BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 1 · SUPERFICIAL BACK

PRACTICE

Muscle 1

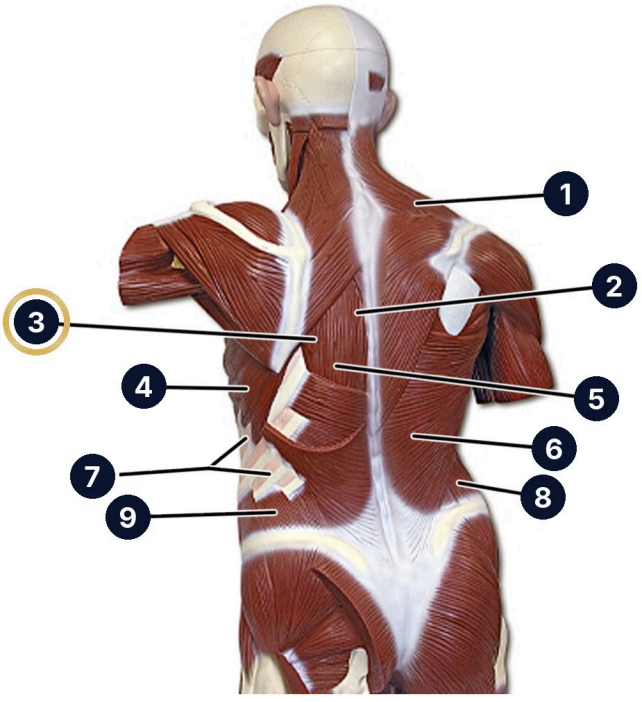

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 2 · DEEP BACK

PRACTICE

Muscle 2

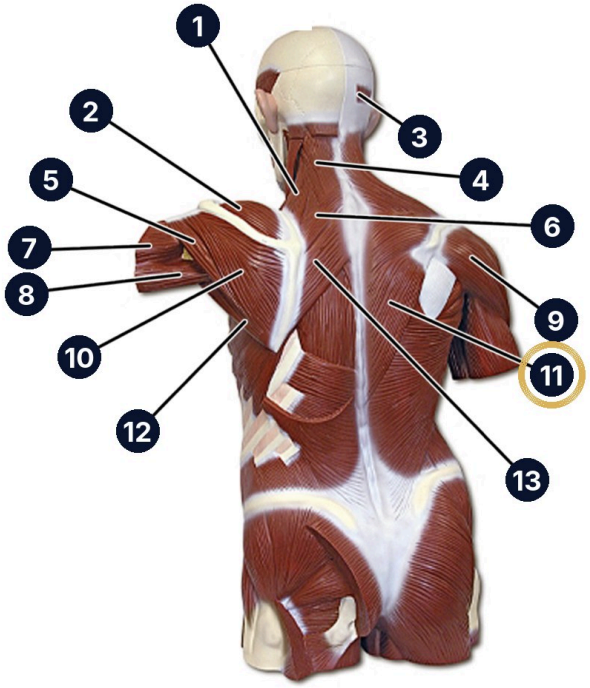

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 1 · SUPERFICIAL BACK

ANSWER KEY

Muscle 1

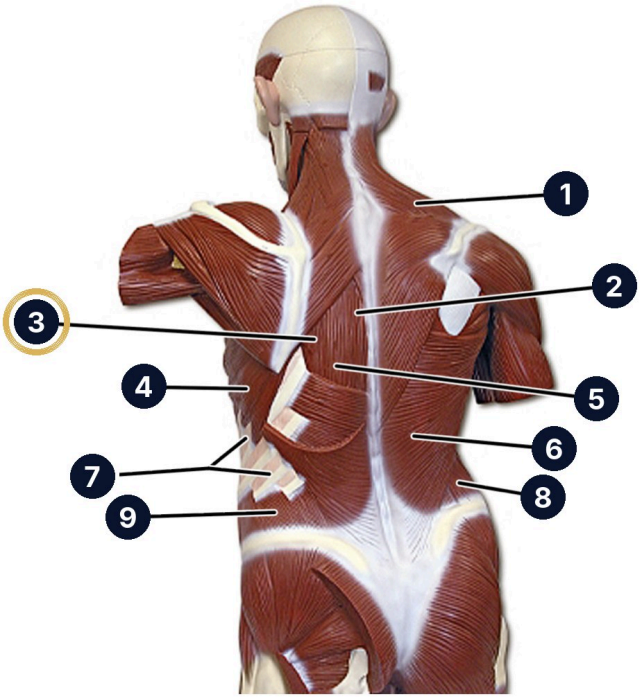

1. Name the muscle at the gold ring.
   Trapezius
2. Origin?
   Occipital bone; ligamentum nuchae; spinous processes of C7 to T12
3. Insertion?
   Lateral clavicle; acromion process; spine of scapula
4. Action?
   Upper fibers elevate the scapula and extend the neck; middle fibers adduct (retract) the scapula; lower fibers depress the scapula; together they upwardly rotate the

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 2 · DEEP BACK

ANSWER KEY

Muscle 2

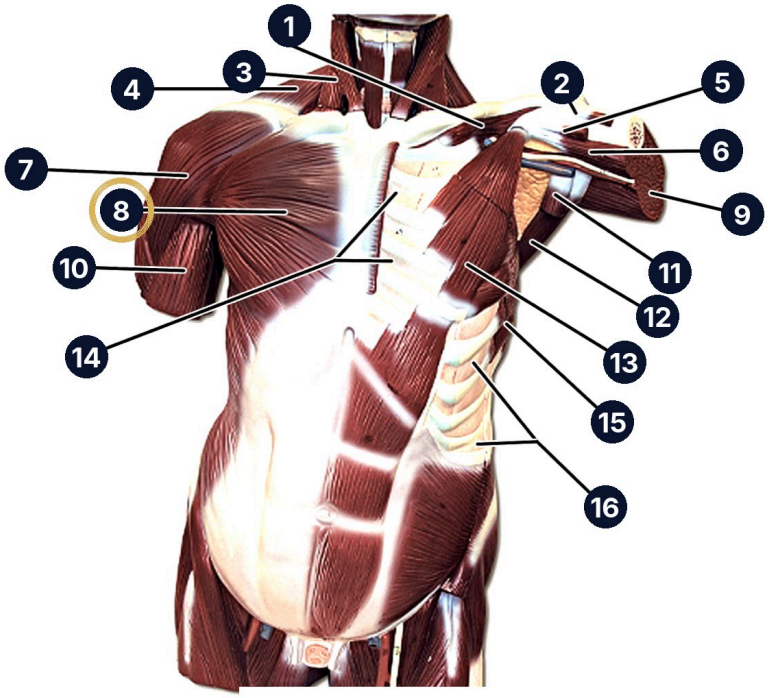

5. Innervation?
   Accessory n. (CN XI)
1. Name the muscle at the gold ring.
   Iliocostalis
2. Origin?
   Iliac crest, sacrum and the angles of the lower ribs
3. Insertion?
   Angles of the ribs and transverse processes of lower cervical vertebrae
4. Action?
   Extends the vertebral column; one side alone bends the trunk to that side
5. Innervation?
   Dorsal rami of spinal

