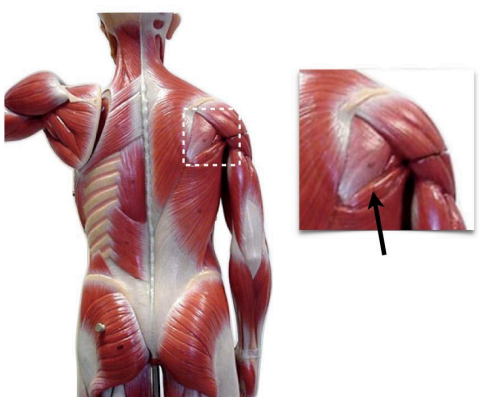

10 Insertion of number 10?
Lesser tubercle of humerus

10 Action of number 10?
Medially rotates the arm (strongest medial rotator of the shoulder); stabilizes the glenohumeral joint

Check your answers, then wipe the front clean for the next round.

PRACTICE

Muscle chart 14

1. Name the highlighted muscle.

2. Origin?

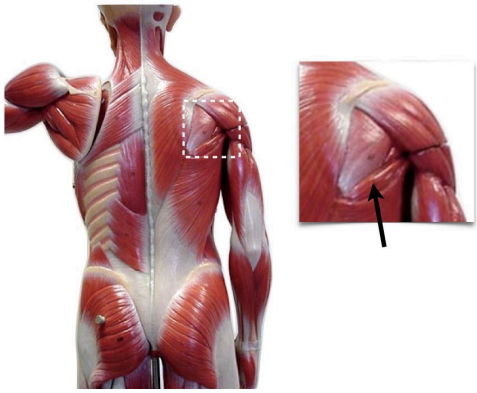

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 14

1. Name the highlighted muscle.
   Teres major
2. Origin?
   Lateral border and inferior angle of scapula
3. Insertion?
   Intertubercular groove of humerus (medial lip)
4. Action?
   Medially rotates, adducts and extends the arm; synergist of latissimus dorsi ("little lat")

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 15 · ARM

Muscle chart 15

PRACTICE

1. Name the highlighted muscle.

2. Origin?

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

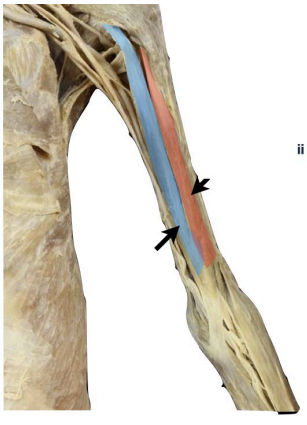

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 16 · ARM

Muscle chart 16

PRACTICE

1. Name the highlighted muscle.

2. Origin?

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 15 · ARM

Muscle chart 15

ANSWER KEY

1. Name the highlighted muscle.
   Coracobrachialis
2. Origin?
   Coracoid process of scapula
3. Insertion?
   Medial surface of humerus (mid-shaft)
4. Action?
   Flexes and adducts the shoulder (synergist of pectoralis major)

Check your answers, then wipe the front clean for the next round.

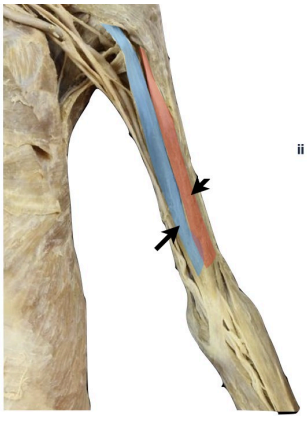

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 16 · ARM

Muscle chart 16

ANSWER KEY

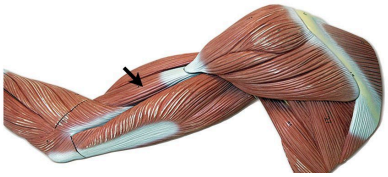

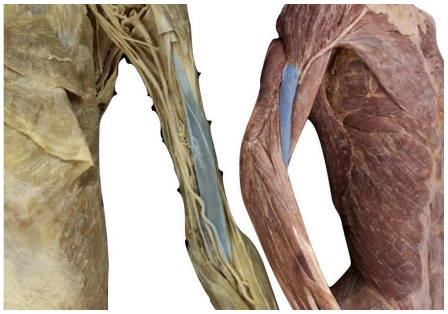

1. Name the highlighted muscle.
   Biceps brachii
2. Origin?
   Long head: supraglenoid tubercle of scapula. Short head: coracoid process of scapula
3. Insertion?
   Radial tuberosity; bicipital aponeurosis
4. Action?
   Flexes the elbow (prime mover); supinates the forearm; weak shoulder flexion

Check your answers, then wipe the front clean for the next round.

Muscle chart 17

PRACTICE

1. Name the highlighted muscle.

2. Origin?

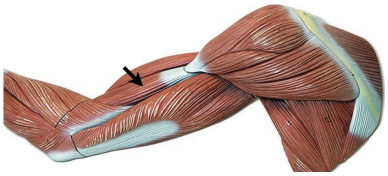

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

Muscle chart 17

ANSWER KEY

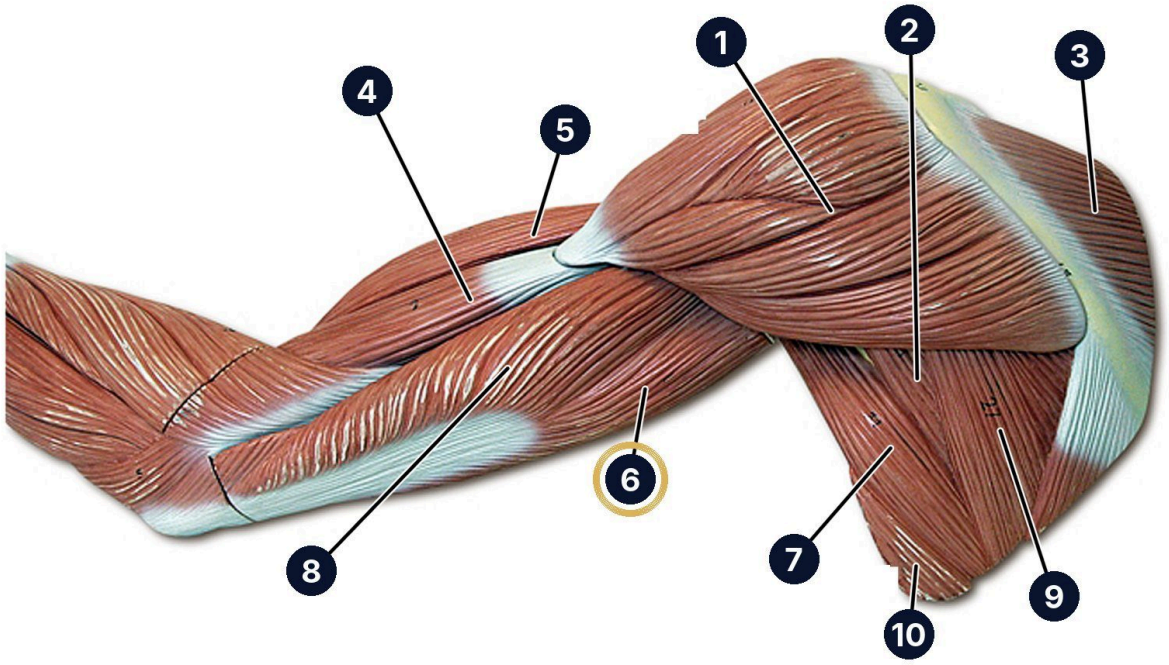

1. Name the highlighted muscle.
   Brachialis
2. Origin?
   Anterior surface of distal humerus
3. Insertion?
   Coronoid process and ulnar tuberosity of ulna
4. Action?
   Flexes the forearm at the elbow (primary, pure flexor; works whether the forearm is pronated or supinated)

Check your answers, then wipe the front clean for the next round.

Muscle chart 18

PRACTICE

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

Number 6, the muscle at the gold ring

6 Origin of number 6?

_____

6 Insertion of number 6?

_____

6 Action of number 6?

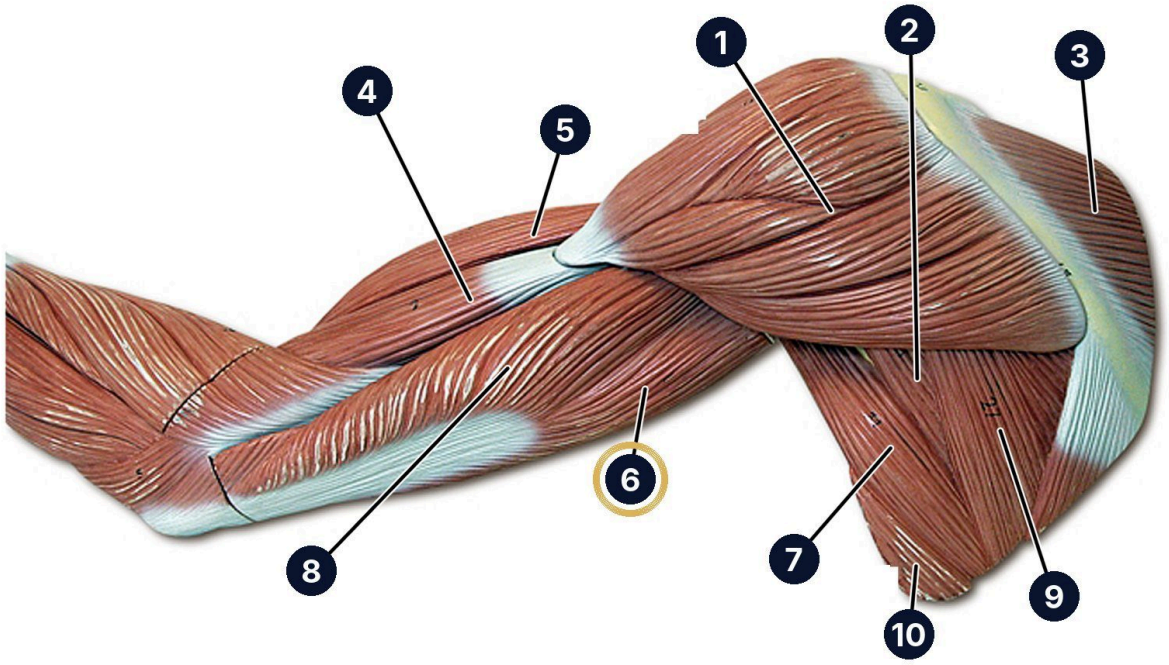

_____

_____

Write each answer on its line with a dry-erase marker, then flip the card to check.

Muscle chart 18

ANSWER KEY

1. Deltoid
2. Teres minor
3. Trapezius
4. Brachialis
5. Biceps brachii
6. Triceps brachii, long head
7. Teres major
8. Triceps brachii, lateral head
9. Infraspinatus
10. Latissimus dorsi

Number 6, the muscle at the gold ring

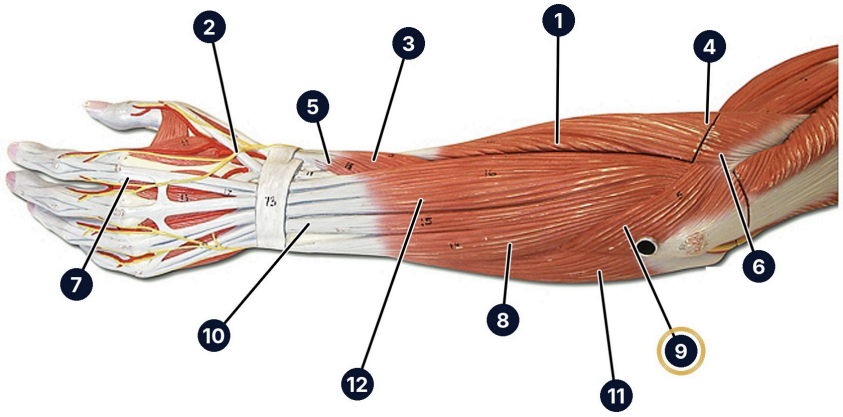

6. Origin of number 6?
   Long head: infraglenoid tubercle of scapula. Lateral and medial heads: posterior surface of humerus
6. Insertion of number 6?
   Olecranon process of ulna
6. Action of number 6?
   Extends the forearm at the elbow (prime mover); long head: weak shoulder extension and adduction

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 19 · ARM

Muscle chart 19

PRACTICE

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

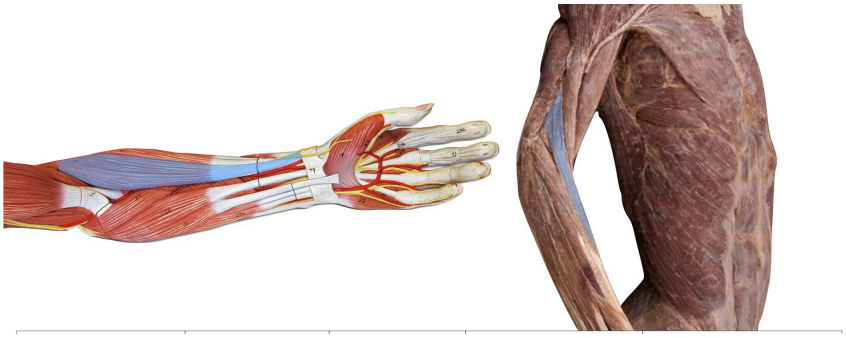

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 20 · FOREARM AND HAND

Muscle chart 20

PRACTICE

1. Name the highlighted muscle.

2. Origin?

3. Insertion?

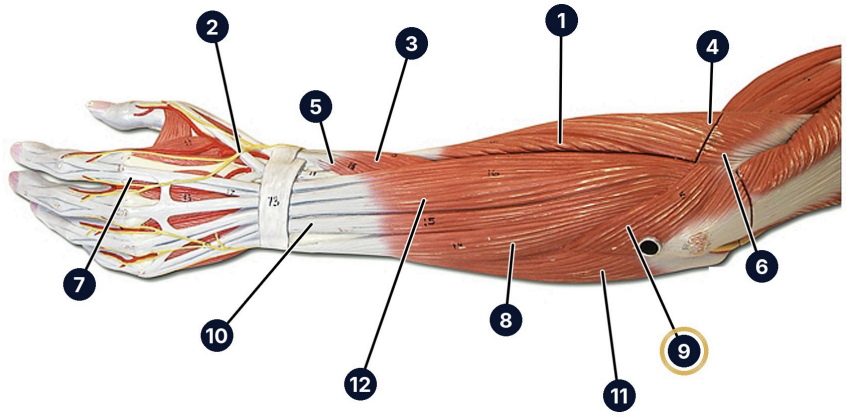

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 19 · ARM

Muscle chart 19

ANSWER KEY

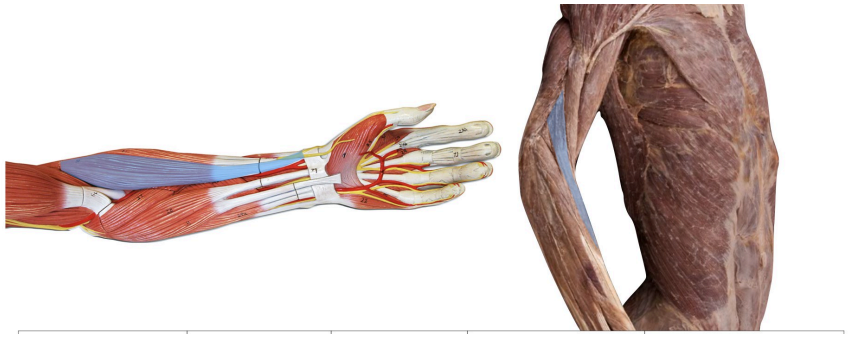

1. Name the muscle at the gold ring.
   Anconeus
2. Origin?
   Lateral epicondyle of humerus
3. Insertion?
   Olecranon process and posterior ulna
4. Action?
   Extends the elbow (synergist of triceps); abducts the ulna during pronation

