BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 1 · SKIN MODEL

PRACTICE

Skin model: regions and layers

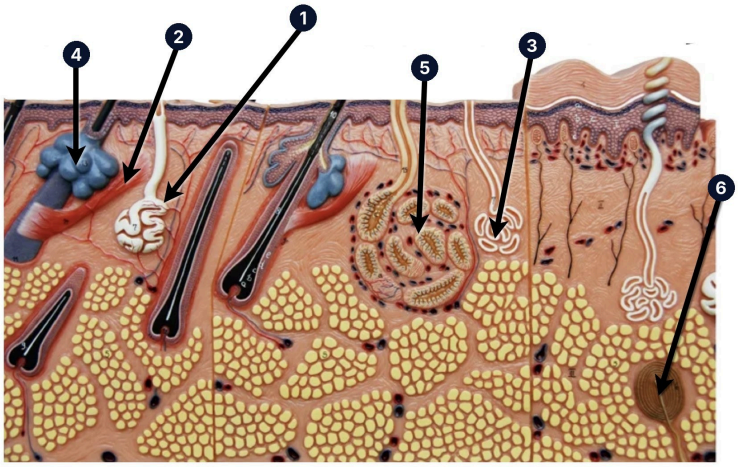

1. Name this type of skin.
2. Name this region of skin.
3. Name this type of skin.
4. Name this layer.
5. Name this part of the dermis.
6. Name this layer.
7. Name this part of the dermis.
8. Name this layer under the skin.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 2 · SKIN MODEL

PRACTICE

Skin model: glands and receptors

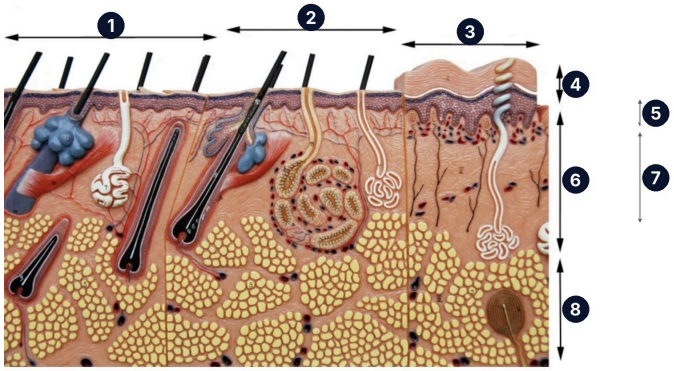

1. Name this structure.
2. Name this structure.
3. Name this structure.
4. Name this structure.
5. Name this structure.
6. Name this structure.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 1 · SKIN MODEL

ANSWER KEY

Skin model: regions and layers

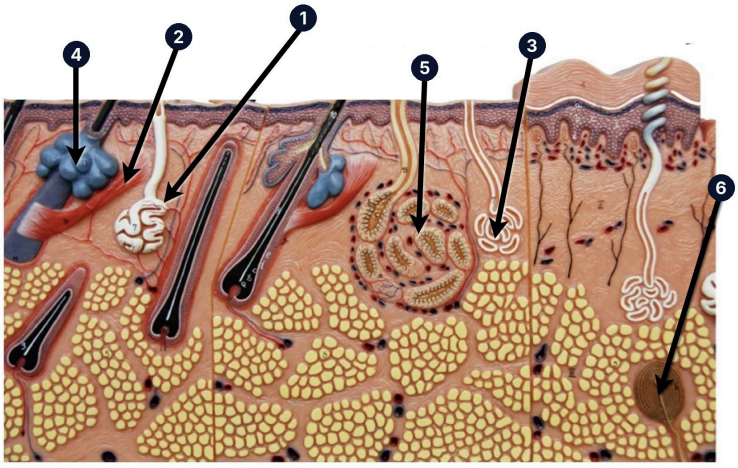

1. Name this type of skin.
   Thin skin
2. Name this region of skin.
   Axillary skin
3. Name this type of skin.
   Thick skin
4. Name this layer.
   Epidermis
5. Name this part of the dermis.
   Papillary dermis
6. Name this layer.
   Dermis
7. Name this part of the dermis.
   Reticular dermis
8. Name this layer under the skin.
   Hypodermis