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 3 · ANTERIOR THORAX

PRACTICE

Muscle 3

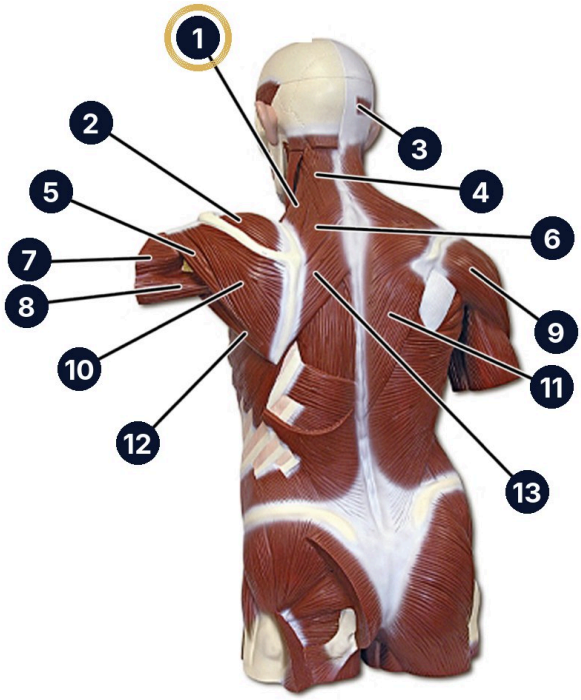

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 4 · SUPERFICIAL BACK

PRACTICE

Muscle 4

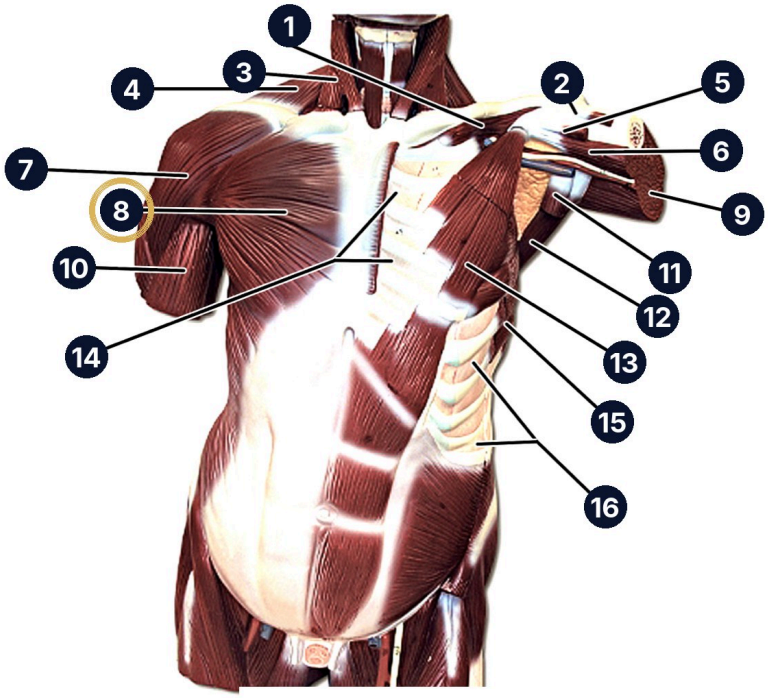

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 3 · ANTERIOR THORAX

ANSWER KEY

Muscle 3

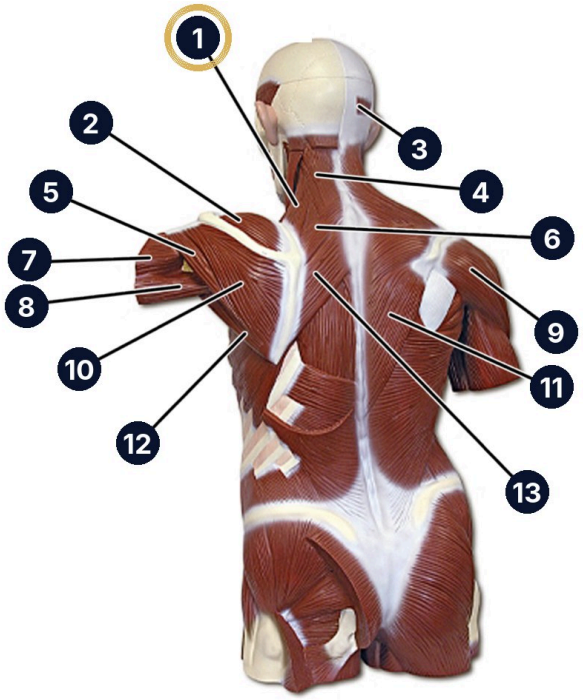

1. Name the muscle at the gold ring.
   Pectoralis major
2. Origin?
   Medial clavicle; sternum; costal cartilages of ribs 1 to 6
3. Insertion?
   Intertubercular (bicipital) groove of humerus and greater tubercle
4. Action?
   Flexes, adducts and medially rotates the shoulder; horizontal adduction (prime mover)
5. Innervation?
   Medial and lateral pectoral n.

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 4 · SUPERFICIAL BACK

ANSWER KEY

Muscle 4

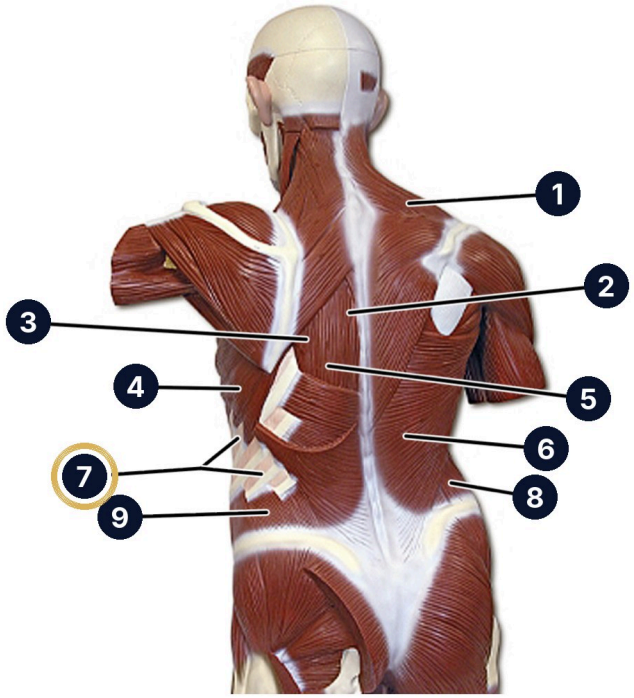

1. Name the muscle at the gold ring.
   Levator scapulae
2. Origin?
   Transverse processes of C1 to C4
3. Insertion?
   Medial border of scapula (superior angle)
4. Action?
   Elevates the scapula; downwardly rotates the scapula (with the rhomboids)
5. Innervation?
   C3 and C4 spinal nerves and dorsal scapular n.

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 5 · THORACIC WALL

PRACTICE

Muscle 5

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

4. Action?

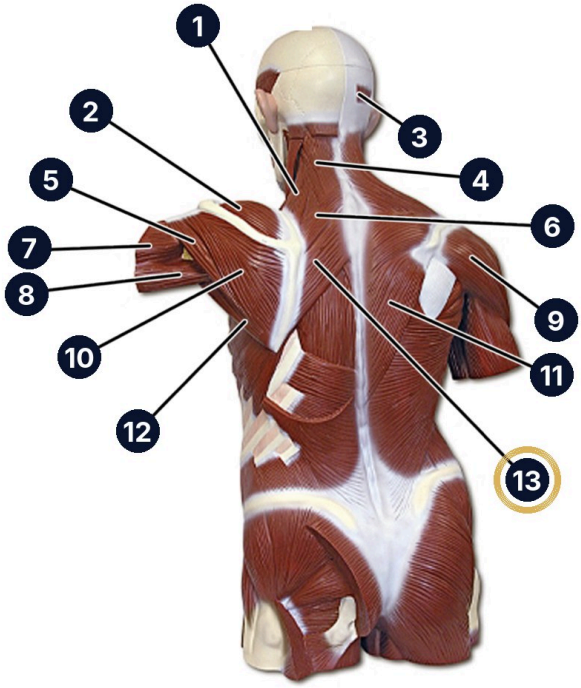

5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 6 · SUPERFICIAL BACK

PRACTICE

Muscle 6

1. Name the muscle at the gold ring.

2. Origin?

3. Insertion?

4. Action?

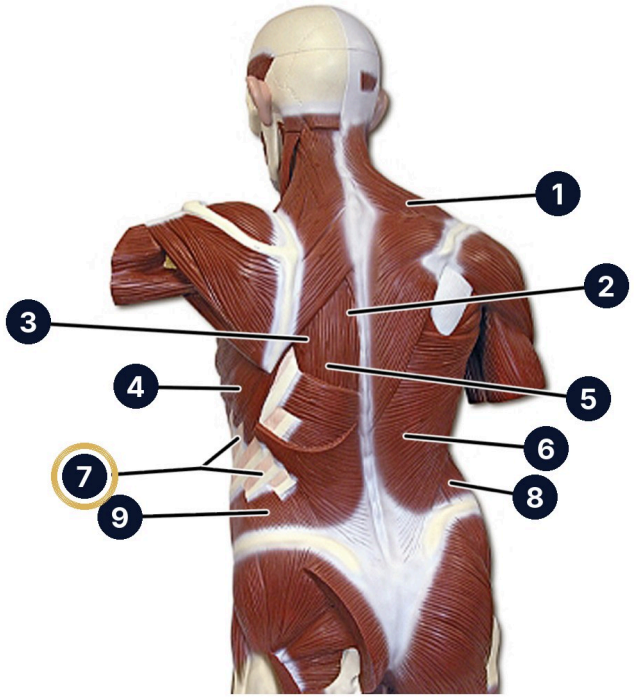

5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 5 · THORACIC WALL

ANSWER KEY

Muscle 5

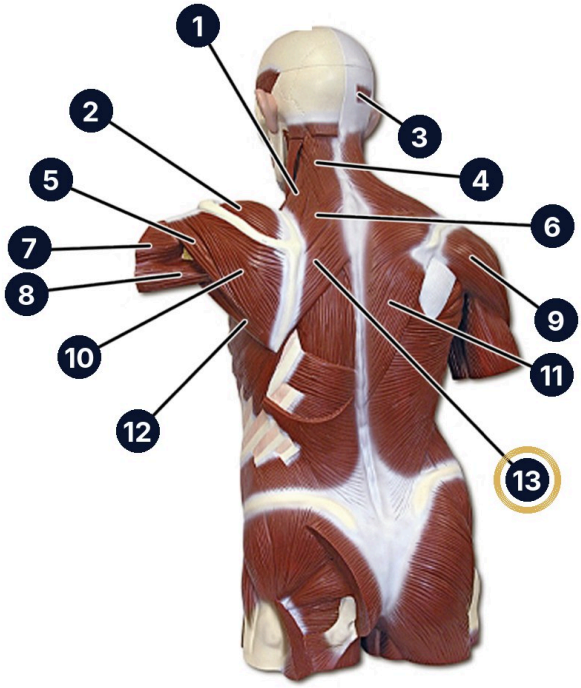

1. Name the muscle at the gold ring.
   External intercostals
2. Origin?
   Inferior border of the rib above
3. Insertion?
   Superior border of the rib below
4. Action?
   Elevate the ribs for inspiration. Fibers run down and forward, hands in pockets
5. Innervation?
   Intercostal nerves

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 6 · SUPERFICIAL BACK

ANSWER KEY

Muscle 6

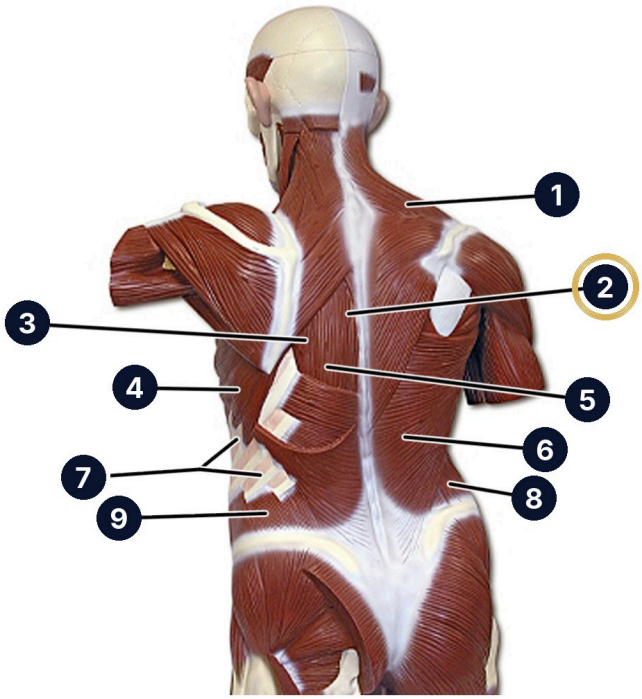

1. Name the muscle at the gold ring.
   Rhomboid major
2. Origin?
   Spinous processes of T2 to T5
3. Insertion?
   Medial border of scapula (below the spine of the scapula)
4. Action?
   Adducts (retracts) the scapula; downwardly rotates the scapula; elevates the medial border
5. Innervation?
   Dorsal scapular n.