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 20 · FOREARM AND HAND

Muscle chart 20

ANSWER KEY

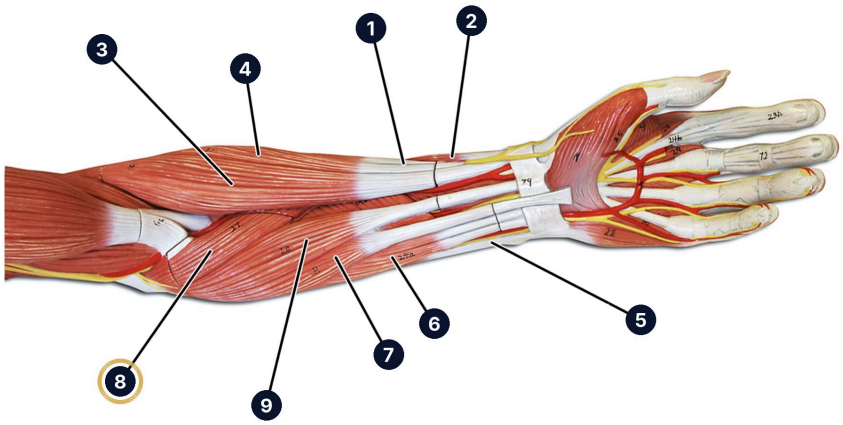

1. Name the highlighted muscle.
   Brachioradialis
2. Origin?
   Lateral supracondylar ridge of humerus
3. Insertion?
   Styloid process of radius
4. Action?
   Flexes the forearm at the elbow (strongest in the neutral, semi-prone position); stabilizes the elbow

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 21 · FOREARM AND HAND

PRACTICE

Muscle chart 21

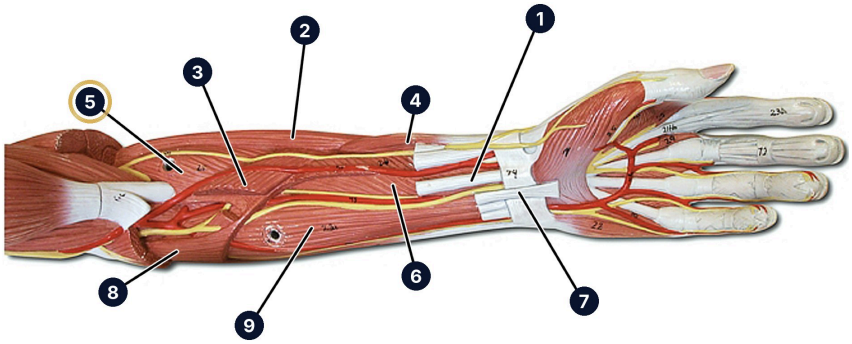

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 22 · FOREARM AND HAND

PRACTICE

Muscle chart 22

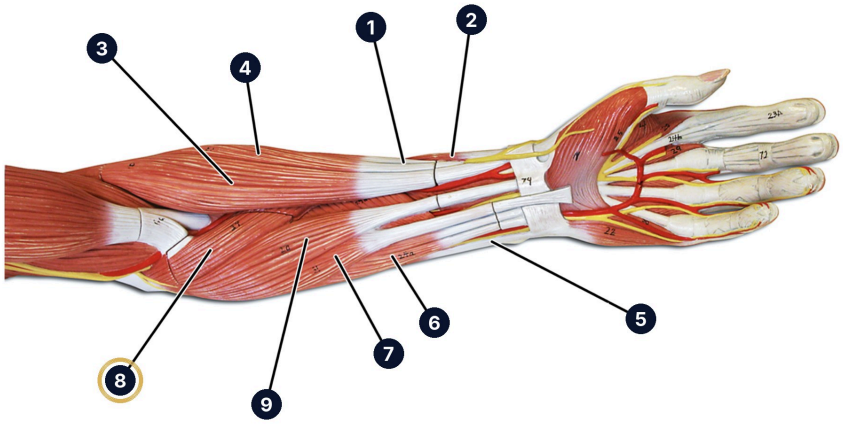

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 21

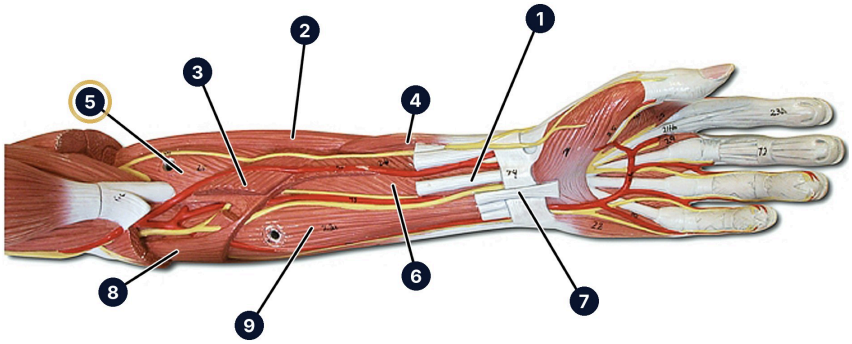

1. Name the muscle at the gold ring.
   Pronator teres
2. Origin?
   Medial epicondyle of humerus (humeral head); coronoid process of ulna (ulnar head)
3. Insertion?
   Lateral surface of radius (mid-shaft)
4. Action?
   Pronates the forearm (turns the palm downward); weak elbow flexion

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 22

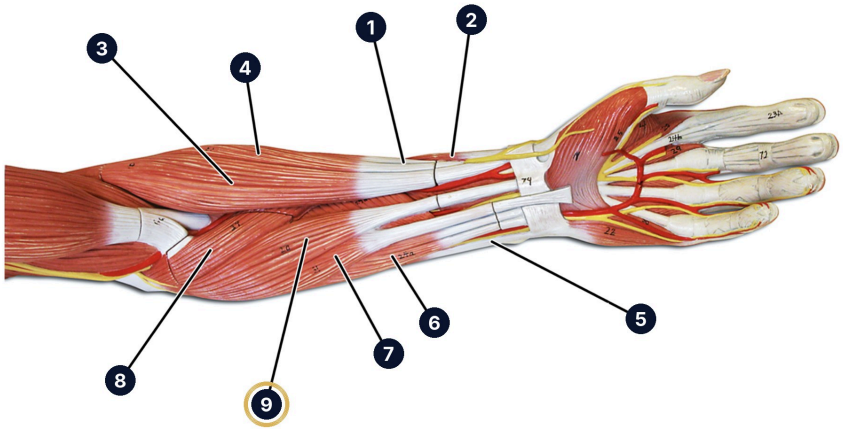

1. Name the muscle at the gold ring.
   Supinator
2. Origin?
   Lateral epicondyle of humerus; radial collateral ligament; proximal ulna
3. Insertion?
   Proximal radius (lateral surface)
4. Action?
   Supinates the forearm (turns the palm upward)

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 23 · FOREARM AND HAND

PRACTICE

Muscle chart 23

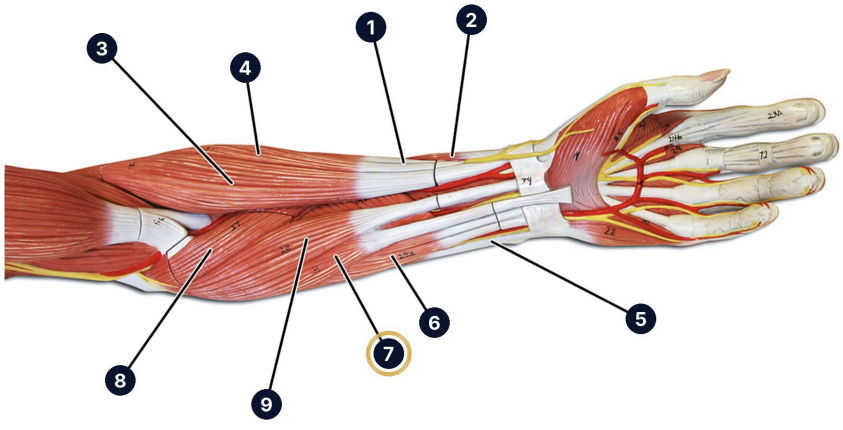

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 24 · FOREARM AND HAND

PRACTICE

Muscle chart 24

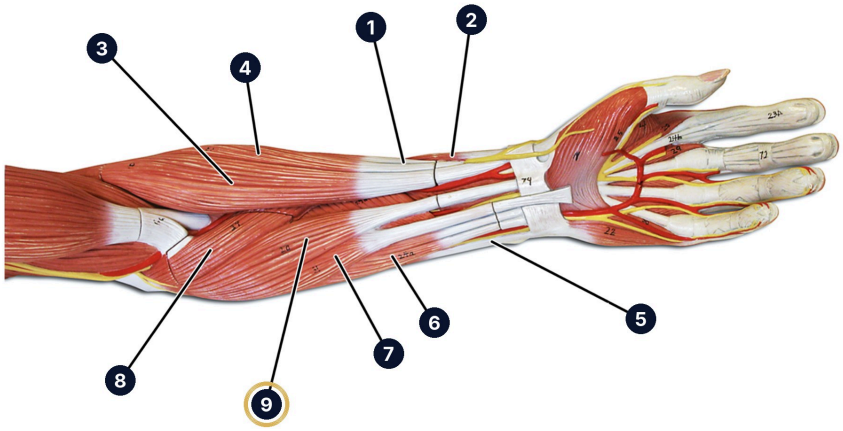

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 23

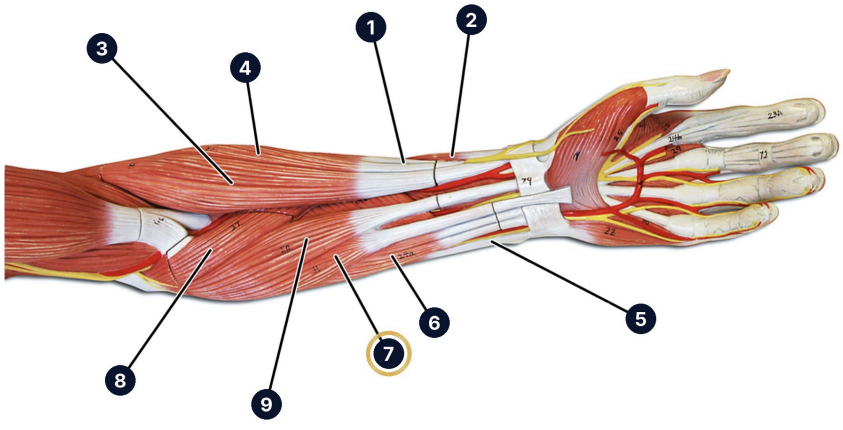

1. Name the muscle at the gold ring.
   Flexor carpi radialis
2. Origin?
   Medial epicondyle of humerus (common flexor tendon)
3. Insertion?
   Bases of metacarpals 2 and 3
4. Action?
   Flexes and abducts the wrist (radial deviation)

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 24

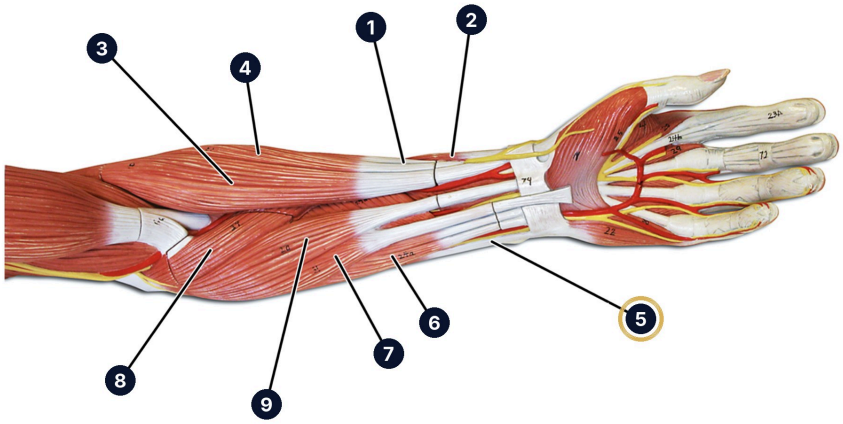

1. Name the muscle at the gold ring.
   Palmaris longus
2. Origin?
   Medial epicondyle of humerus (common flexor tendon)
3. Insertion?
   Palmar aponeurosis; flexor retinaculum
4. Action?
   Flexes the wrist; tenses the palmar fascia. Absent in about 14% of people