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 2 · SKIN MODEL

ANSWER KEY

Skin model: glands and receptors

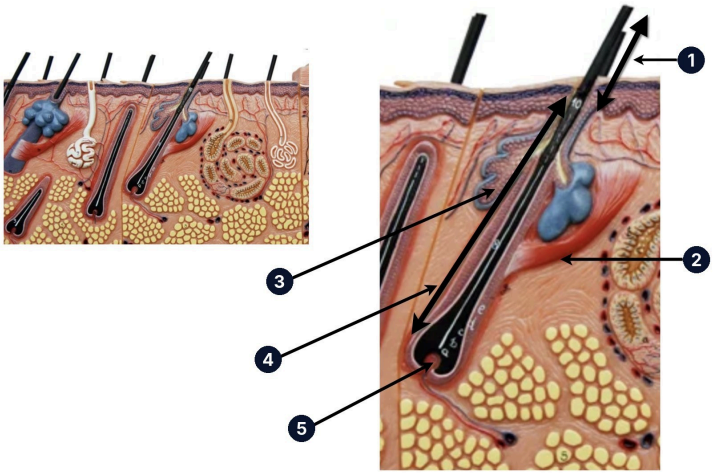

1. Name this structure.
   Eccrine sweat gland
2. Name this structure.
   Arrector pili muscle
3. Name this structure.
   Eccrine sweat gland
4. Name this structure.
   Sebaceous (oil) gland
5. Name this structure.
   Apocrine sweat gland
6. Name this structure.
   Lamellated (Pacinian) corpuscle

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 3 · SKIN MODEL

PRACTICE

Skin model: hair follicle

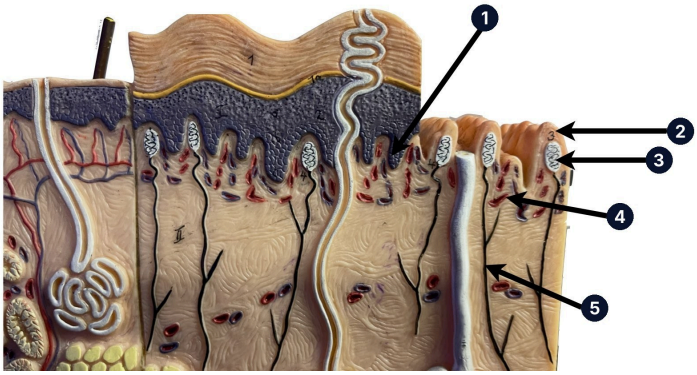

1. Name this structure.
2. Name this structure.
3. Name this structure.
4. Name this structure.
5. Name this structure.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 4 · SKIN MODEL

PRACTICE

Skin model: dermal papillae (thick skin)

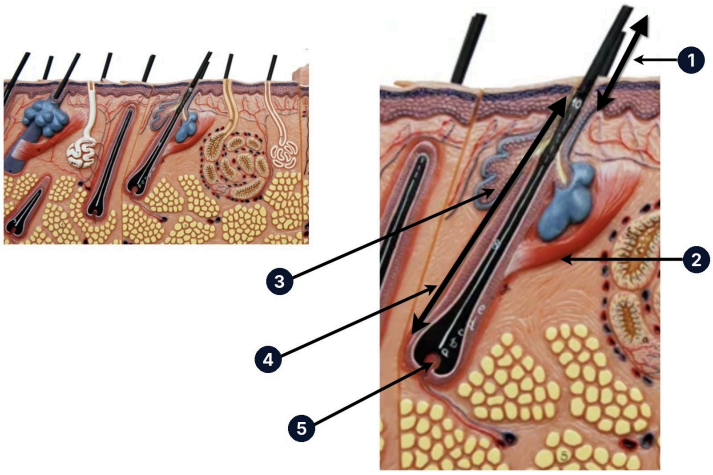

1. Name this structure.
2. Name this structure.
3. Name this structure.
4. Name this structure.
5. Name this structure.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 3 · SKIN MODEL