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 7 · DEEP BACK

PRACTICE

Muscle 7

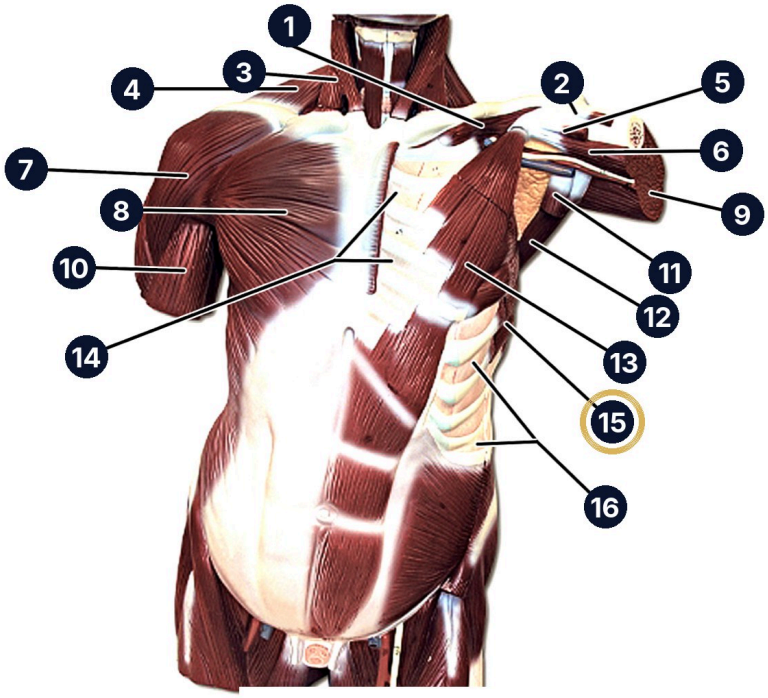

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 8 · ANTERIOR THORAX

PRACTICE

Muscle 8

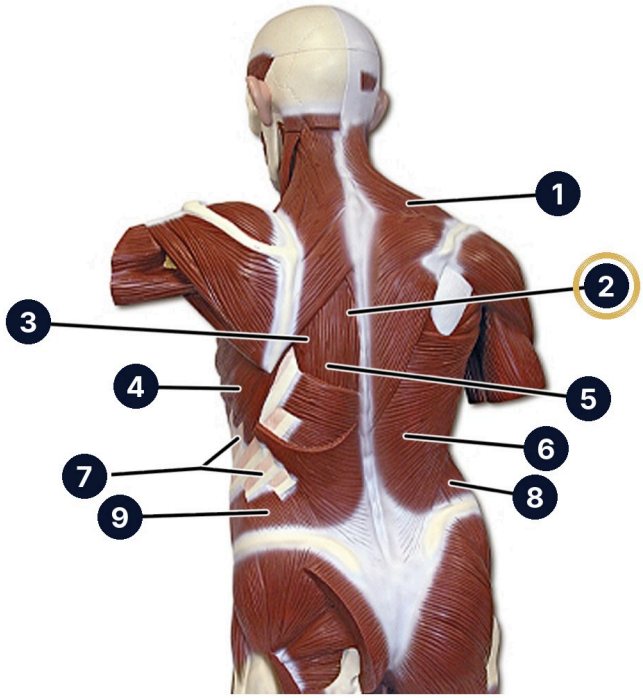

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 7 · DEEP BACK

ANSWER KEY

Muscle 7

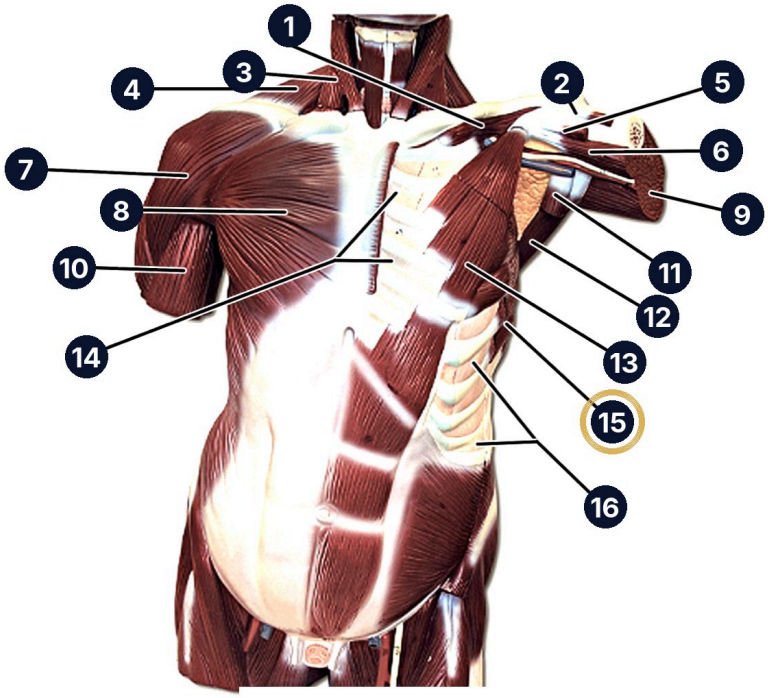

1. Name the muscle at the gold ring.
   Spinalis
2. Origin?
   Spinous processes of upper lumbar and lower thoracic vertebrae
3. Insertion?
   Spinous processes of upper thoracic vertebrae
4. Action?
   Extends the vertebral column
5. Innervation?
   Dorsal rami of spinal nerves

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 8 · ANTERIOR THORAX

ANSWER KEY

Muscle 8

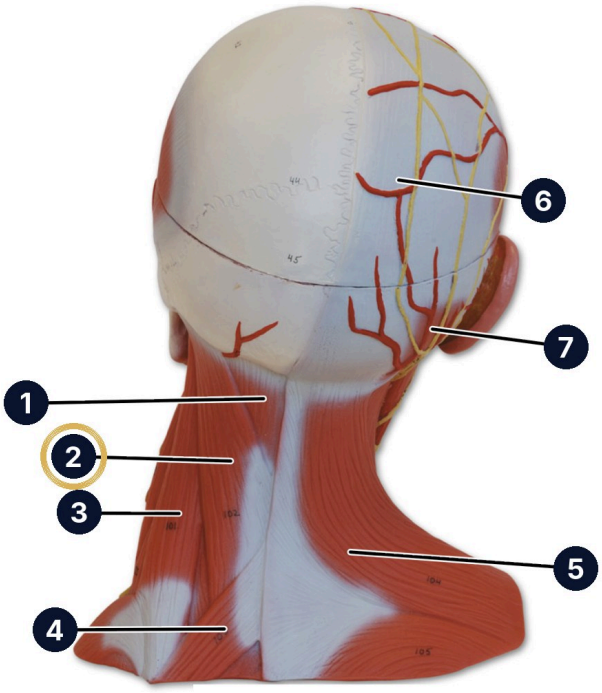

1. Name the muscle at the gold ring.
   Serratus anterior
2. Origin?
   Ribs 1 to 8 (lateral surfaces, along the midaxillary line)
3. Insertion?
   Anterior (costal) surface of medial border of scapula
4. Action?
   Protracts (abducts) the scapula; upwardly rotates the scapula; holds the scapula flat against the rib cage
5. Innervation?

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 9 · DEEP BACK

PRACTICE

Muscle 9

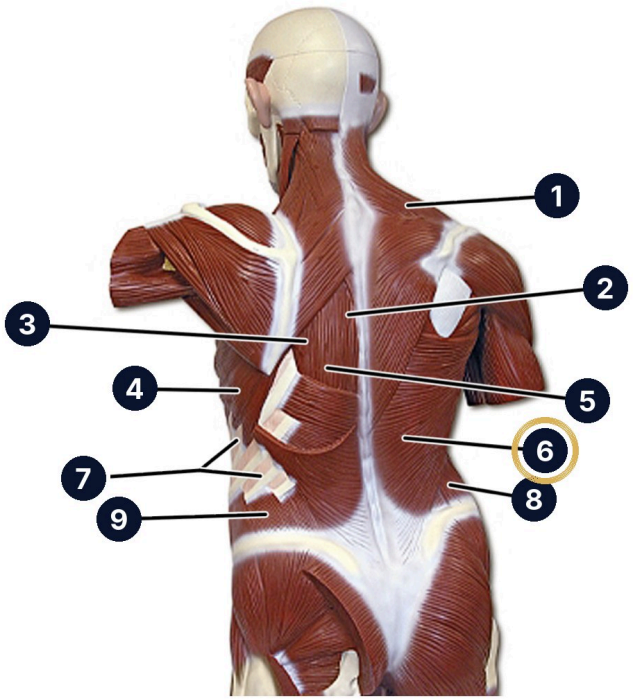

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 10 · SUPERFICIAL BACK

PRACTICE

Muscle 10

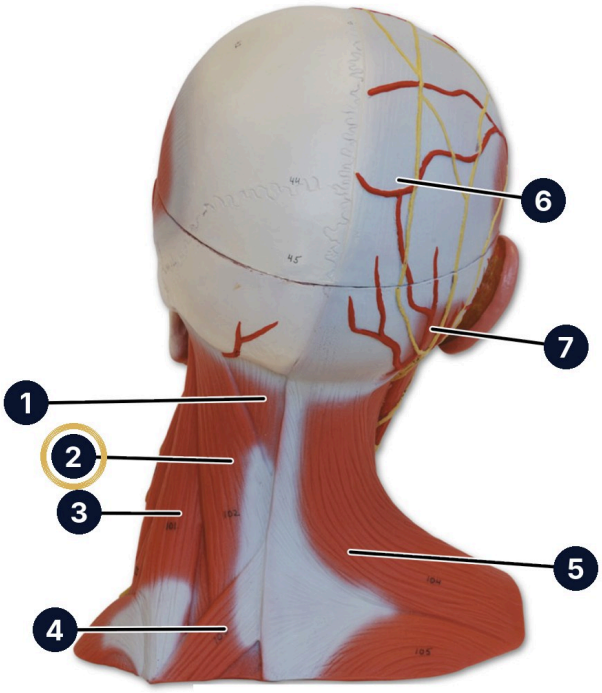

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 9 · DEEP BACK

ANSWER KEY

Muscle 9

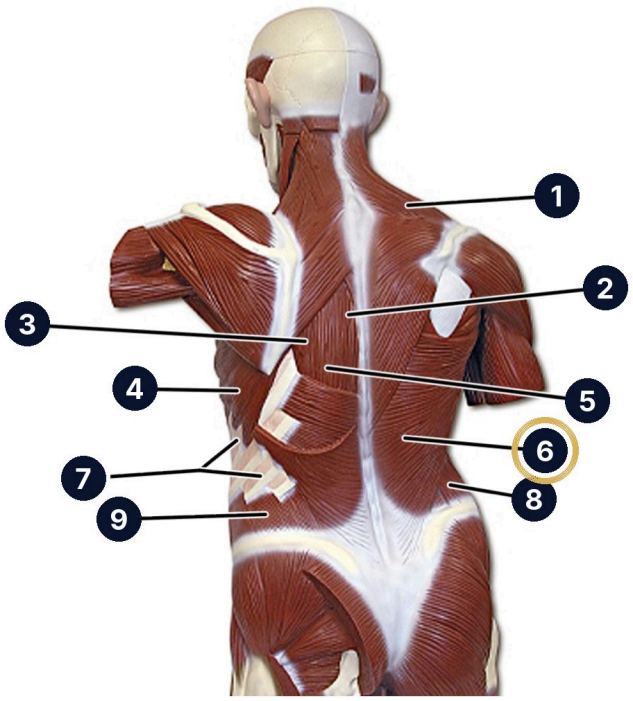

Check your answers, then wipe the front clean for the next round.