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 25 · FOREARM AND HAND

PRACTICE

Muscle chart 25

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

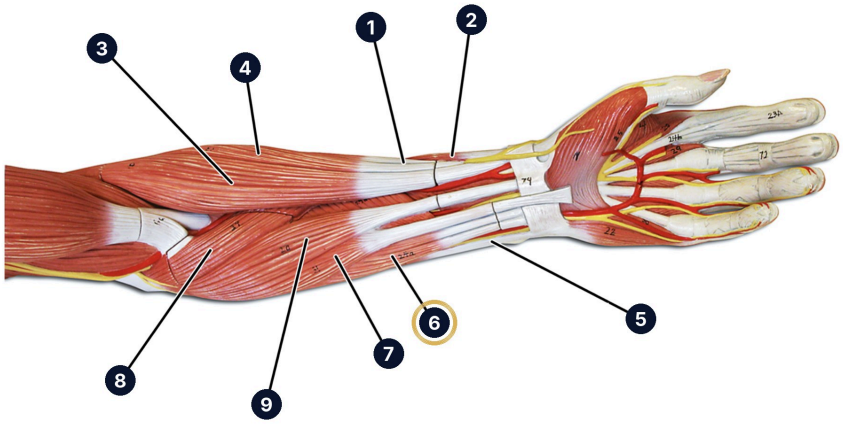

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 26 · FOREARM AND HAND

PRACTICE

Muscle chart 26

1. Name the muscle at the gold ring.

2. Origin?

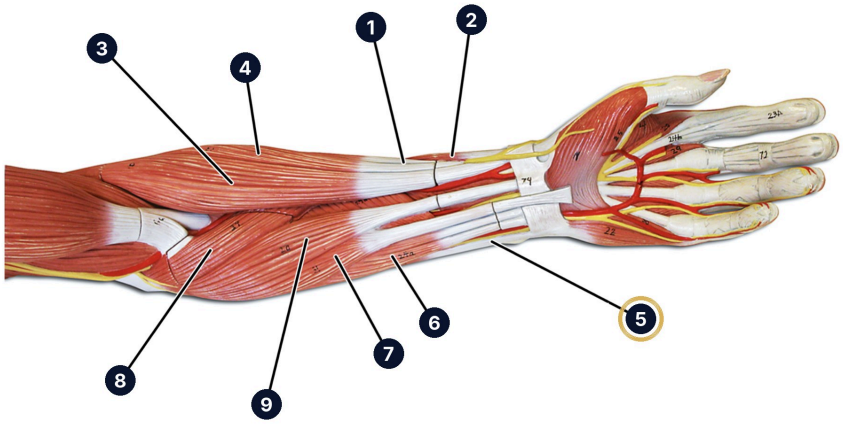

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 25

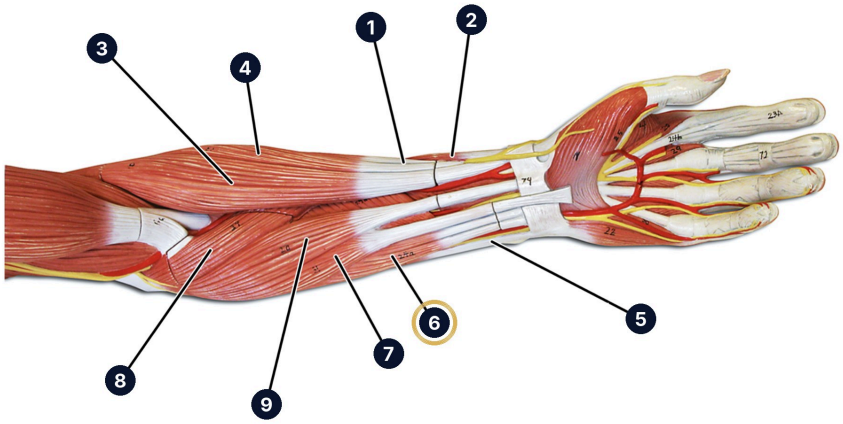

1. Name the muscle at the gold ring.
   Flexor carpi ulnaris
2. Origin?
   Medial epicondyle of humerus (humeral head); olecranon and posterior ulna (ulnar head)
3. Insertion?
   Pisiform; hamate; base of metacarpal 5
4. Action?
   Flexes and adducts the wrist (ulnar deviation)

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 26

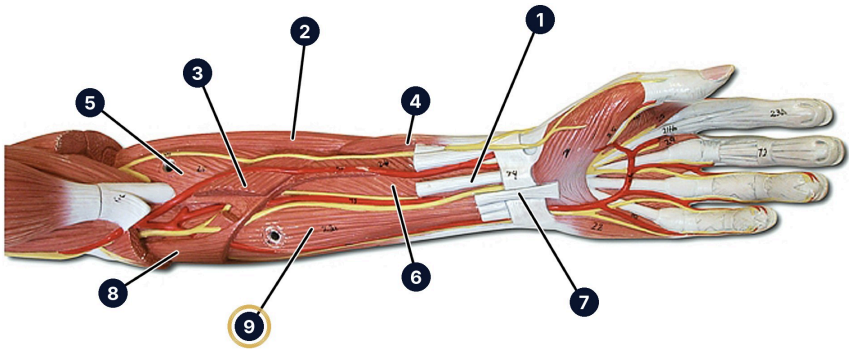

1. Name the muscle at the gold ring.
   Flexor digitorum superficialis
2. Origin?
   Medial epicondyle of humerus; coronoid process of ulna; proximal radius
3. Insertion?
   Middle phalanges of digits 2 to 5 (splits to let FDP pass through)
4. Action?
   Flexes the fingers at the PIP joints; assists wrist flexion

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 27 · FOREARM AND HAND

PRACTICE

Muscle chart 27

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

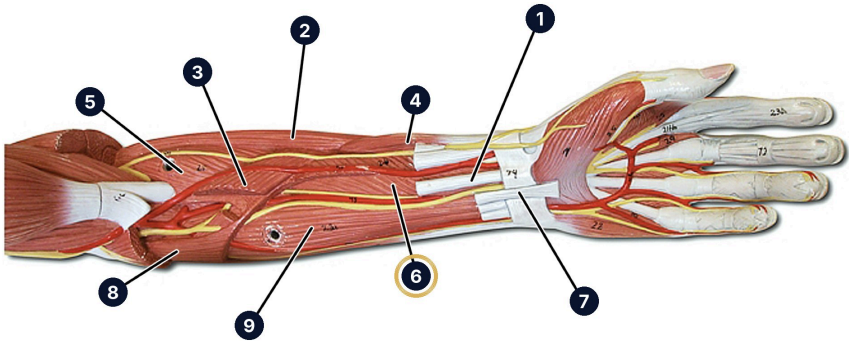

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 28 · FOREARM AND HAND

PRACTICE

Muscle chart 28

1. Name the muscle at the gold ring.

2. Origin?

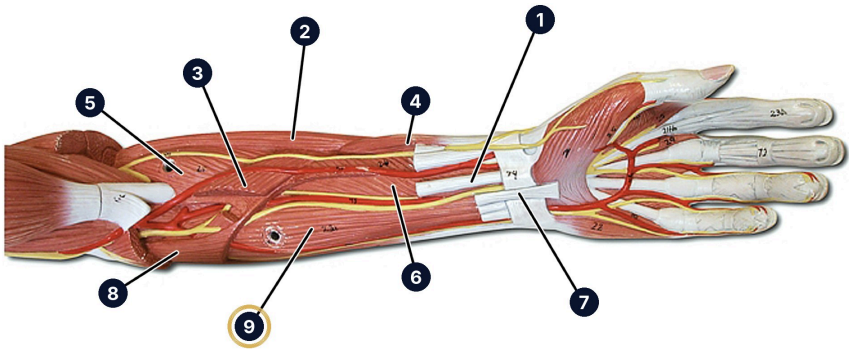

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 27

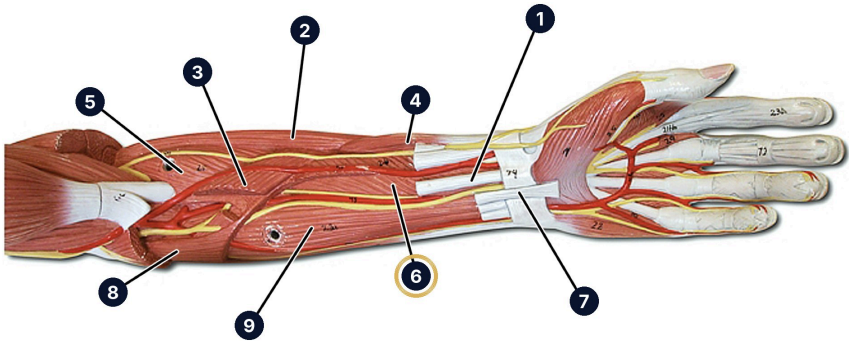

1. Name the muscle at the gold ring.
   Flexor digitorum profundus
2. Origin?
   Proximal ulna; coronoid process; interosseous membrane
3. Insertion?
   Distal phalanges of digits 2 to 5
4. Action?
   Flexes the fingers at the DIP joints; assists wrist flexion

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 28

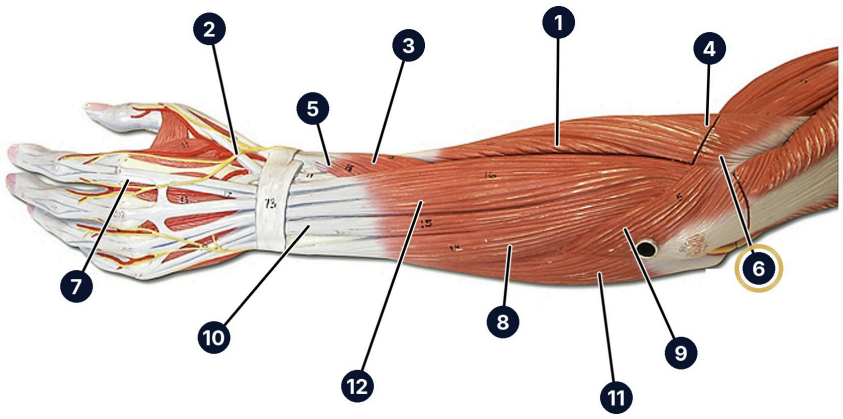

1. Name the muscle at the gold ring.
   Flexor pollicis longus
2. Origin?
   Anterior shaft of radius; interosseous membrane
3. Insertion?
   Base of distal phalanx of thumb
4. Action?
   Flexes the thumb at the IP joint; assists wrist flexion

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 29 · FOREARM AND HAND

PRACTICE

Muscle chart 29

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

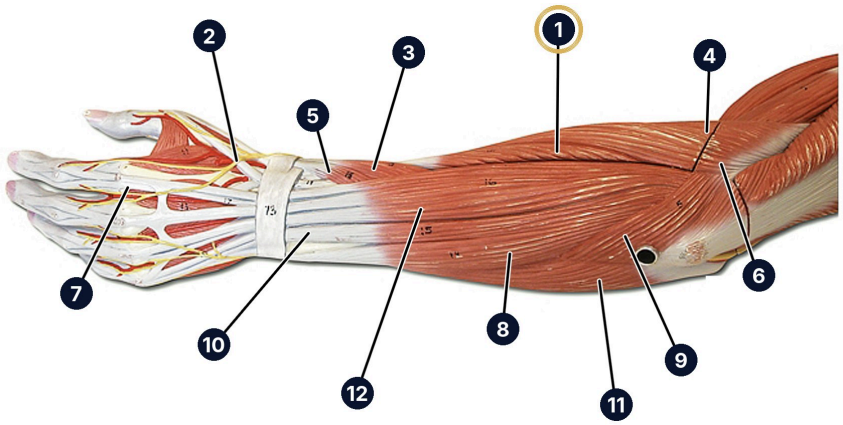

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 30 · FOREARM AND HAND

PRACTICE

Muscle chart 30

1. Name the muscle at the gold ring.

2. Origin?

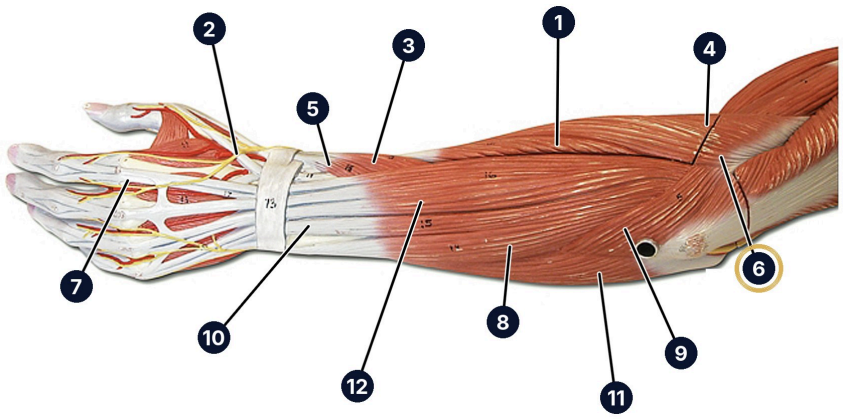

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 29

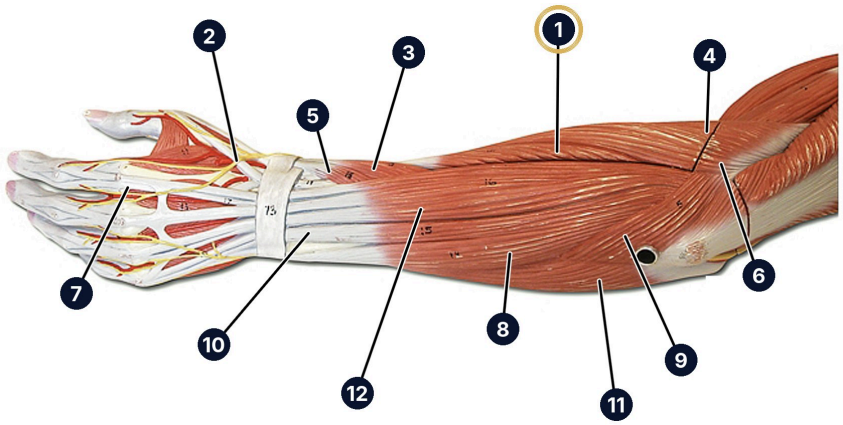

1. Name the muscle at the gold ring.
   Extensor carpi radialis longus
2. Origin?
   Lateral supracondylar ridge of humerus
3. Insertion?
   Base of metacarpal 2
4. Action?
   Extends and abducts the wrist (radial deviation)

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 30

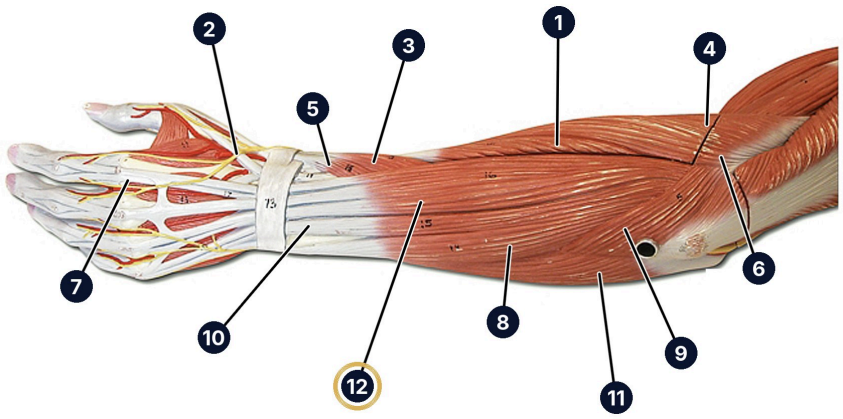

1. Name the muscle at the gold ring.
   Extensor carpi radialis brevis
2. Origin?
   Lateral epicondyle of humerus (common extensor tendon)
3. Insertion?
   Base of metacarpal 3
4. Action?
   Extends and abducts the wrist