ANSWER KEY

Skin model: hair follicle

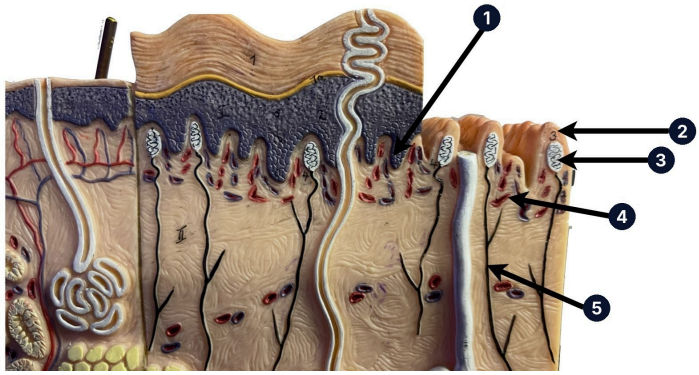

1. Name this structure.
   Hair shaft
2. Name this structure.
   Arrector pili muscle
3. Name this structure.
   Sebaceous (oil) gland
4. Name this structure.
   Hair root
5. Name this structure.
   Hair bulb

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 4 · SKIN MODEL

ANSWER KEY

Skin model: dermal papillae (thick skin)

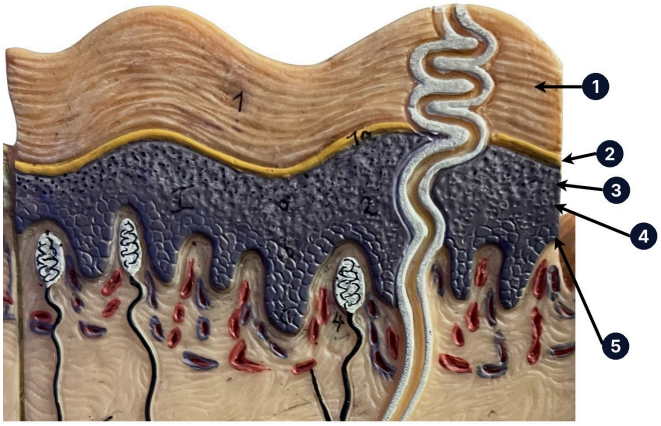

1. Name this structure.
   Epidermal ridge
2. Name this structure.
   Dermal papilla
3. Name this structure.
   Meissner's corpuscle
4. Name this structure.
   Capillary loops
5. Name this structure.
   Free nerve endings

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 5 · SKIN MODEL

PRACTICE

Skin model: layers of the epidermis (thick skin)

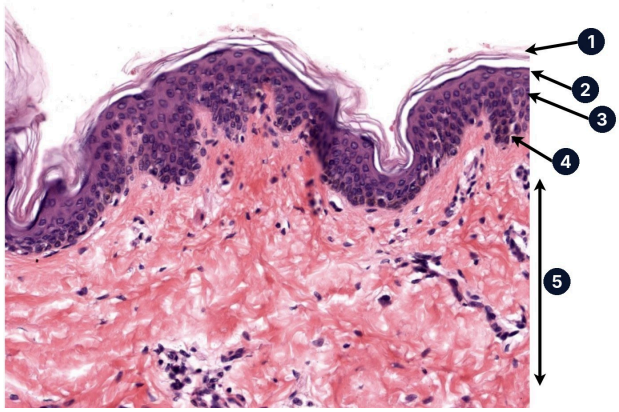

1. Name this layer of the epidermis.
2. Name this layer of the epidermis.
3. Name this layer of the epidermis.
4. Name this layer of the epidermis.
5. Name this layer of the epidermis.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 6 · SKIN HISTOLOGY

PRACTICE

Thin skin (histology)