1. Name the muscle at the gold ring.
   Splenius capitis
2. Origin?
   Ligamentum nuchae; spinous processes of C7 to T3
3. Insertion?
   Mastoid process and occipital bone
4. Action?
   Both sides together extend the head; one side alone rotates the head to the same side
5. Innervation?
   Dorsal rami of middle cervical spinal nerves

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 10 · SUPERFICIAL BACK

ANSWER KEY

Muscle 10

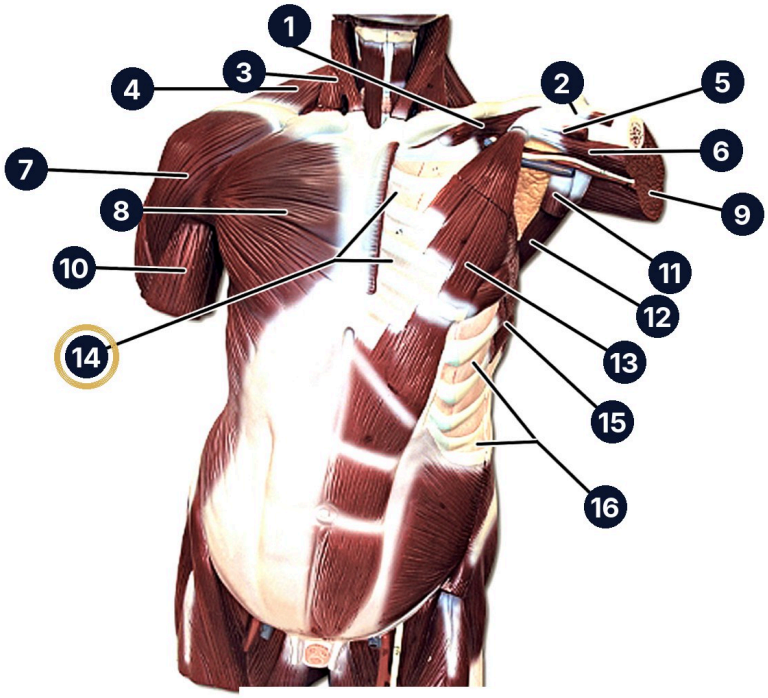

Check your answers, then wipe the front clean for the next round.

1. Name the muscle at the gold ring.
   Latissimus dorsi
2. Origin?
   Spinous processes of T7 to L5; thoracolumbar fascia; iliac crest; ribs 9 to 12
3. Insertion?
   Intertubercular groove of humerus
4. Action?
   Extends, adducts and medially rotates the shoulder; horizontal extension (the "swimming muscle")
5. Innervation?

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 11 · THORACIC WALL

PRACTICE

Muscle 11

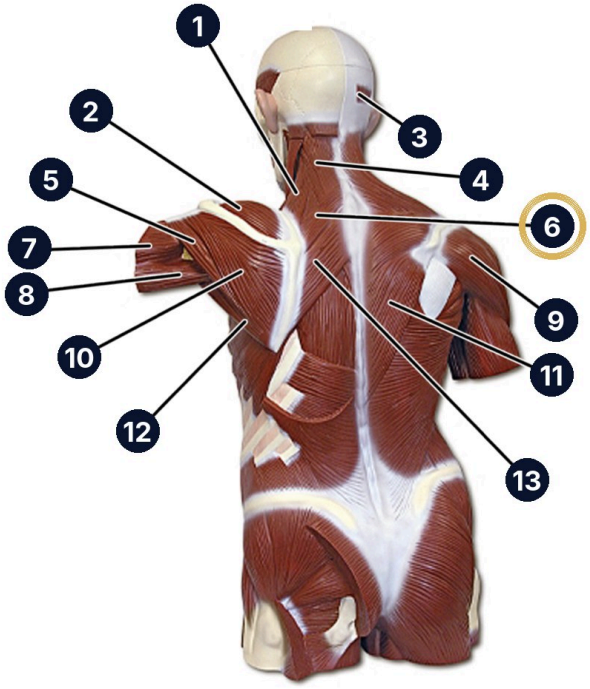

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 12 · SUPERFICIAL BACK

PRACTICE

Muscle 12

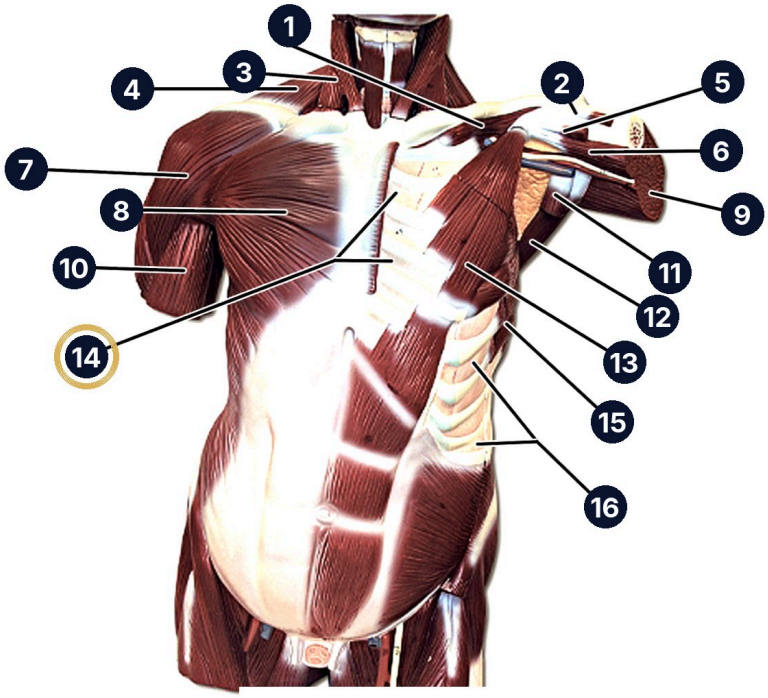

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 11 · THORACIC WALL

ANSWER KEY

Muscle 11

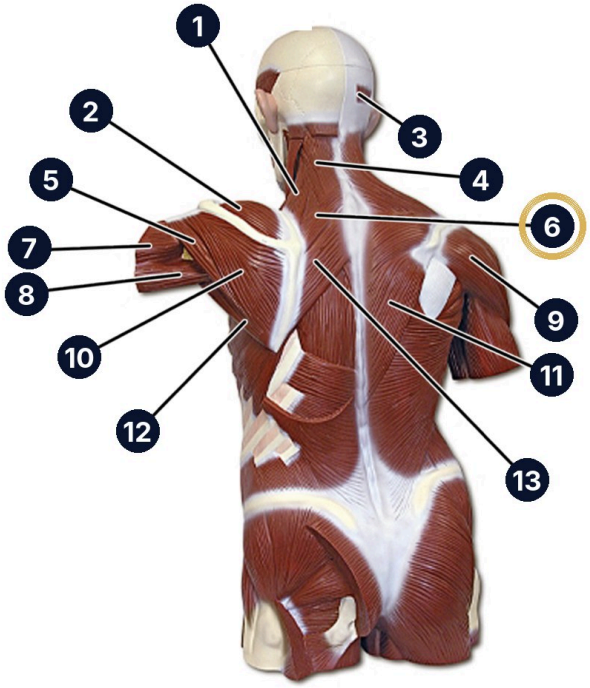

1. Name the muscle at the gold ring.
   Internal intercostals
2. Origin?
   Superior border of the rib below
3. Insertion?
   Inferior border of the rib above
4. Action?
   Depress the ribs for forced expiration. Fibers run at right angles to the external layer
5. Innervation?
   Intercostal nerves

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 12 · SUPERFICIAL BACK

ANSWER KEY

Muscle 12

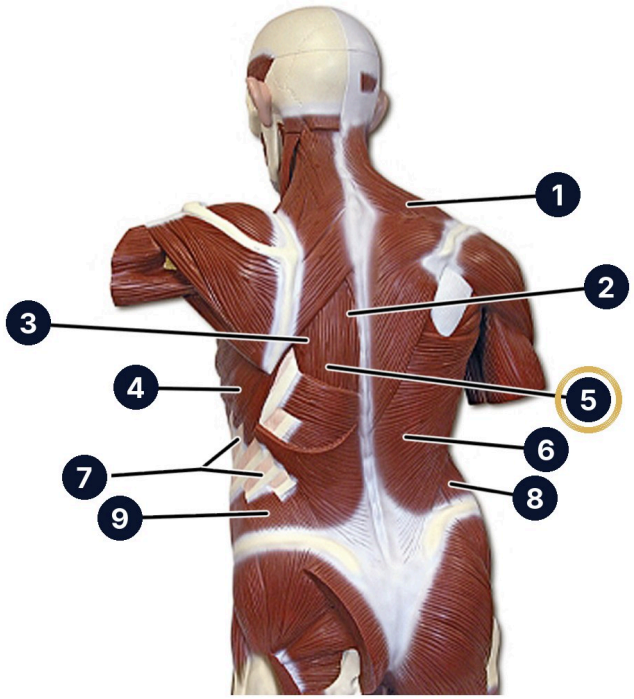

1. Name the muscle at the gold ring.
   Rhomboid minor
2. Origin?
   Spinous processes of C7 and T1
3. Insertion?
   Medial border of scapula (at the level of the spine of the scapula)
4. Action?
   Adducts (retracts) the scapula; downwardly rotates the scapula
5. Innervation?
   Dorsal scapular n.