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 31 · FOREARM AND HAND

PRACTICE

Muscle chart 31

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

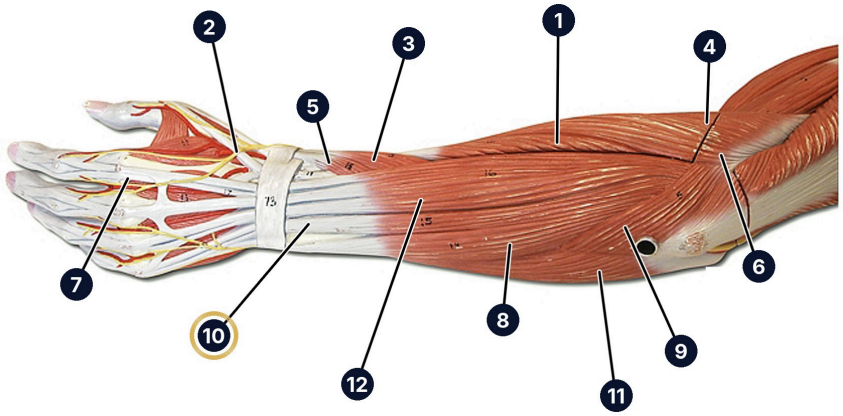

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 32 · FOREARM AND HAND

PRACTICE

Muscle chart 32

1. Name the muscle at the gold ring.

2. Origin?

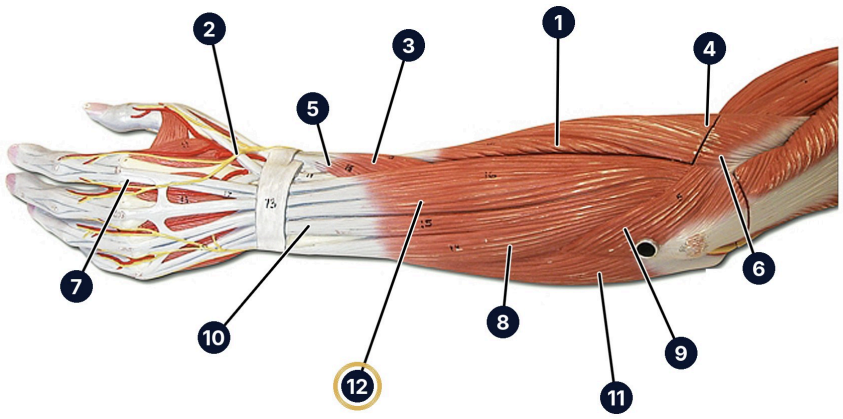

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 31

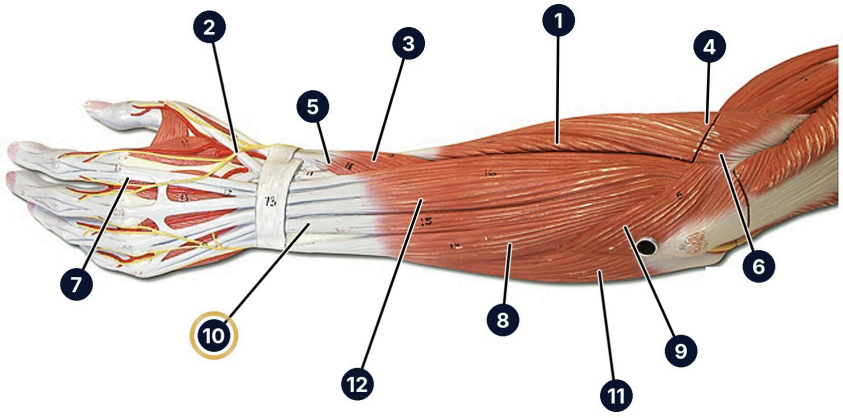

1. Name the muscle at the gold ring.
   Extensor digitorum
2. Origin?
   Lateral epicondyle of humerus (common extensor tendon)
3. Insertion?
   Extensor expansion (phalanges) of digits 2 to 5
4. Action?
   Extends the fingers at the MCP, PIP and DIP joints; assists wrist extension

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 32

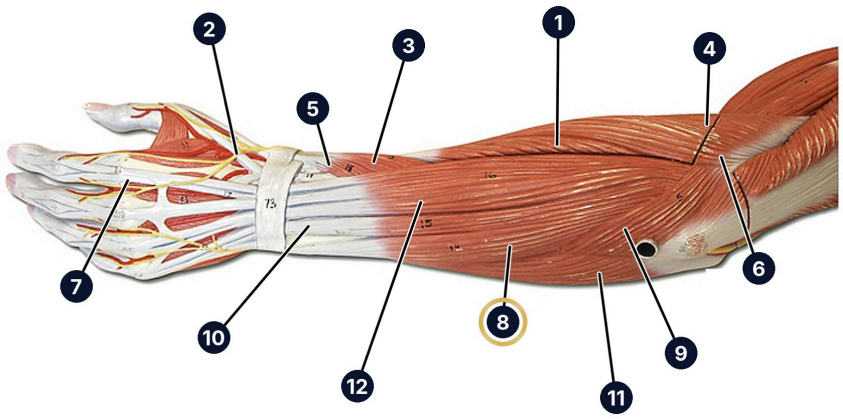

1. Name the muscle at the gold ring.
   Extensor digiti minimi
2. Origin?
   Lateral epicondyle of humerus (common extensor tendon)
3. Insertion?
   Extensor expansion of digit 5
4. Action?
   Extends digit 5 (little finger) on its own; assists wrist extension

Check your answers, then wipe the front clean for the next round.

PRACTICE

Muscle chart 33

1. Name the muscle at the gold ring.

2. Origin?

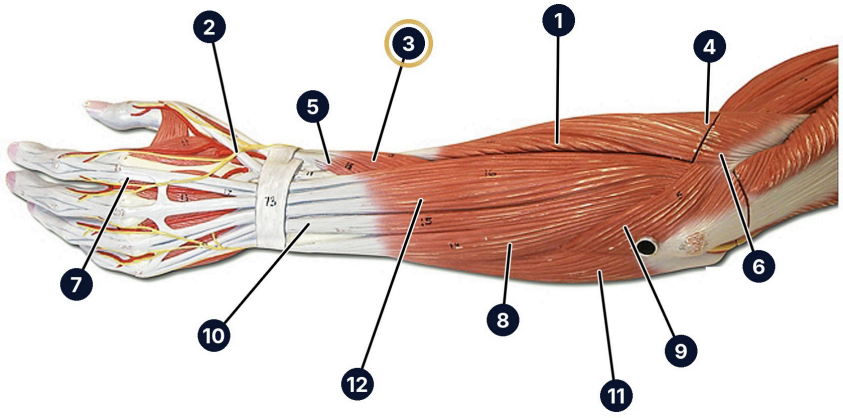

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

PRACTICE

Muscle chart 34

1. Name the muscle at the gold ring.

2. Origin?

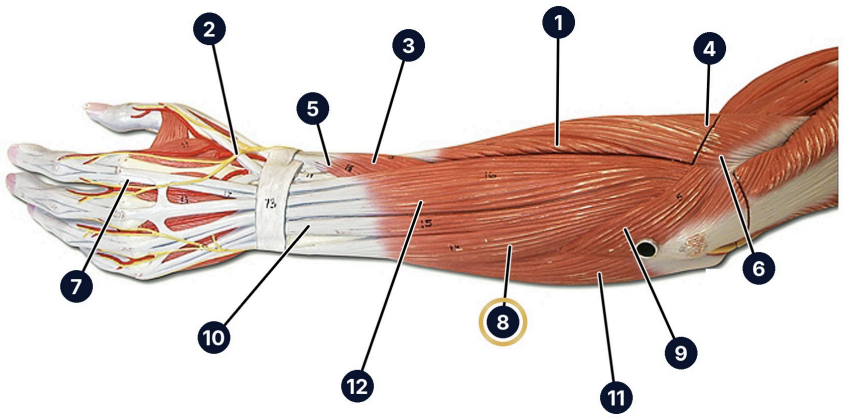

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 33

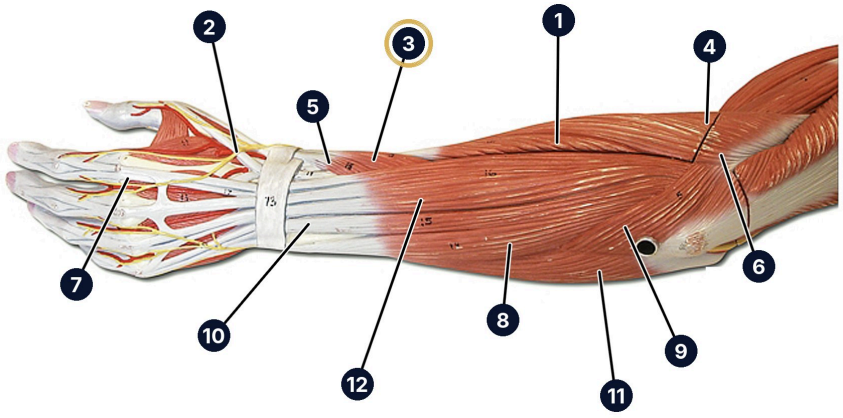

1. Name the muscle at the gold ring.
   Extensor carpi ulnaris
2. Origin?
   Lateral epicondyle of humerus; posterior ulna
3. Insertion?
   Base of metacarpal 5
4. Action?
   Extends and adducts the wrist (ulnar deviation)

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 34

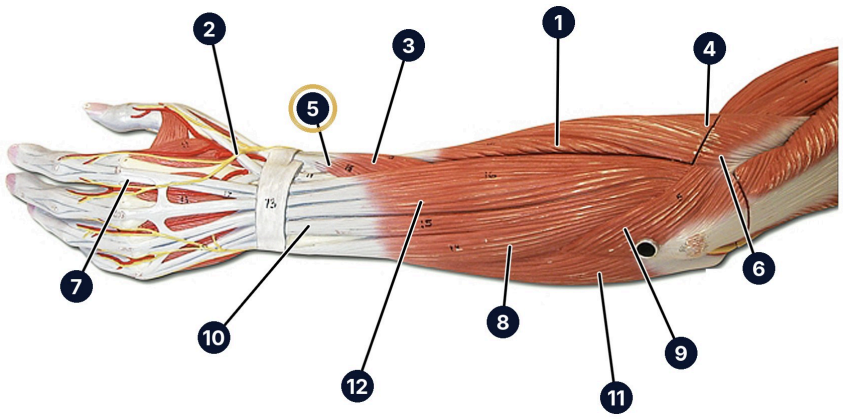

1. Name the muscle at the gold ring.
   Abductor pollicis longus
2. Origin?
   Proximal posterior radius and ulna; interosseous membrane
3. Insertion?
   Base of metacarpal 1; trapezium
4. Action?
   Abducts the thumb; extends and abducts the wrist

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 35 · FOREARM AND HAND

PRACTICE

Muscle chart 35

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

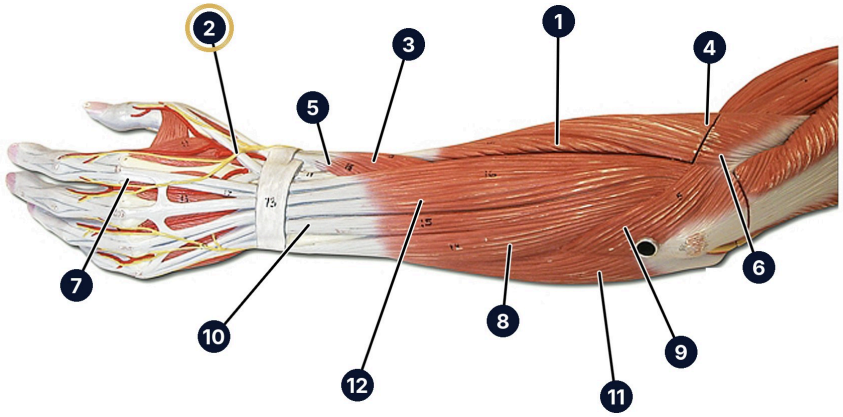

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 36 · FOREARM AND HAND

PRACTICE

Muscle chart 36

1. Name the muscle at the gold ring.

2. Origin?

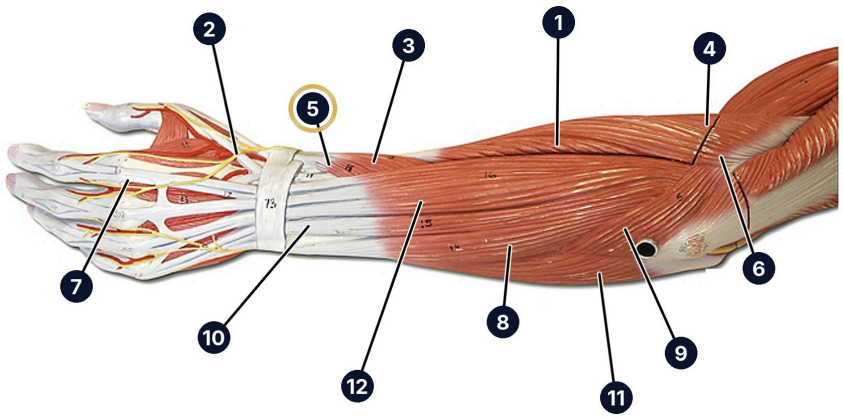

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscle chart 35

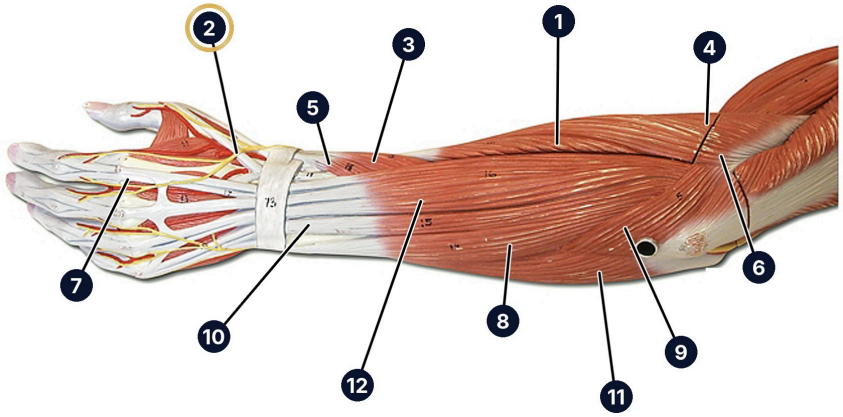

1. Name the muscle at the gold ring.
   Extensor pollicis brevis
2. Origin?
   Dorsal shaft of radius; interosseous membrane
3. Insertion?
   Base of proximal phalanx of thumb
4. Action?
   Extends the thumb at the MCP joint; abducts the wrist