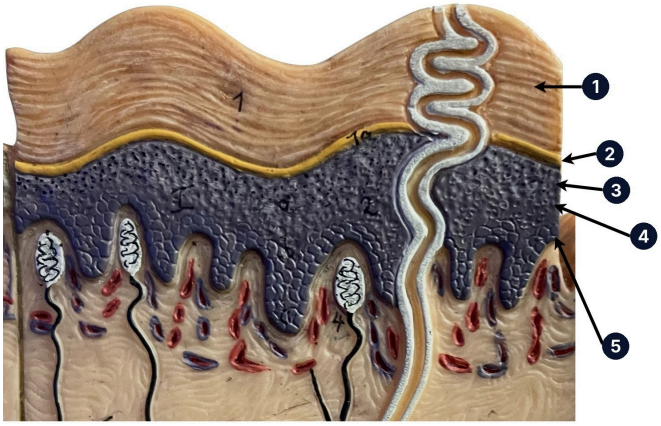

1. Name this layer.
2. Name this layer.
3. Name this layer.
4. Name this layer.
5. Name the tissue in this layer.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 5 · SKIN MODEL

ANSWER KEY

Skin model: layers of the epidermis (thick skin)

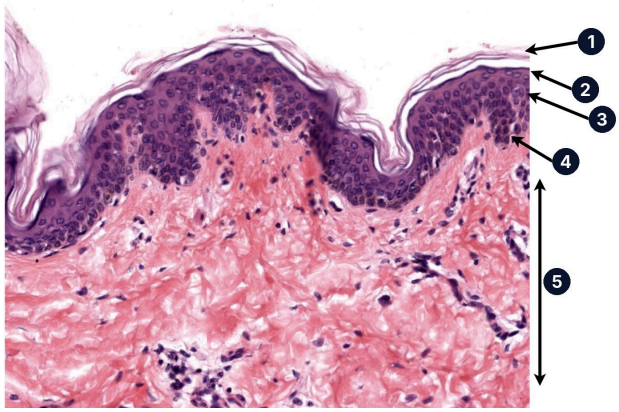

1. Name this layer of the epidermis.
   Stratum corneum
2. Name this layer of the epidermis.
   Stratum lucidum
3. Name this layer of the epidermis.
   Stratum granulosum
4. Name this layer of the epidermis.
   Stratum spinosum
5. Name this layer of the epidermis.
   Stratum basale

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · INTEGUMENTARY SYSTEM (SKIN) · CARD 6 · SKIN HISTOLOGY

ANSWER KEY

Thin skin (histology)

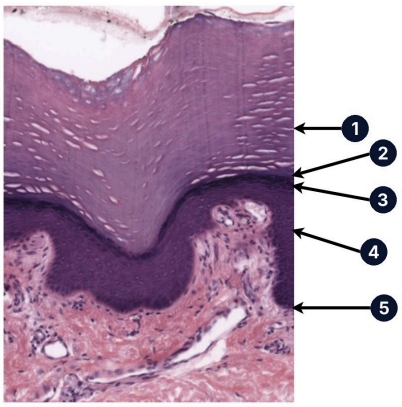

1. Name this layer.
   Stratum corneum
2. Name this layer.
   Stratum granulosum
3. Name this layer.
   Stratum spinosum
4. Name this layer.
   Stratum basale
5. Name the tissue in this layer.
   Dense irregular connective tissue (dermis)

Check your answers, then wipe the front clean for the next round.

PRACTICE

Thick skin (histology)

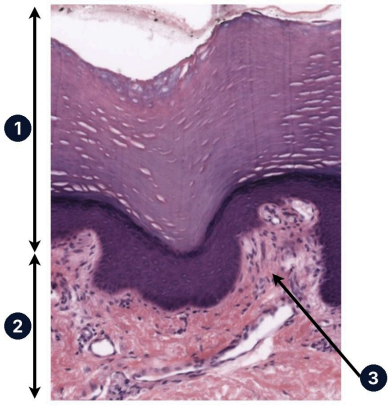

1. Name this layer of the epidermis.
2. Name this layer of the epidermis.
3. Name this layer of the epidermis.
4. Name this layer of the epidermis.
5. Name this layer of the epidermis.

Write each answer on its line with a dry-erase marker, then flip the card to check.