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 13 · DEEP BACK

PRACTICE

Muscle 13

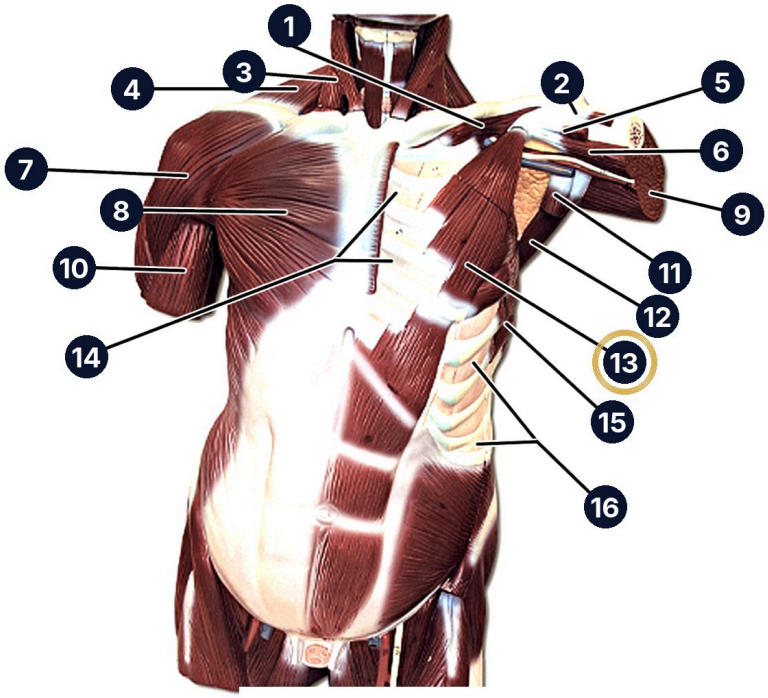

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 14 · ANTERIOR THORAX

PRACTICE

Muscle 14

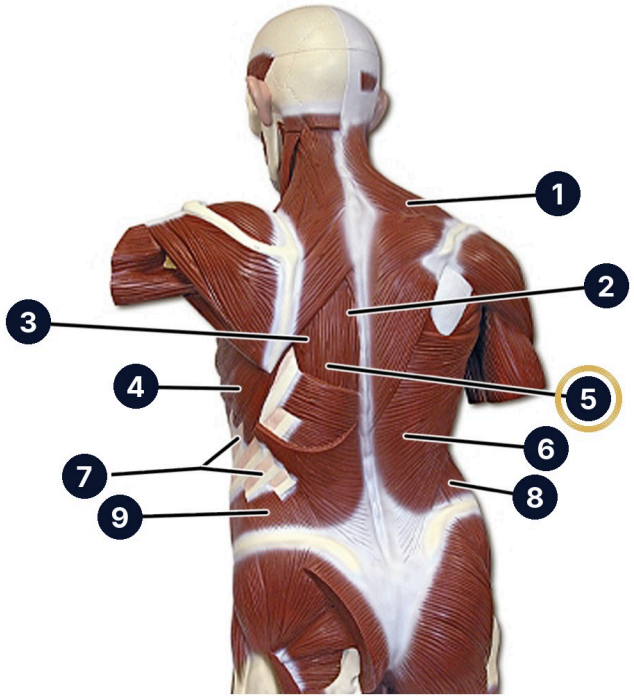

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 13 · DEEP BACK

ANSWER KEY

Muscle 13

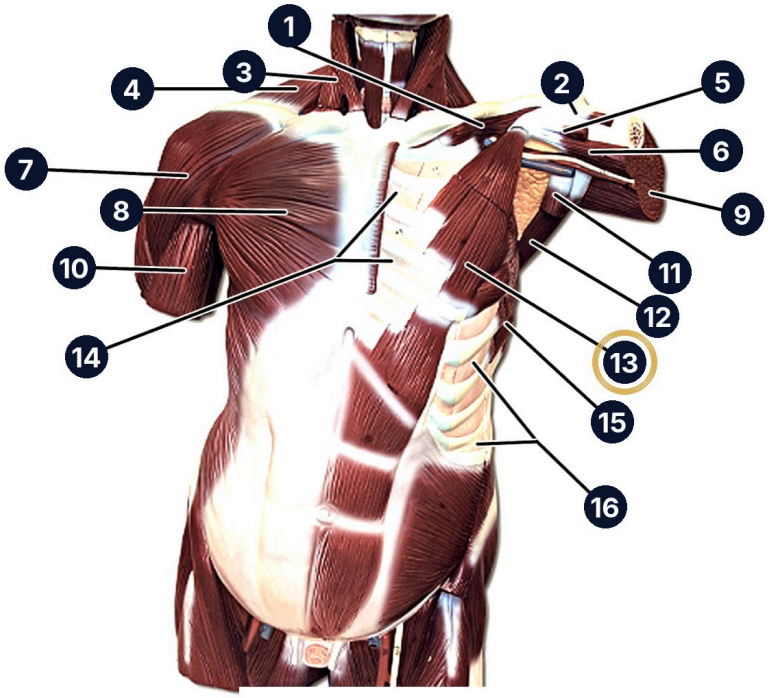

Check your answers, then wipe the front clean for the next round.

1. Name the muscle at the gold ring.
   Longissimus
2. Origin?
   Common tendon from the sacrum and iliac crest; transverse processes of lumbar and thoracic vertebrae
3. Insertion?
   Transverse processes higher up, the ribs, and the mastoid process
4. Action?
   Extends the vertebral column and head; one side alone bends the trunk to that side
5. Innervation?
   Dorsal rami of spinal nerves

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 14 · ANTERIOR THORAX

ANSWER KEY

Muscle 14

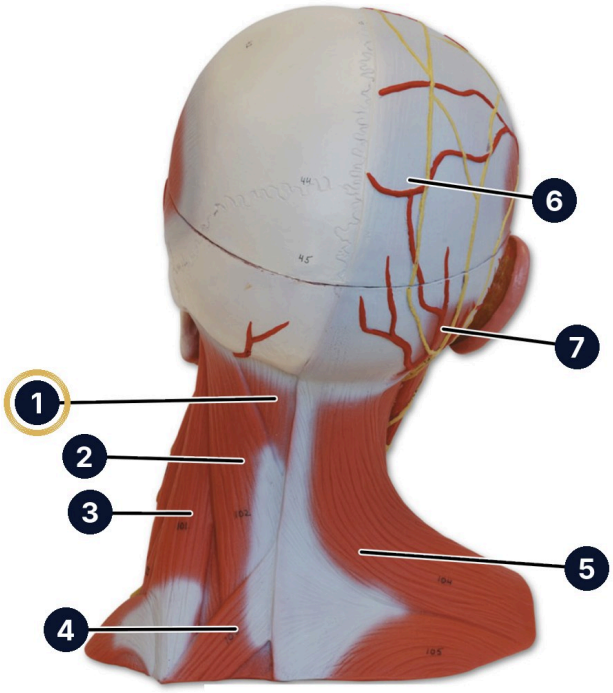

Check your answers, then wipe the front clean for the next round.

1. Name the muscle at the gold ring.
   Pectoralis minor
2. Origin?
   Ribs 3 to 5 (anterior surfaces and costal cartilages)
3. Insertion?
   Coracoid process of scapula
4. Action?
   Protracts and depresses the scapula; elevates the ribs (accessory inspiration)
5. Innervation?
   Medial pectoral n.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 15 · DEEP BACK

PRACTICE

Muscle 15

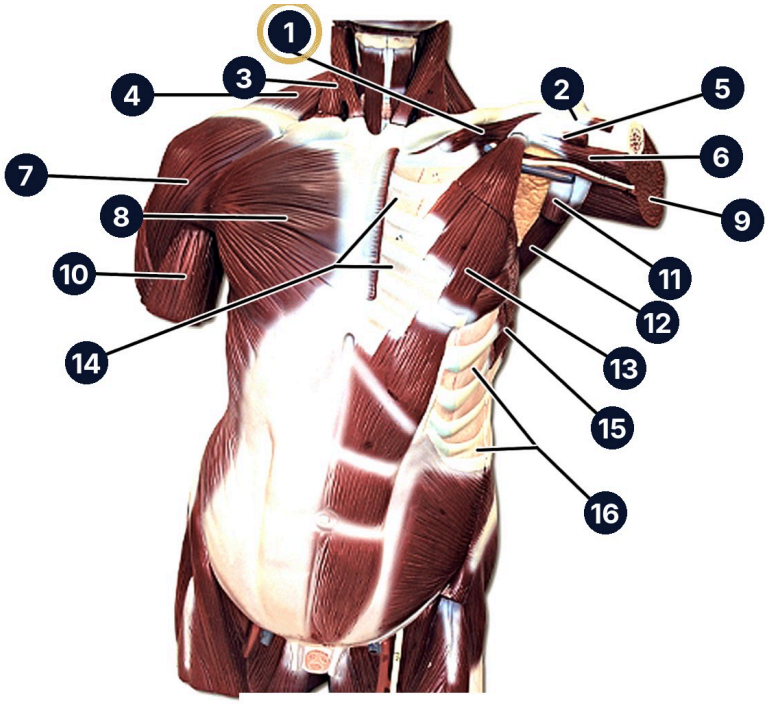

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 16 · ANTERIOR THORAX

PRACTICE

Muscle 16

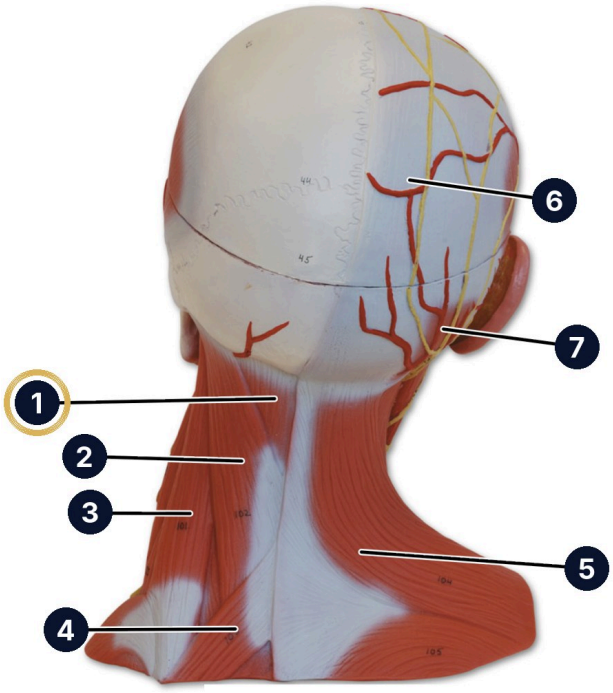

1. Name the muscle at the gold ring.
2. Origin?
3. Insertion?
4. Action?
5. Innervation?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 15 · DEEP BACK