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Muscle chart 36

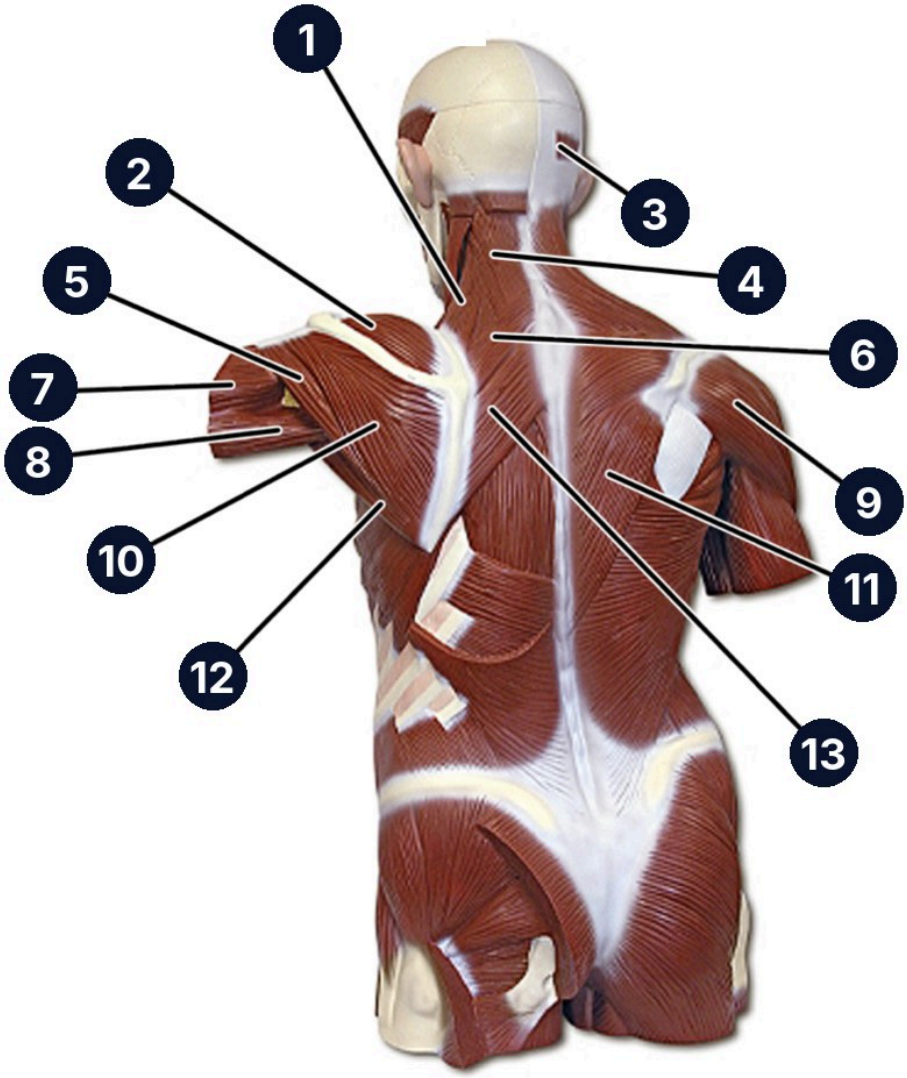

1. Name the muscle at the gold ring.
   Extensor pollicis longus
2. Origin?
   Dorsal shaft of ulna; interosseous membrane
3. Insertion?
   Base of distal phalanx of thumb
4. Action?
   Extends the thumb at the IP joint; abducts the wrist

Check your answers, then wipe the front clean for the next round.

PRACTICE

Torso, posterior view (superficial)

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

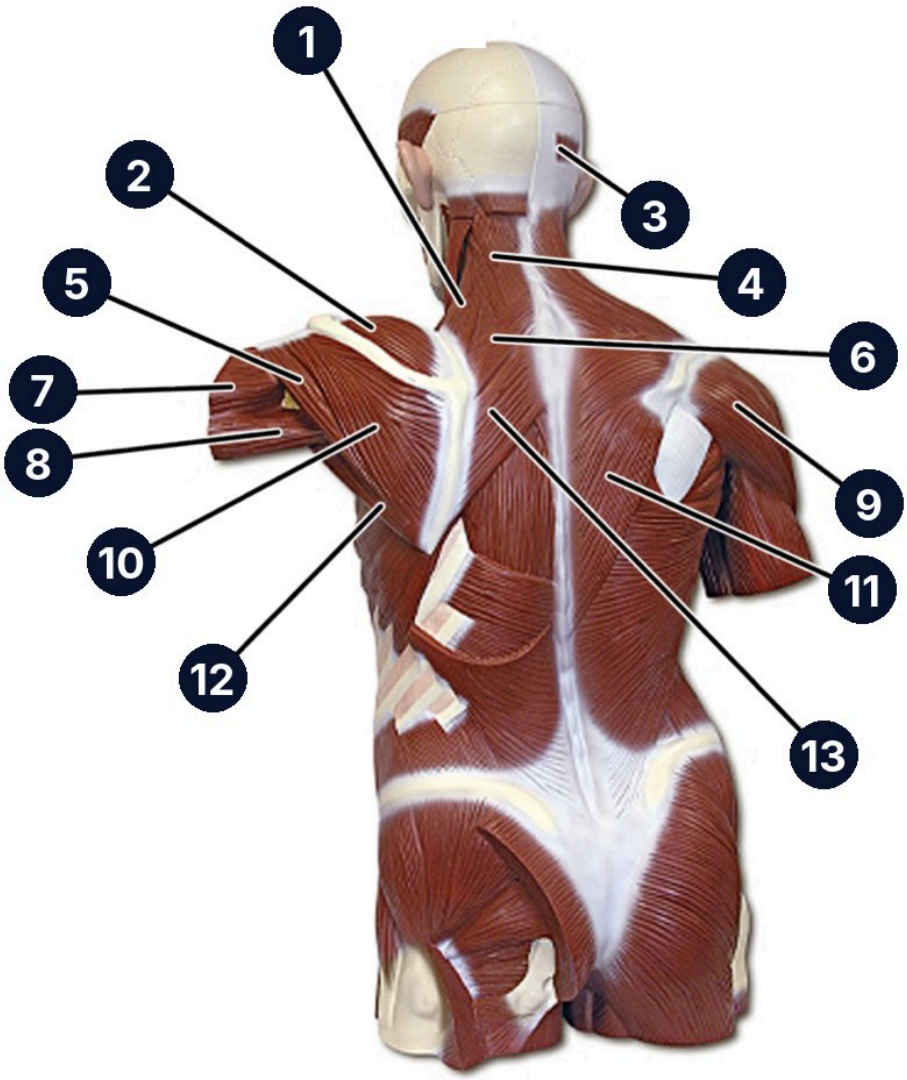

12 _____

13 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Torso, posterior view (superficial)

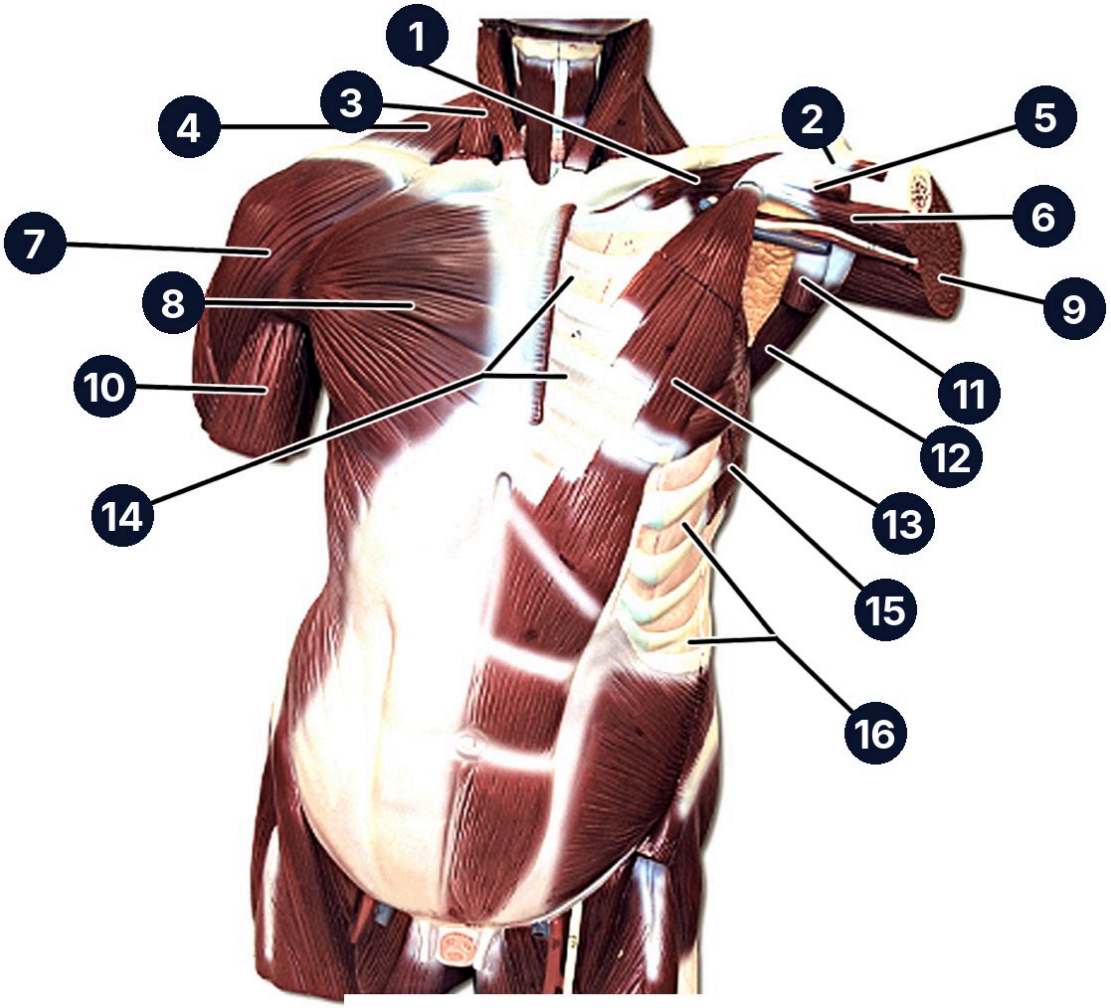

1. Levator scapulae
2. Supraspinatus
3. Epicranius, occipital belly
4. Splenius capitis
5. Teres minor
6. Rhomboid minor
7. Triceps brachii, lateral head
8. Triceps brachii, long head
9. Deltoid
10. Infraspinatus
11. Trapezius
12. Teres major
13. Rhomboid major

Check your answers, then wipe the front clean for the next round.

PRACTICE

Torso, anterior view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

12 _____

13 _____

14 _____

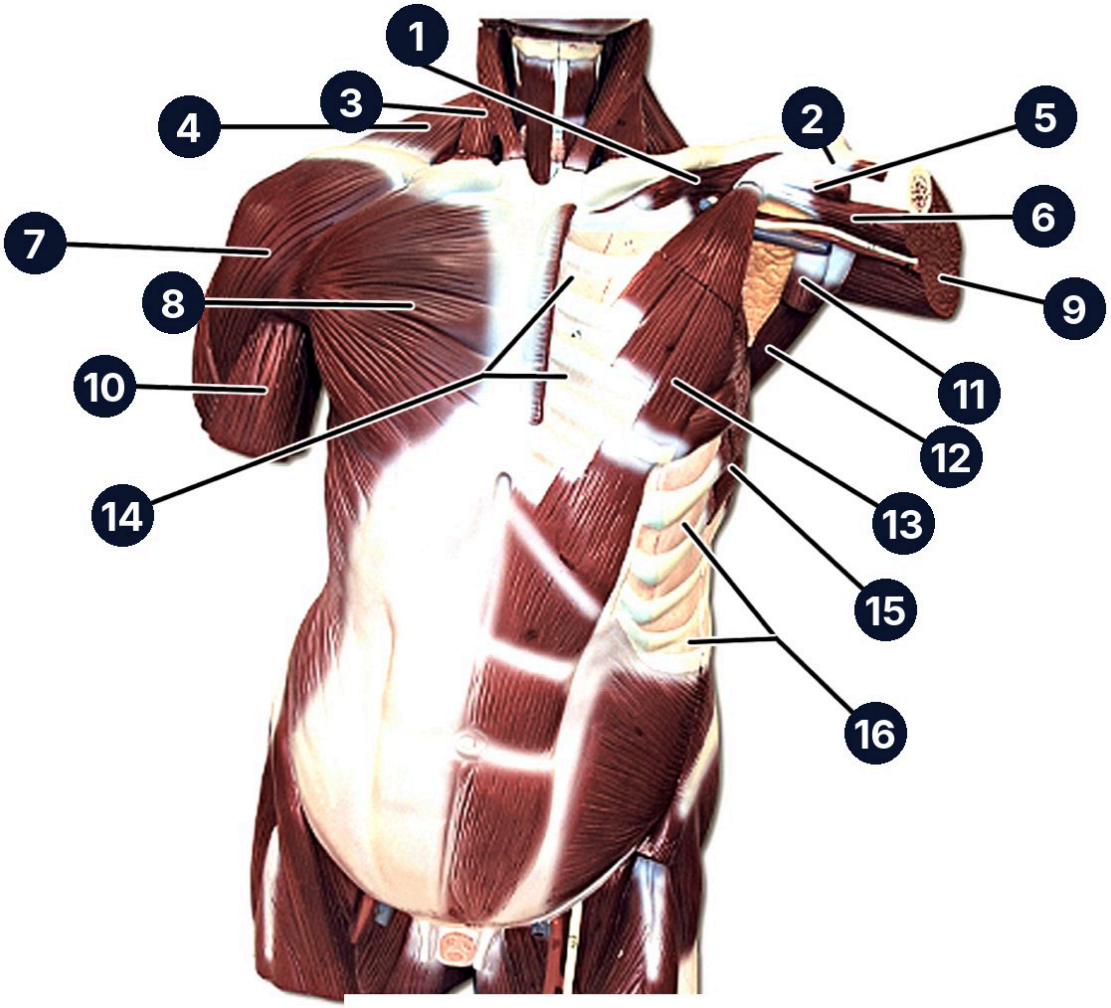

15 _____

16 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Torso, anterior view

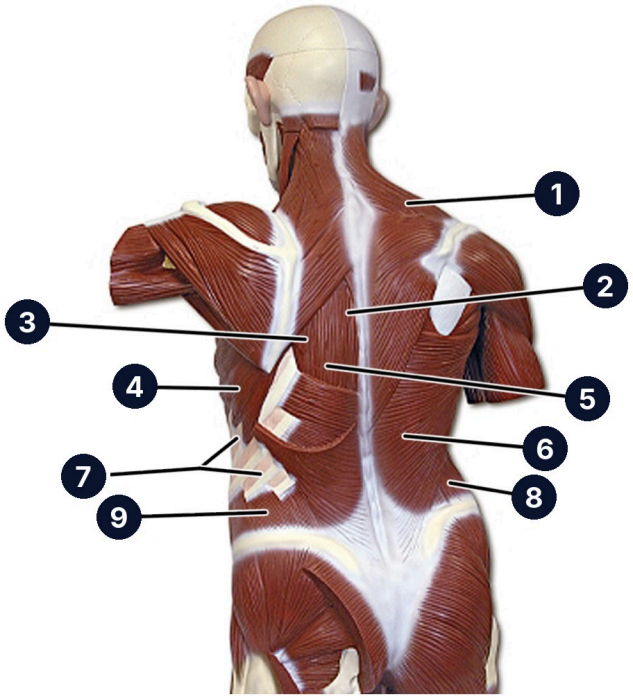

1. Subclavius
2. Biceps brachii, long head
3. Sternocleidomastoid
4. Trapezius
5. Biceps brachii, short head
6. Coracobrachialis
7. Deltoid
8. Pectoralis major
9. Triceps brachii
10. Biceps brachii
11. Latissimus dorsi
12. Teres major
13. Pectoralis minor
14. Internal intercostals
15. Serratus anterior
16. External intercostals

Check your answers, then wipe the front clean for the next round.