PRACTICE

Thick skin: dermal papilla (histology)

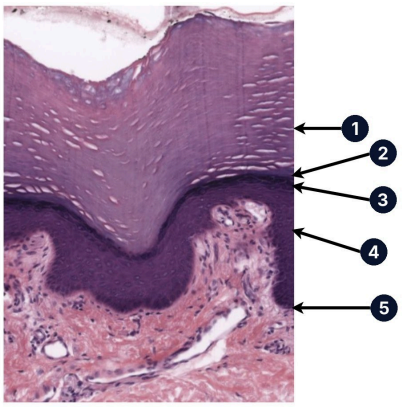

1. Name this structure.
2. Name this structure.
3. Name this structure.

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Thick skin (histology)

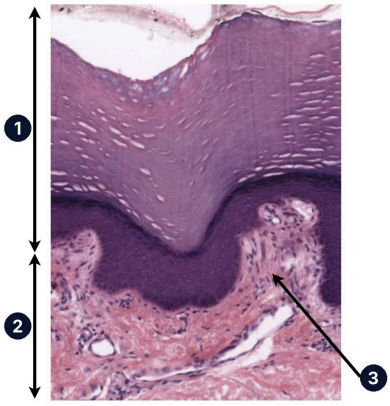

1. Name this layer of the epidermis.
   Stratum corneum
2. Name this layer of the epidermis.
   Stratum lucidum
3. Name this layer of the epidermis.
   Stratum granulosum
4. Name this layer of the epidermis.
   Stratum spinosum
5. Name this layer of the epidermis.
   Stratum basale

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Thick skin: dermal papilla (histology)

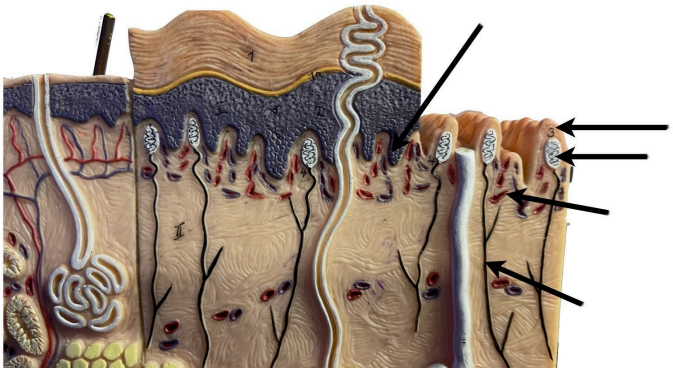

1. Name this structure.
   Epidermis
2. Name this structure.
   Dermis
3. Name this structure.
   Dermal papilla

Check your answers, then wipe the front clean for the next round.

PRACTICE

Skin: quick check

1. Name the three structures found in a dermal papilla.

2. Which epidermal layer is missing in thin skin?

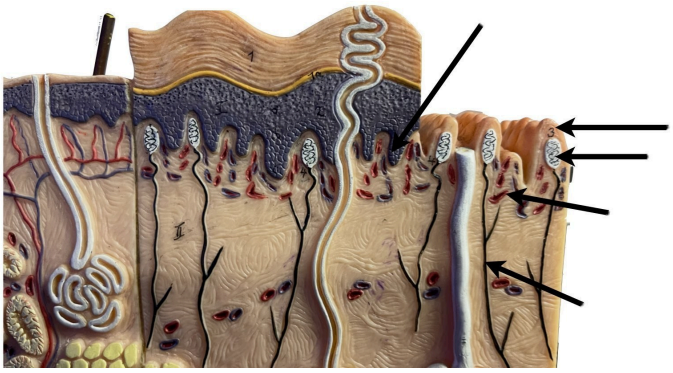

3. List the layers of the epidermis in thick skin, from deep to superficial.

4. What tissue makes up the dermis?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Skin: quick check

Check your answers, then wipe the front clean for the next round.

1. Name the three structures found in a dermal papilla.

   Meissner's corpuscles, capillary loops, free nerve endings

2. Which epidermal layer is missing in thin skin?

   Stratum lucidum

3. List the layers of the epidermis in thick skin, from deep to superficial.

   Stratum basale, stratum spinosum, stratum granulosum, stratum lucidum, stratum corneum

4. What tissue makes up the dermis?

   Dense irregular connective tissue (with areolar tissue in the papillary layer)