ANSWER KEY

Muscle 15

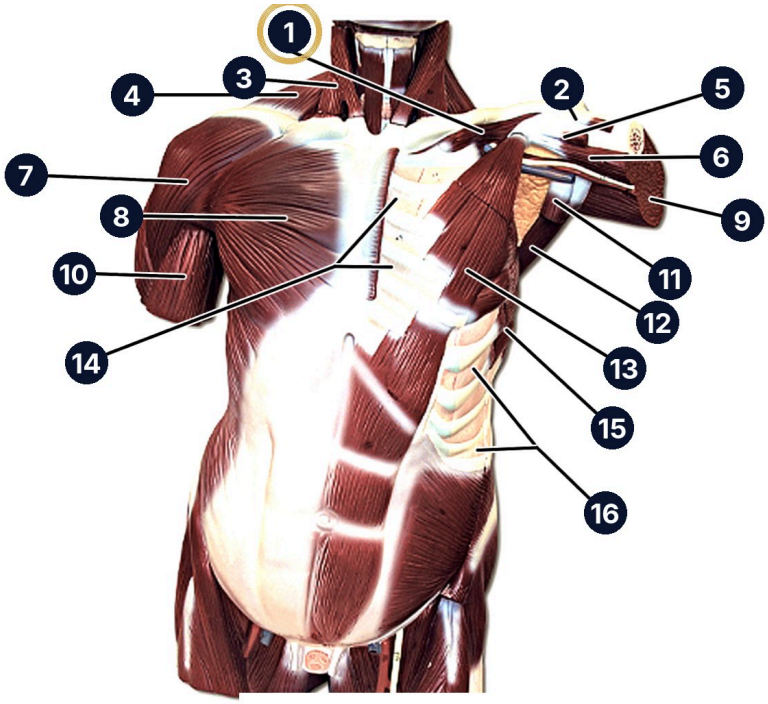

1. Name the muscle at the gold ring.
   Semispinalis capitis
2. Origin?
   Transverse processes of C7 to T6 and articular processes of C4 to C6
3. Insertion?
   Occipital bone, between the nuchal lines
4. Action?
   Extends the head; one side alone turns the head to the opposite side
5. Innervation?
   Dorsal rami of cervical spinal nerves

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 16 · ANTERIOR THORAX

ANSWER KEY

Muscle 16

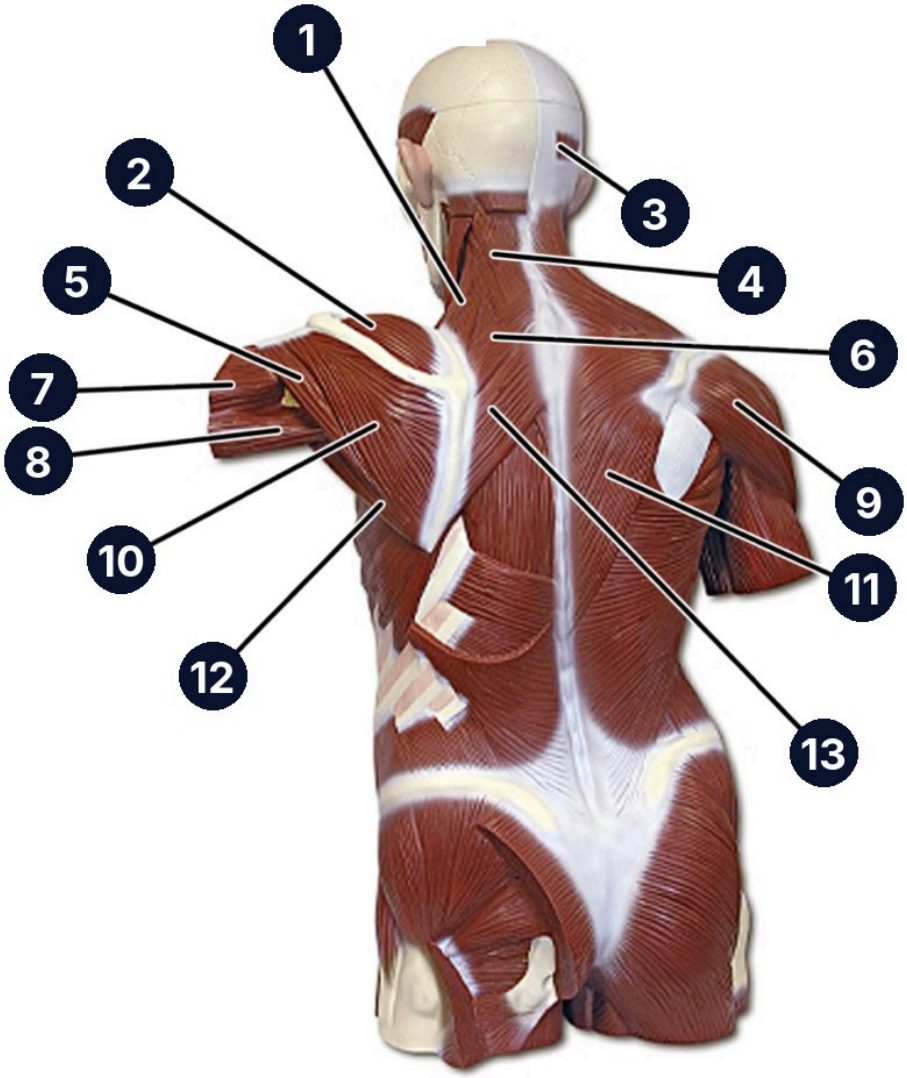

1. Name the muscle at the gold ring.
   Subclavius
2. Origin?
   First rib at its costal cartilage
3. Insertion?
   Inferior surface of the clavicle
4. Action?
   Depresses and steadies the clavicle
5. Innervation?
   Nerve to subclavius

Check your answers, then wipe the front clean for the next round.

PRACTICE

Torso, posterior view (superficial)

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

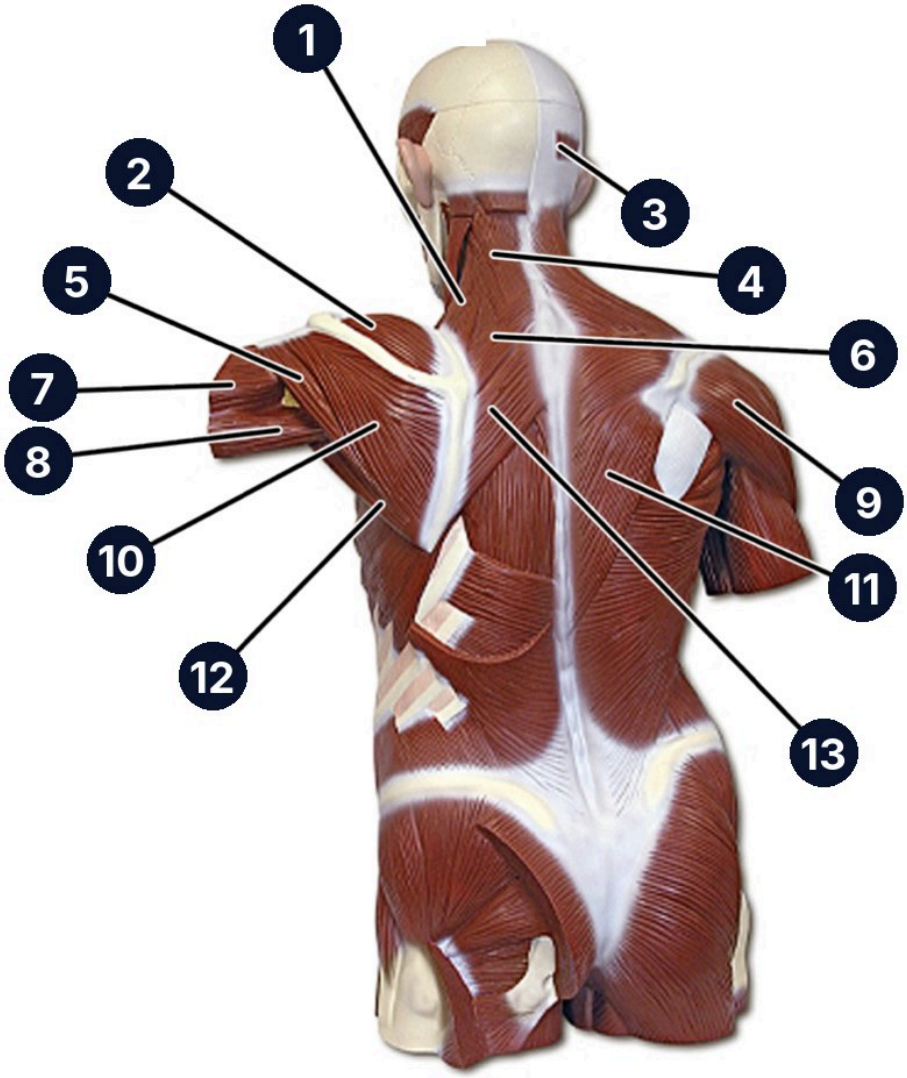

12 _____

13 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Torso, posterior view (superficial)

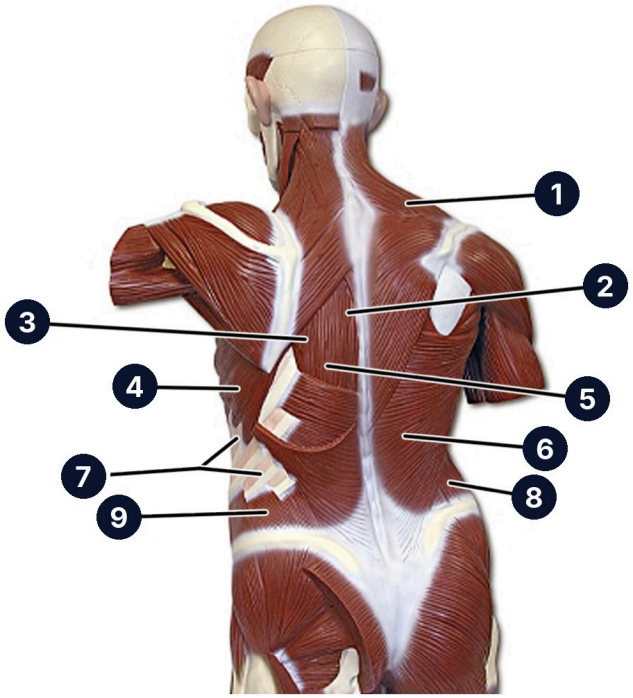

1. Levator scapulae
2. Supraspinatus
3. Epicranius, occipital belly
4. Splenius capitis
5. Teres minor
6. Rhomboid minor
7. Triceps brachii, lateral head
8. Triceps brachii, long head
9. Deltoid
10. Infraspinatus
11. Trapezius
12. Teres major
13. Rhomboid major