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

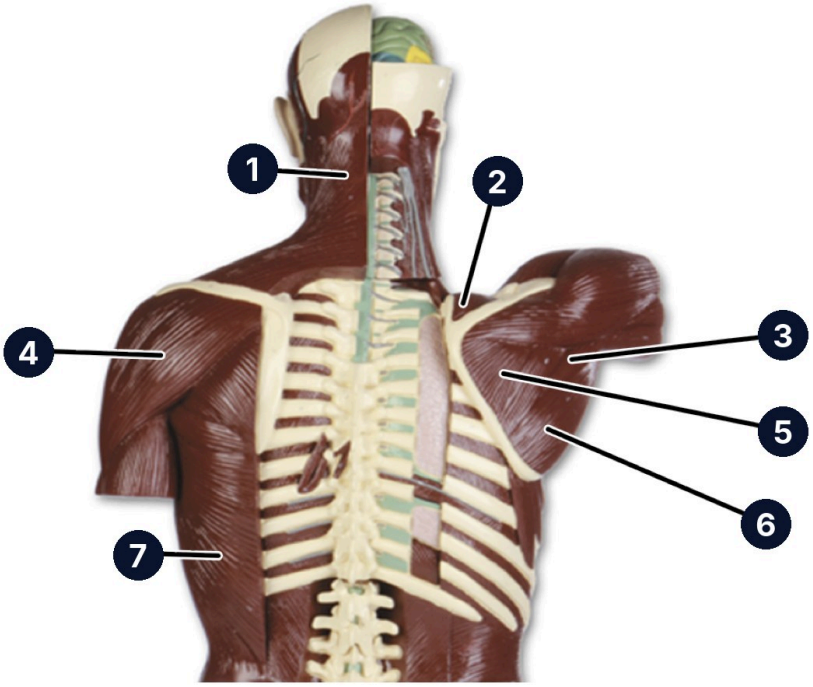

9 _____

10 _____

11 _____

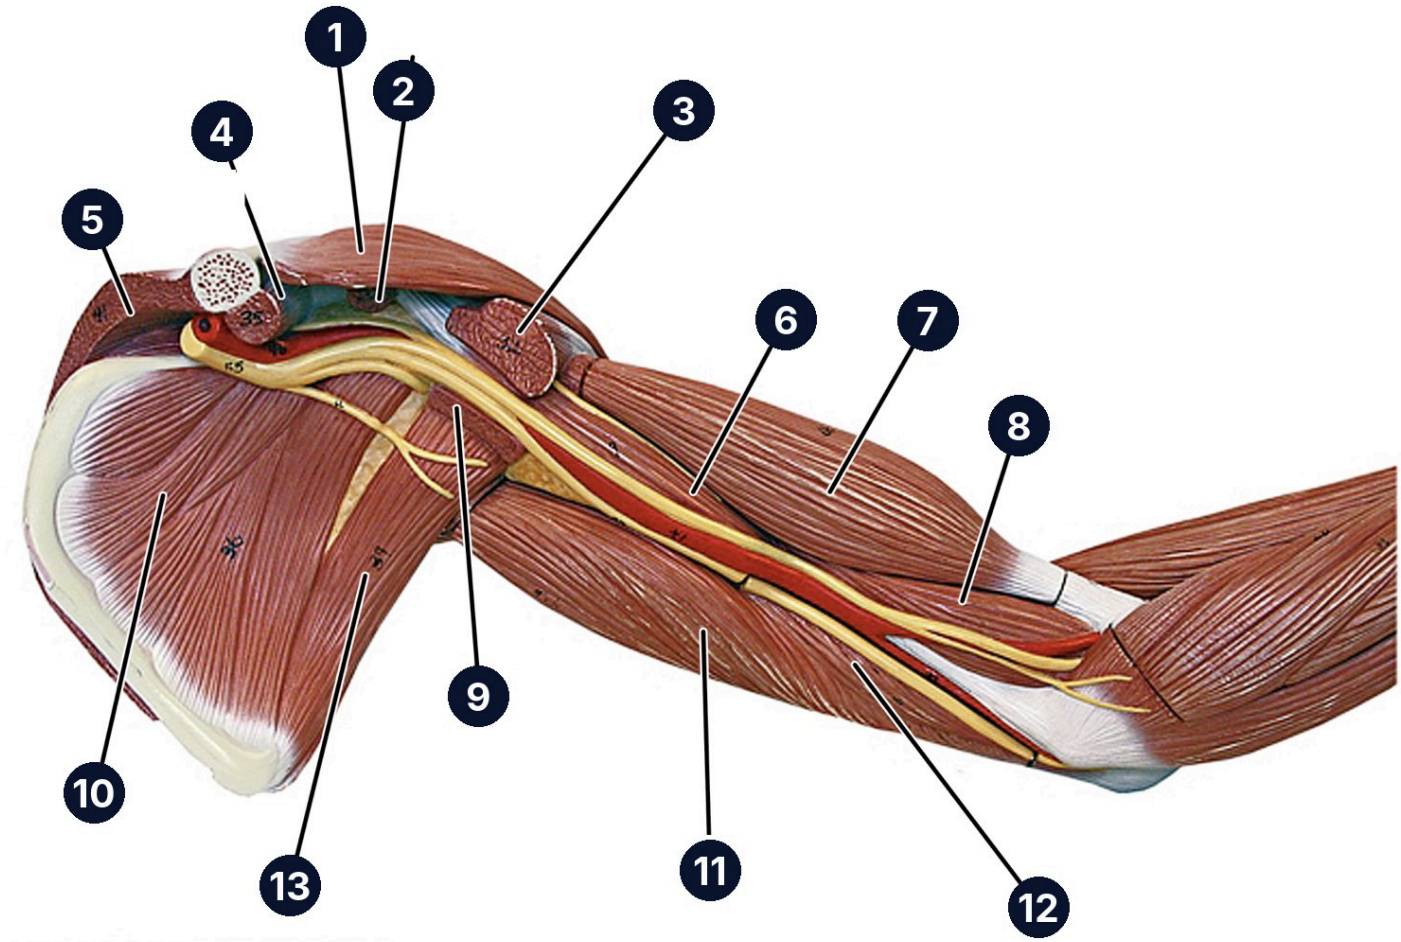

12 _____

13 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Arm, anterior view (deep)

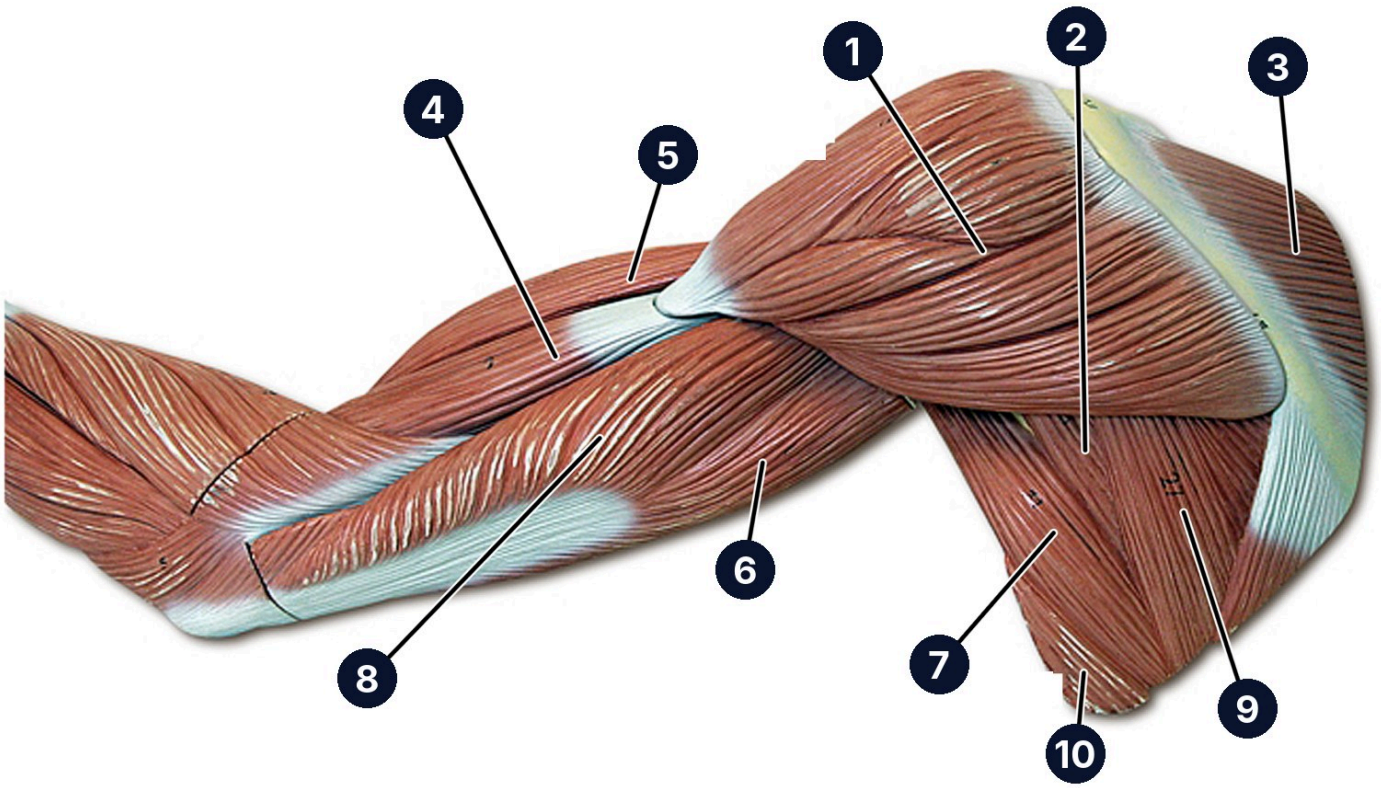

1. Deltoid
2. Pectoralis minor (cut)
3. Pectoralis major (cut)
4. Subclavius (cut)
5. Trapezius (cut)
6. Coracobrachialis
7. Biceps brachii
8. Brachialis
9. Latissimus dorsi (cut)
10. Subscapularis
11. Triceps brachii, long head
12. Triceps brachii, medial head
13. Teres major

Check your answers, then wipe the front clean for the next round.

PRACTICE

Arm, posterior and lateral view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

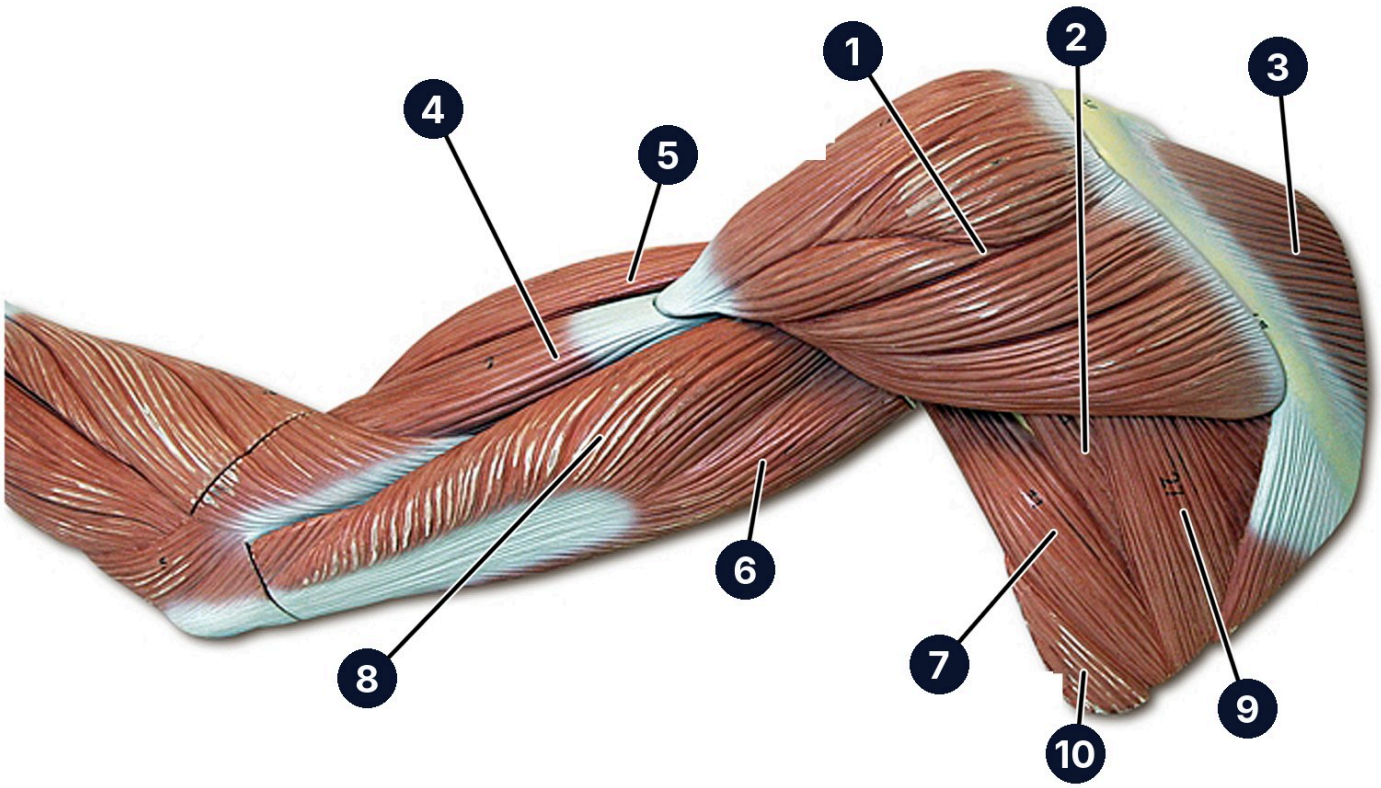

9 _____

10 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Arm, posterior and lateral view

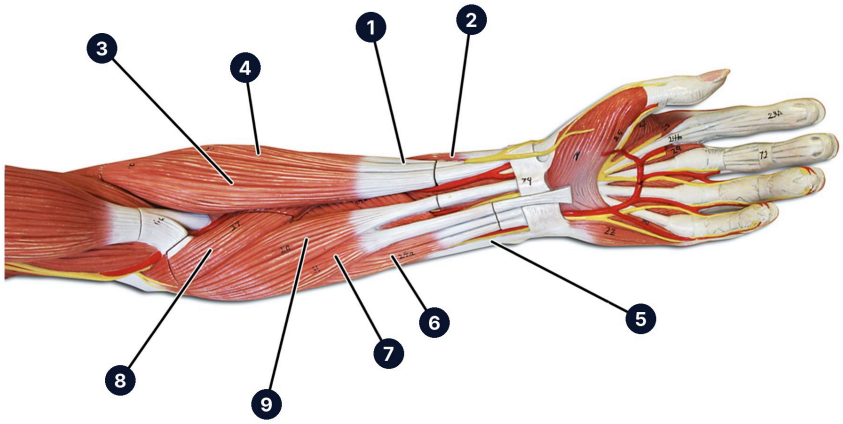

1. Deltoid
2. Teres minor
3. Trapezius
4. Brachialis
5. Biceps brachii
6. Triceps brachii, long head
7. Teres major
8. Triceps brachii, lateral head
9. Infraspinatus
10. Latissimus dorsi

Check your answers, then wipe the front clean for the next round.