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 18 · MODEL REVIEW

PRACTICE

Torso, posterior view (deep)

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

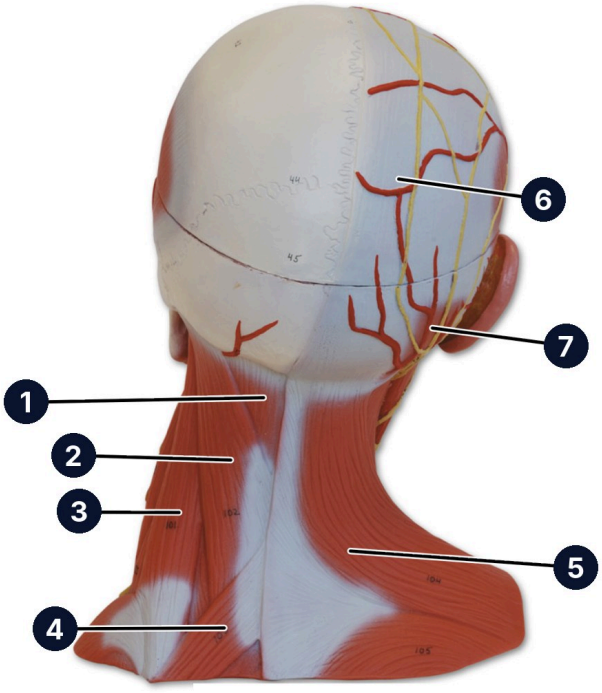

9 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 20 · MODEL REVIEW

PRACTICE

Neck, posterior view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

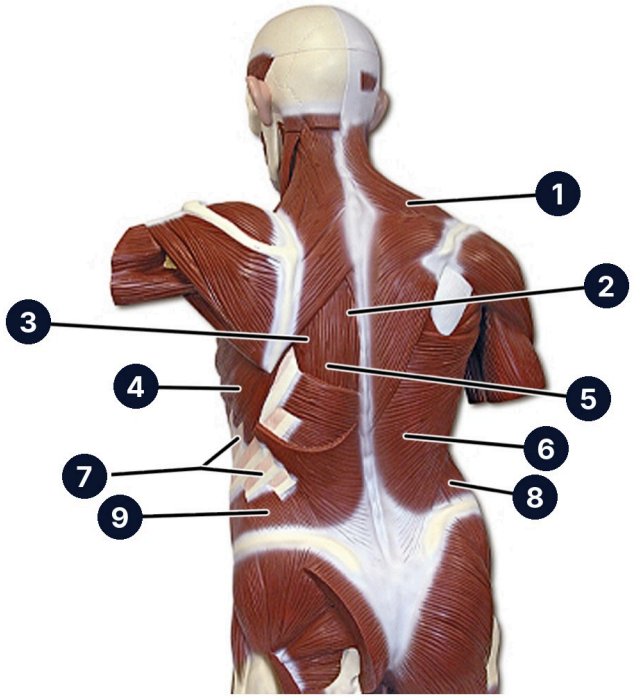

7 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 18 · MODEL REVIEW

ANSWER KEY

Torso, posterior view (deep)

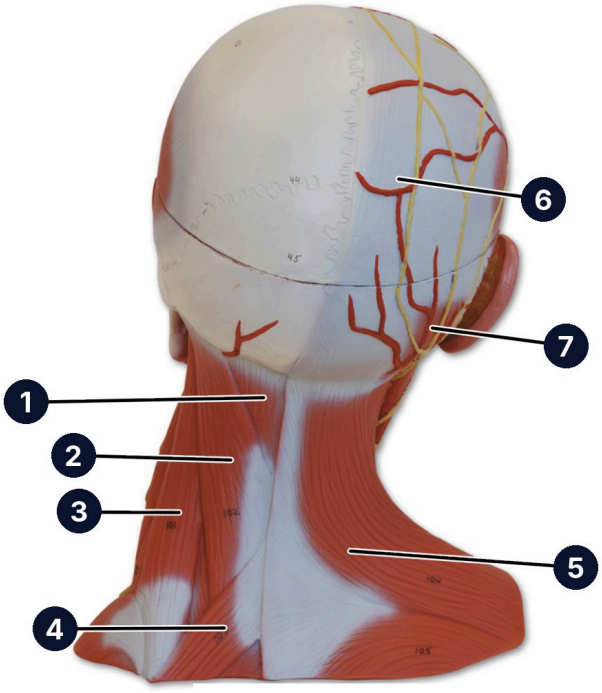

1. Trapezius
2. Spinalis
3. Iliocostalis
4. Serratus anterior
5. Longissimus
6. Latissimus dorsi
7. External intercostals
8. External oblique
9. Internal oblique

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 20 · MODEL REVIEW

ANSWER KEY

Neck, posterior view

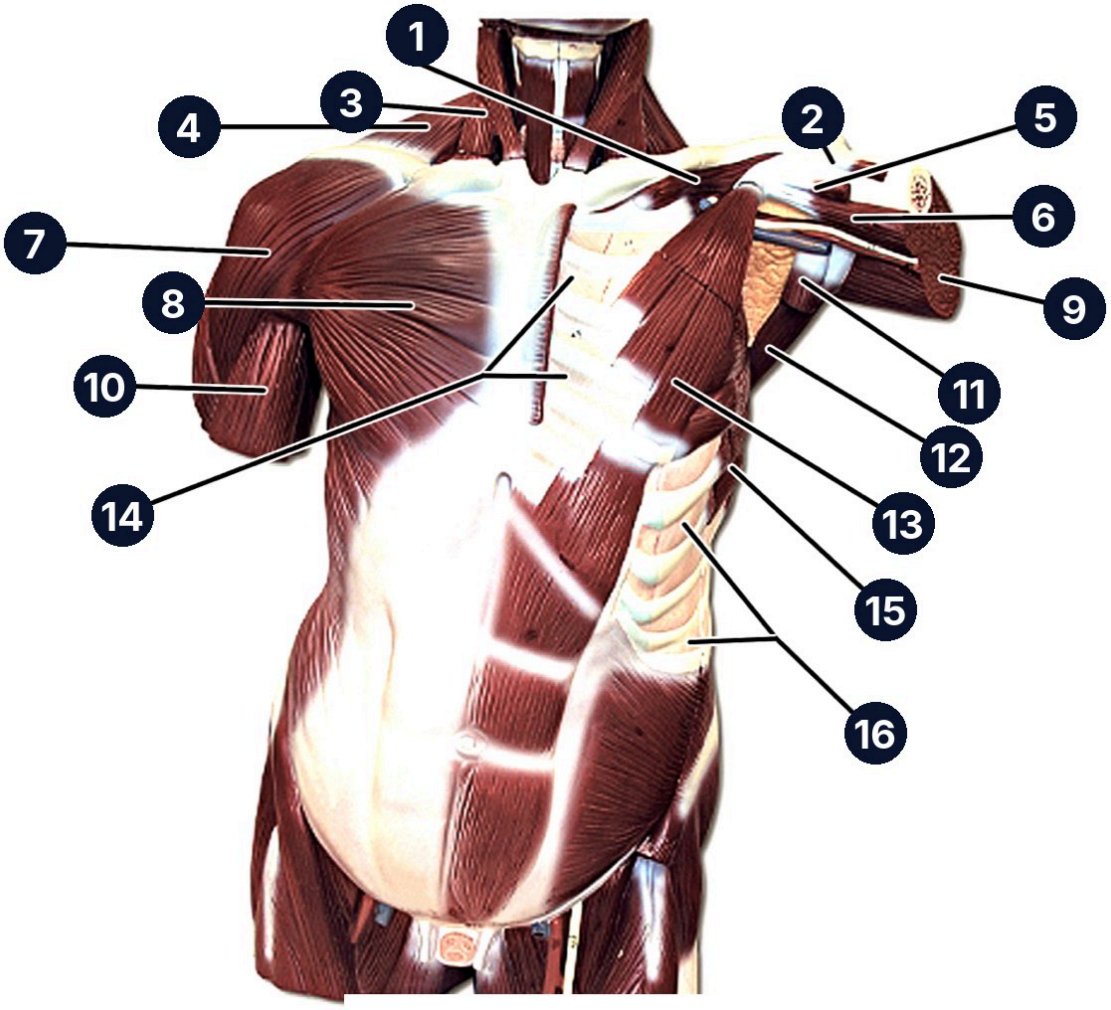

1. Semispinalis capitis
2. Splenius capitis
3. Levator scapulae
4. Rhomboid minor
5. Trapezius
6. Epicranius, galea aponeurotica
7. Epicranius, occipital belly

Check your answers, then wipe the front clean for the next round.