Muscles of facial expression and mastication (model)

1 Name this muscle.

2 Name this muscle.

3 Name this muscle.

4 Name this muscle.

5 Name this muscle.

6 Name this muscle.

7 Name this muscle.

8 Name this muscle.

9 Name this muscle.

10 Name this muscle.

11 Name this muscle.

12 Name this muscle.

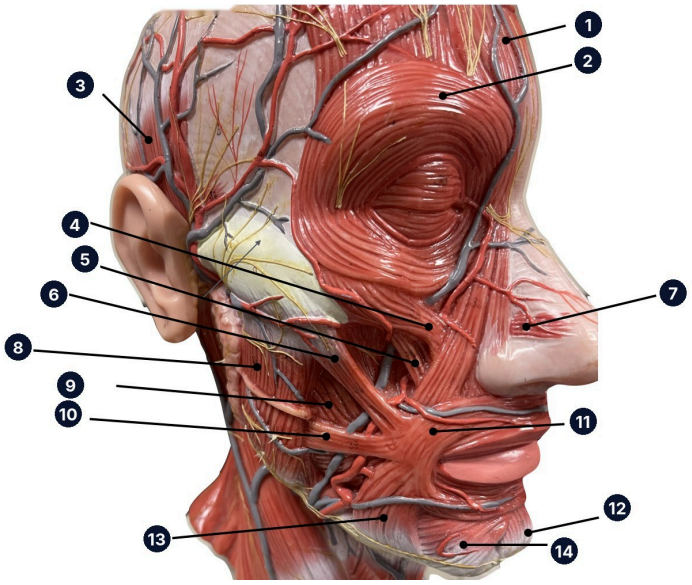

13 Name this muscle.

14 Name this muscle.

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Muscles of facial expression and mastication (model)

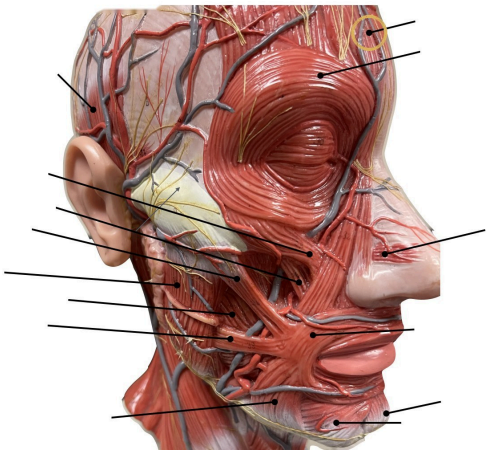

1. Name this muscle.
   Frontalis
2. Name this muscle.
   Orbicularis oculi
3. Name this muscle.
   Temporalis
4. Name this muscle.
   Zygomaticus minor
5. Name this muscle.
   Levator labii superioris
6. Name this muscle.
   Zygomaticus major
7. Name this muscle.
   Nasalis
8. Name this muscle.
   Masseter
9. Name this muscle.
   Levator anguli oris
10. Name this muscle.
    Risorius
11. Name this muscle.
    Orbicularis oris
12. Name this muscle.
    Mentalis
13. Name this muscle.
    Depressor anguli oris
14. Name this muscle.
    Depressor labii inferioris

Check your answers, then wipe the front clean for the next round.

Muscle at the gold ring

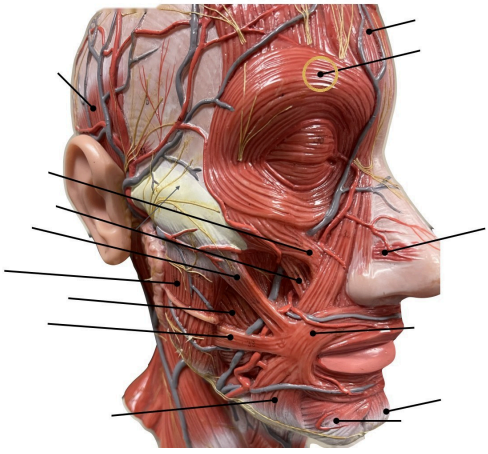

1. Name the muscle at the gold ring.
2. Origin of this muscle?
3. Insertion of this muscle?
4. Action of this muscle?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 50 · FACE AND JAW: ONE MUSCLE AT A TIME

ANSWER KEY

Muscle at the gold ring

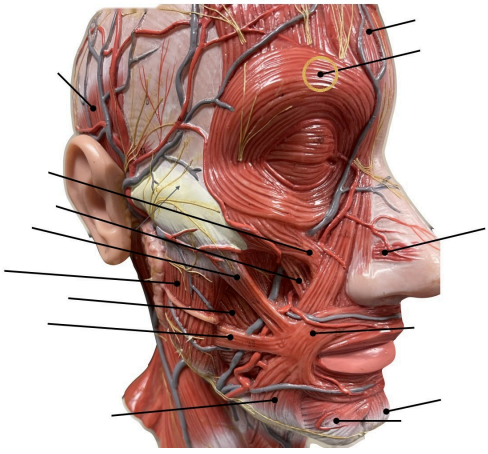

1. Name the muscle at the gold ring.
   Frontalis
2. Origin of this muscle?
   Galea aponeurotica (epicranial aponeurosis)
3. Insertion of this muscle?
   Skin of the eyebrows and forehead
4. Action of this muscle?
   Raises the eyebrows and wrinkles the forehead

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 51 · FACE AND JAW: ONE MUSCLE AT A TIME

ANSWER KEY

Muscle at the gold ring

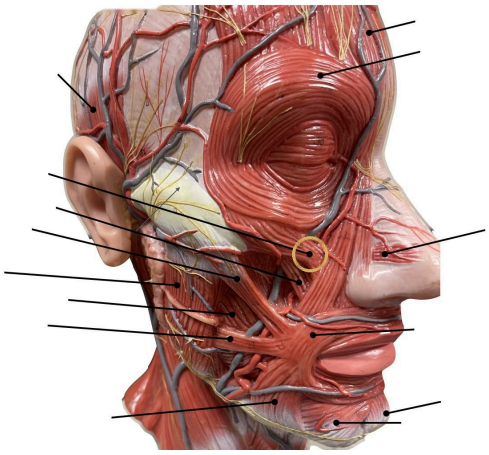

1. Name the muscle at the gold ring.
   Orbicularis oculi
2. Origin of this muscle?
   Frontal and maxillary bones along the medial edge of the orbit
3. Insertion of this muscle?
   Skin around the eye; the fibers circle the orbit and eyelids
4. Action of this muscle?
   Closes the eye (blinking and squinting)

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 52 · FACE AND JAW: ONE MUSCLE AT A TIME

4. Action? _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 64 · CADAVER (BLUELINK)

ANSWER KEY

Shoulder, posterior: rotator cuff (cadaver)

1. Name this muscle.
   Deltoid
2. Name this muscle.
   Supraspinatus
3. Name this muscle.
   Infraspinatus
4. Name this muscle.
   Teres minor
5. Name this muscle.
   Triceps brachii

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 65 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.
   Deltoid
2. Origin?
   Lateral clavicle; acromion process; spine of scapula
3. Insertion?
   Deltoid tuberosity of humerus
4. Action?
   Anterior fibers flex the shoulder; posterior fibers extend the shoulder; all fibers together abduct the arm (prime mover, 15 to 90 degrees)

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 66 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Shoulder, anterior (cadaver)

1. Name this bone.
   Clavicle
2. Name this bone feature.
   Coracoid process
3. Name this tendon.
   Tendon of the long head of biceps brachii
4. Name this muscle.
   Subscapularis

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 70 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

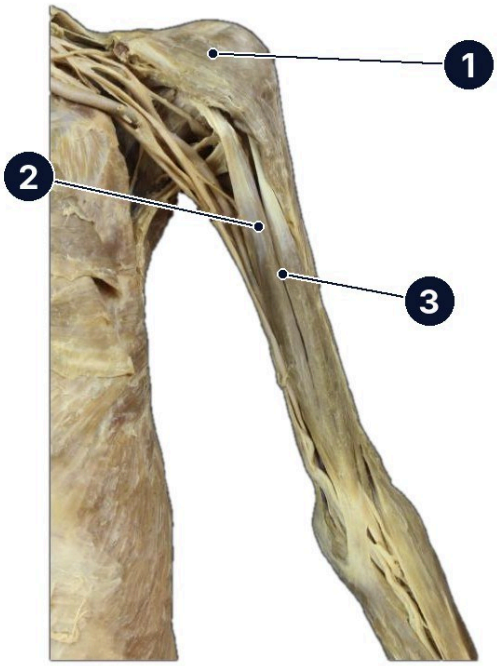

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 71 · CADAVER (BLUELINK)

PRACTICE

Arm, anterior (cadaver)

1. Name this muscle.

2. Name this muscle and head.

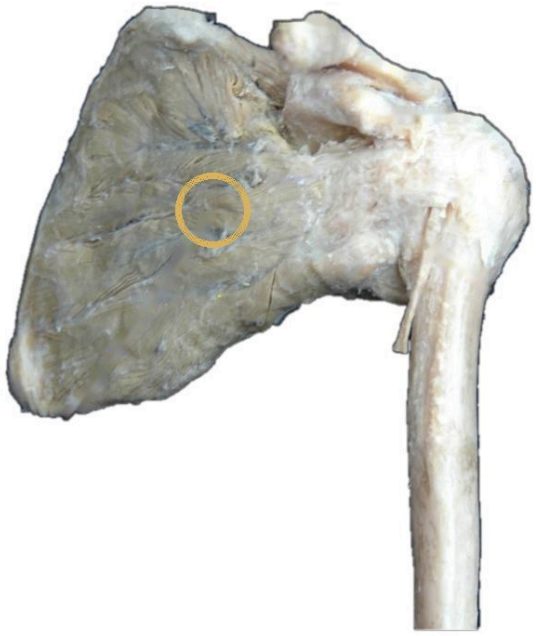

3. Name this muscle and head.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 70 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

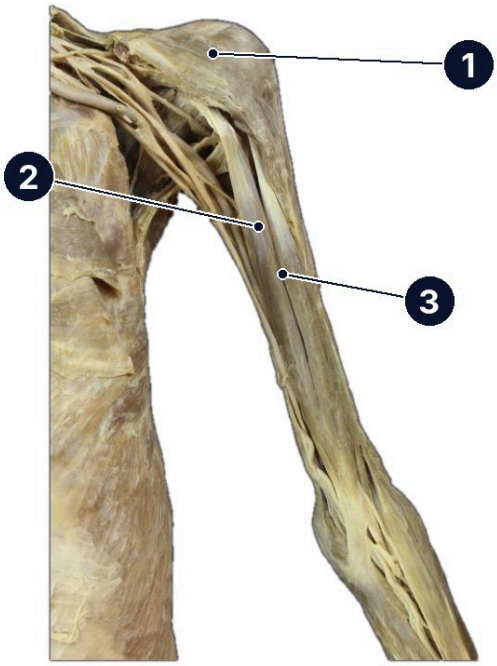

1. Name the muscle at the gold ring.
   Subscapularis
2. Origin?
   Subscapular fossa of scapula (anterior surface)
3. Insertion?
   Lesser tubercle of humerus
4. Action?
   Medially rotates the arm (strongest medial rotator of the shoulder); stabilizes the glenohumeral joint

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 71 · CADAVER (BLUELINK)

ANSWER KEY

Arm, anterior (cadaver)

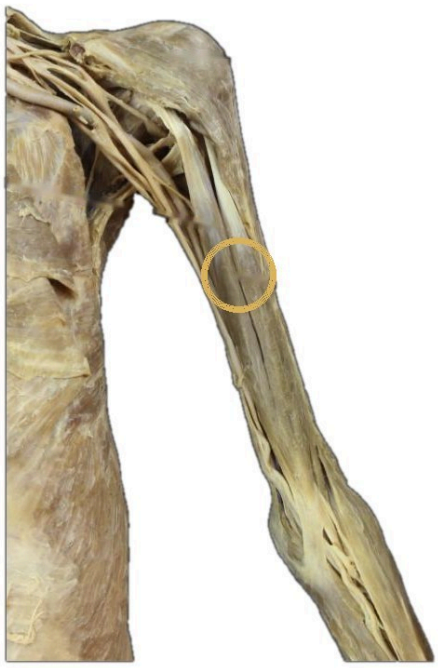

1. Name this muscle.
   Deltoid
2. Name this muscle and head.
   Biceps brachii, short head
3. Name this muscle and head.
   Biceps brachii, long head

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 72 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

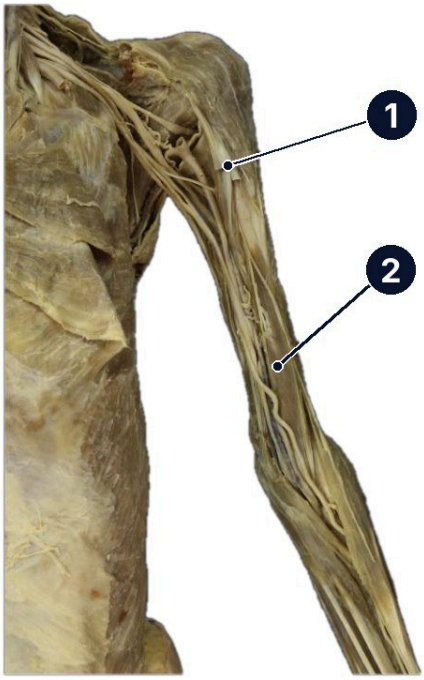

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 73 · CADAVER (BLUELINK)

PRACTICE

Arm, anterior, biceps cut (cadaver)

1. Name the muscle these cut tendons belong to.

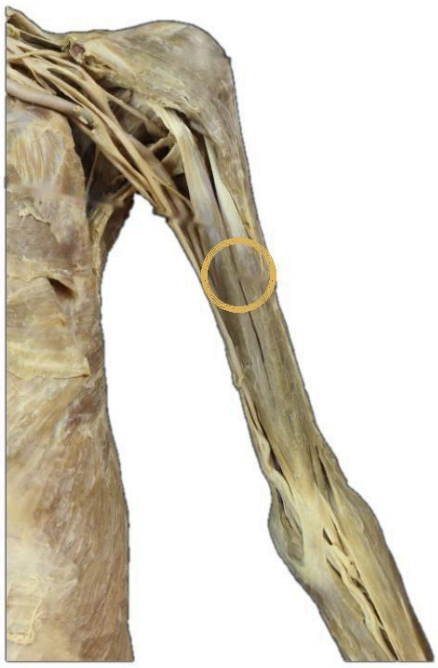

2. Name this muscle.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 72 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

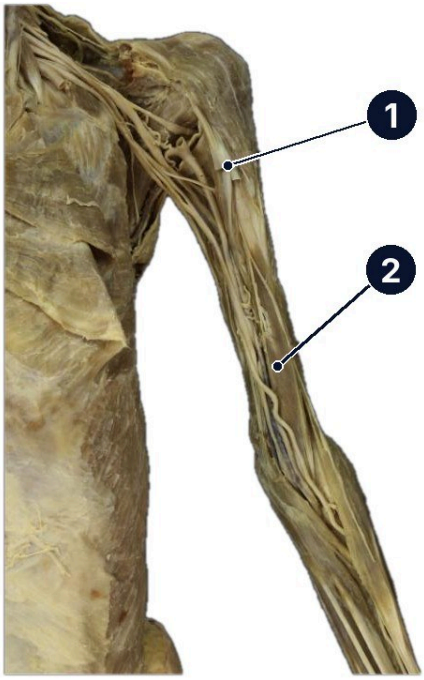

1. Name the muscle at the gold ring.
   Biceps brachii
2. Origin?
   Long head: supraglenoid tubercle of scapula. Short head: coracoid process of scapula
3. Insertion?
   Radial tuberosity; bicipital aponeurosis
4. Action?
   Flexes the elbow (prime mover); supinates the forearm; weak shoulder flexion

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 73 · CADAVER (BLUELINK)

ANSWER KEY

Arm, anterior, biceps cut (cadaver)

1. Name the muscle these cut tendons belong to.
   Biceps brachii (cut tendons)
2. Name this muscle.
   Brachialis

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 74 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

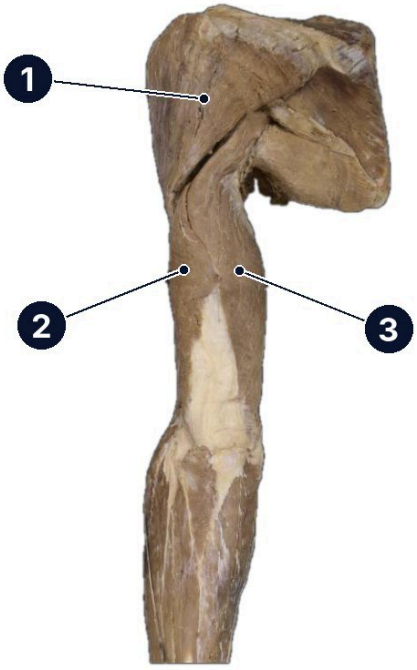

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 75 · CADAVER (BLUELINK)

PRACTICE

Shoulder and arm, posterior (cadaver)

1. Name this muscle.

2. Name this muscle and head.

3. Name this muscle and head.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 74 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

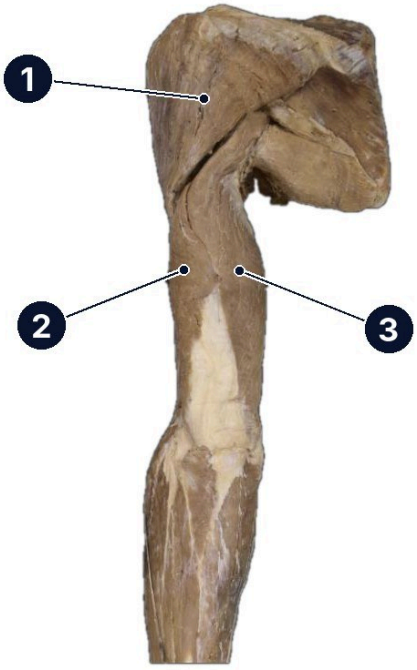

1. Name the muscle at the gold ring.
   Brachialis
2. Origin?
   Anterior surface of distal humerus
3. Insertion?
   Coronoid process and ulnar tuberosity of ulna
4. Action?
   Flexes the forearm at the elbow (primary, pure flexor; works whether the forearm is pronated or supinated)

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 75 · CADAVER (BLUELINK)

ANSWER KEY

Shoulder and arm, posterior (cadaver)

1. Name this muscle.
   Deltoid
2. Name this muscle and head.
   Triceps brachii, lateral head
3. Name this muscle and head.
   Triceps brachii, long head

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 76 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

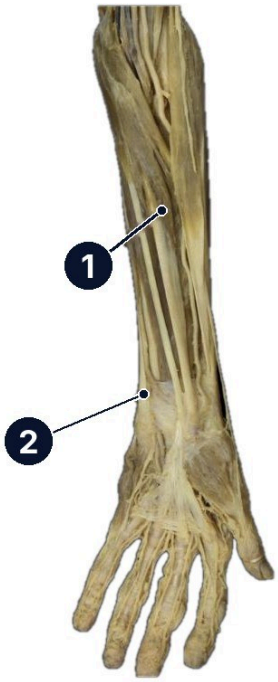

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 77 · CADAVER (BLUELINK)

PRACTICE

Forearm, anterior: superficial flexors (cadaver)

1. Name this muscle.

2. Name the muscle this tendon belongs to.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 76 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

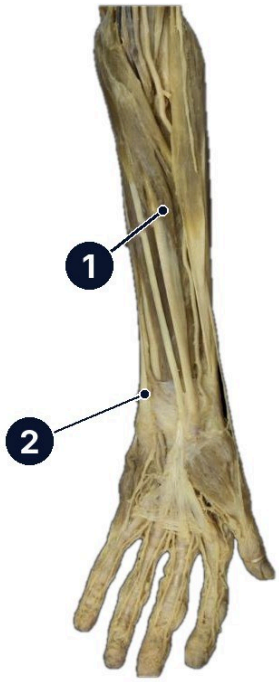

1. Name the muscle at the gold ring.
   Triceps brachii
2. Origin?
   Long head: infraglenoid tubercle of scapula. Lateral and medial heads: posterior surface of humerus
3. Insertion?
   Olecranon process of ulna
4. Action?
   Extends the forearm at the elbow (prime mover); long head: weak shoulder extension and adduction

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 77 · CADAVER (BLUELINK)

ANSWER KEY

Forearm, anterior: superficial flexors (cadaver)

1. Name this muscle.
   Flexor carpi radialis
2. Name the muscle this tendon belongs to.
   Flexor carpi ulnaris (tendon)

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 78 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 79 · CADAVER (BLUELINK)

PRACTICE

Forearm, anterior (cadaver)

1. Name this muscle.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 78 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.
   Flexor carpi radialis
2. Origin?
   Medial epicondyle of humerus (common flexor tendon)
3. Insertion?
   Bases of metacarpals 2 and 3
4. Action?
   Flexes and abducts the wrist (radial deviation)

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 79 · CADAVER (BLUELINK)

ANSWER KEY

Forearm, anterior (cadaver)

1. Name this muscle.
   Flexor digitorum superficialis

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 80 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

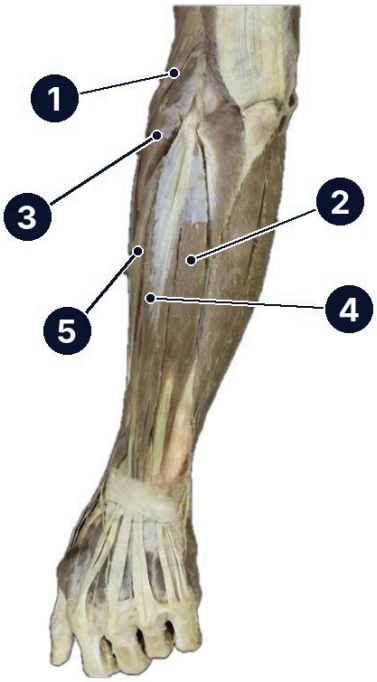

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 81 · CADAVER (BLUELINK)

PRACTICE

Forearm, posterior: superficial extensors (cadaver)

1. Name this muscle.

2. Name this muscle.

3. Name this muscle.

4. Name this muscle.

5. Name this muscle.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 80 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

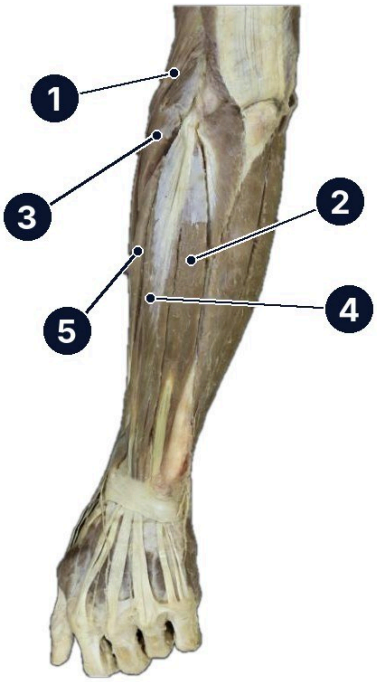

1. Name the muscle at the gold ring.
   Flexor digitorum superficialis
2. Origin?
   Medial epicondyle of humerus; coronoid process of ulna; proximal radius
3. Insertion?
   Middle phalanges of digits 2 to 5 (splits to let FDP pass through)
4. Action?
   Flexes the fingers at the PIP joints; assists wrist flexion

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 81 · CADAVER (BLUELINK)

ANSWER KEY

Forearm, posterior: superficial extensors (cadaver)

1. Name this muscle.
   Brachioradialis
2. Name this muscle.
   Extensor carpi ulnaris
3. Name this muscle.
   Extensor carpi radialis longus
4. Name this muscle.
   Extensor digitorum
5. Name this muscle.
   Extensor carpi radialis brevis

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 82 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 83 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 82 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.
   Brachioradialis
2. Origin?
   Lateral supracondylar ridge of humerus
3. Insertion?
   Styloid process of radius
4. Action?
   Flexes the forearm at the elbow (strongest in the neutral, semi-prone position); stabilizes the elbow

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 83 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.
   Extensor carpi radialis longus
2. Origin?
   Lateral supracondylar ridge of humerus
3. Insertion?
   Base of metacarpal 2
4. Action?
   Extends and abducts the wrist (radial deviation)

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 84 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 85 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.
   Extensor carpi radialis brevis
2. Origin?
   Lateral epicondyle of humerus (common extensor tendon)
3. Insertion?
   Base of metacarpal 3
4. Action?
   Extends and abducts the wrist

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.
   Extensor digitorum
2. Origin?
   Lateral epicondyle of humerus (common extensor tendon)
3. Insertion?
   Extensor expansion (phalanges) of digits 2 to 5
4. Action?
   Extends the fingers at the MCP, PIP and DIP joints; assists wrist extension

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 86 · CADAVER: ONE MUSCLE AT A TIME

PRACTICE

Cadaver: muscle at the gold ring

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

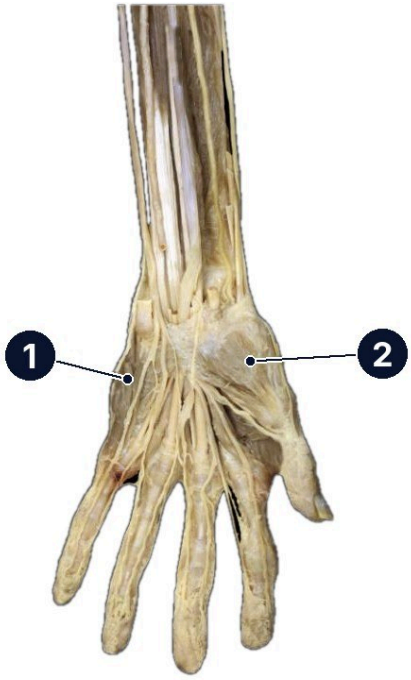

4. Action?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 87 · CADAVER (BLUELINK)

PRACTICE

Hand, anterior (cadaver)

1. Name this muscle group.

2. Name this muscle group.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 86 · CADAVER: ONE MUSCLE AT A TIME

ANSWER KEY

Cadaver: muscle at the gold ring

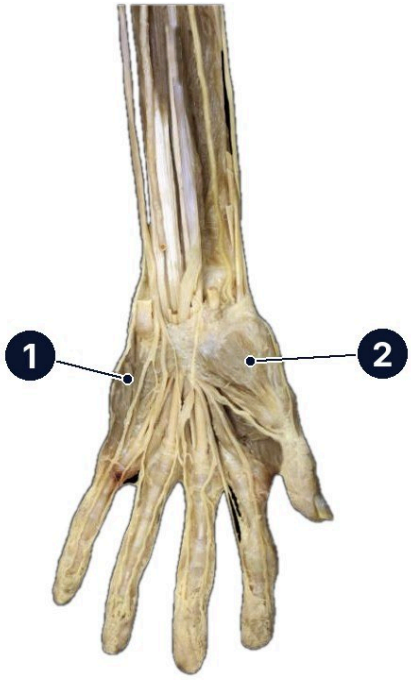

1. Name the muscle at the gold ring.
   Extensor carpi ulnaris
2. Origin?
   Lateral epicondyle of humerus; posterior ulna
3. Insertion?
   Base of metacarpal 5
4. Action?
   Extends and adducts the wrist (ulnar deviation)

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER EXTREMITY MUSCLES · CARD 87 · CADAVER (BLUELINK)

ANSWER KEY

Hand, anterior (cadaver)

1. Name this muscle group.
   Hypothenar muscles
2. Name this muscle group.
   Thenar muscles

Check your answers, then wipe the front clean for the next round.