PRACTICE

Torso, anterior view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

12 _____

13 _____

14 _____

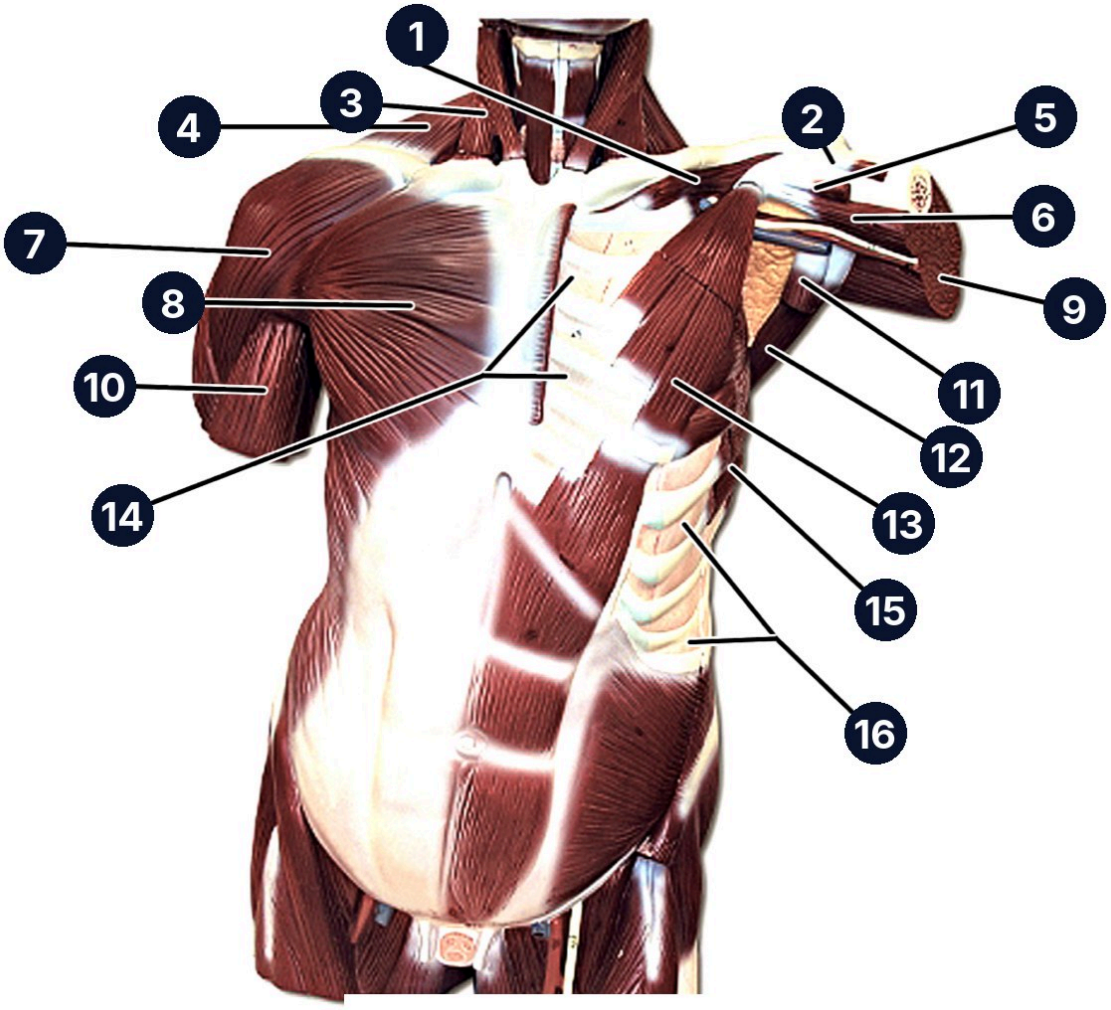

15 _____

16 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Torso, anterior view

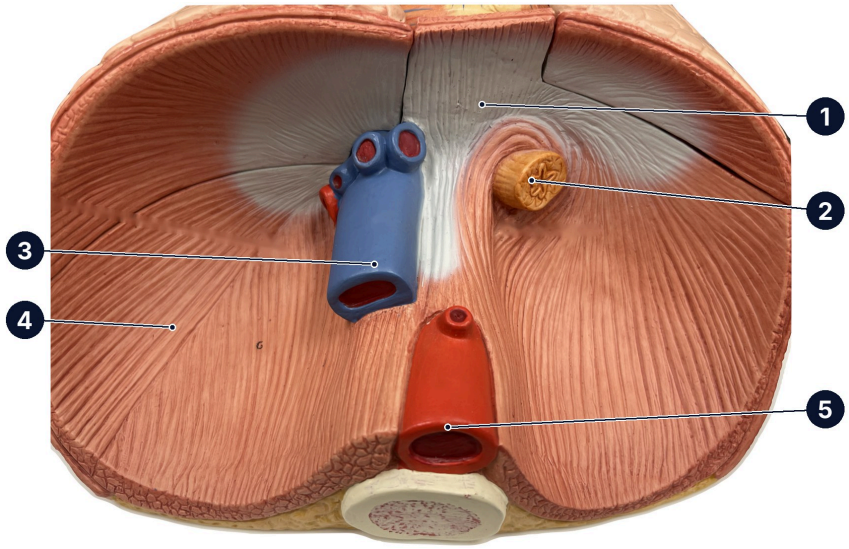

1. Subclavius
2. Biceps brachii, long head
3. Sternocleidomastoid
4. Trapezius
5. Biceps brachii, short head
6. Coracobrachialis
7. Deltoid
8. Pectoralis major
9. Triceps brachii
10. Biceps brachii
11. Latissimus dorsi
12. Teres major
13. Pectoralis minor
14. Internal intercostals
15. Serratus anterior
16. External intercostals

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 21 · THORACIC WALL

PRACTICE

Diaphragm, from above

1. Name this white sheet at the center.

2. Name this tube.

3. Name this vessel.

4. Name this muscle.

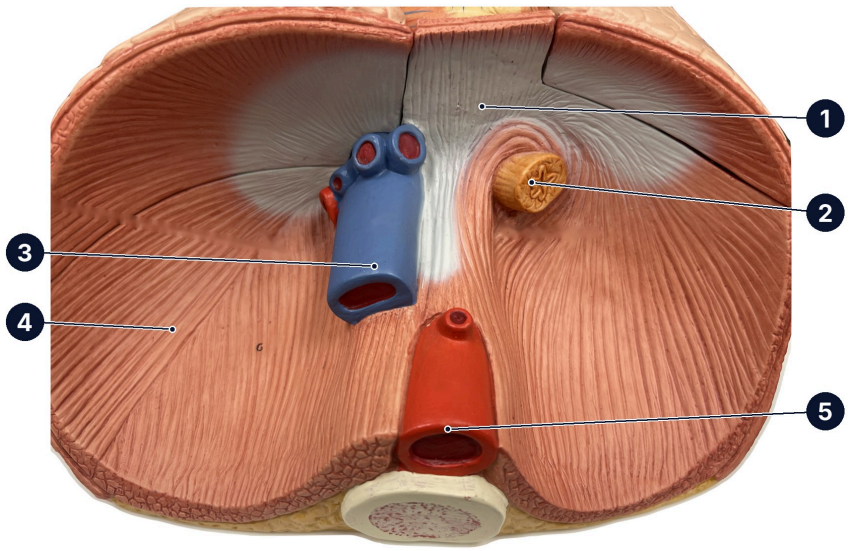

5. Name this vessel.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 22 · THORACIC WALL

PRACTICE

Diaphragm openings

1. Vertebral level where the inferior vena cava passes?

2. Vertebral level where the esophagus passes?

3. Vertebral level where the aorta passes?

4. Nerve that supplies the diaphragm?

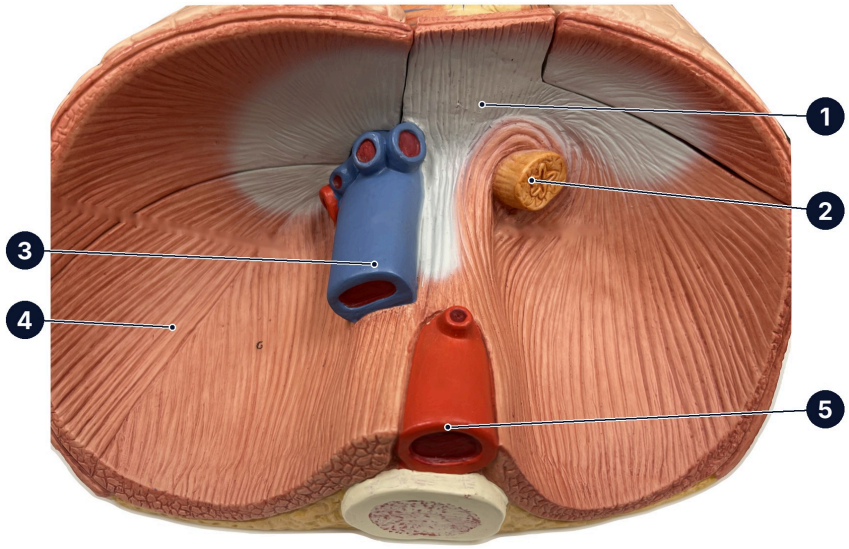

5. What does the diaphragm do when it contracts?

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 21 · THORACIC WALL

ANSWER KEY

Diaphragm, from above

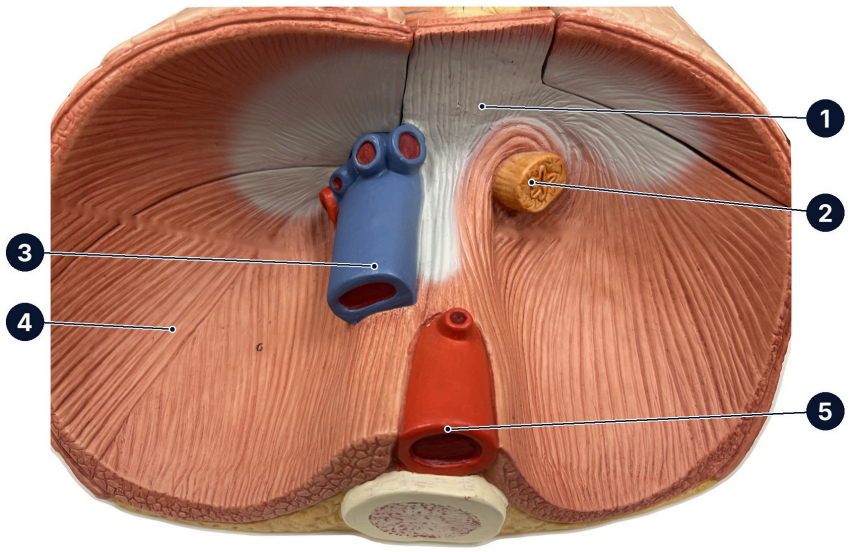

1. Name this white sheet at the center.
   Central tendon
2. Name this tube.
   Esophagus
3. Name this vessel.
   Inferior vena cava
4. Name this muscle.
   Diaphragm
5. Name this vessel.
   Aorta

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · BACK AND THORAX MUSCLES · CARD 22 · THORACIC WALL

ANSWER KEY

Diaphragm openings

1. Vertebral level where the inferior vena cava passes?
   T8
2. Vertebral level where the esophagus passes?
   T10
3. Vertebral level where the aorta passes?
   T12
4. Nerve that supplies the diaphragm?
   Phrenic nerve (C3, C4, C5)
5. What does the diaphragm do when it contracts?
   Flattens and moves down, making the thoracic cavity taller so air flows in

Check your answers, then wipe the front clean for the next round.
