BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 1 · PECTORAL GIRDLE

PRACTICE

Clavicle, superior view

1. Name this end of the clavicle.

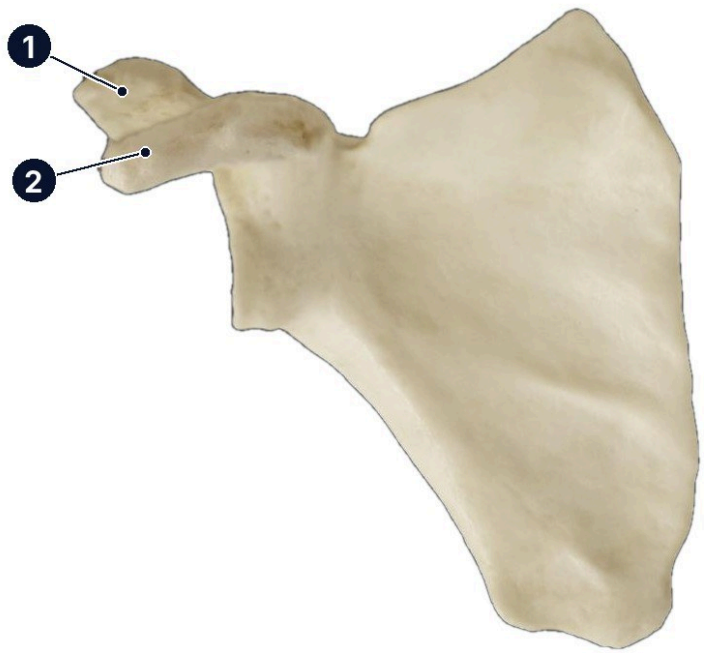

2. Name this end of the clavicle.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 2 · PECTORAL GIRDLE

PRACTICE

Scapula, anterior view

1. Name this bone feature.

2. Name this bone feature.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 1 · PECTORAL GIRDLE

ANSWER KEY

Clavicle, superior view

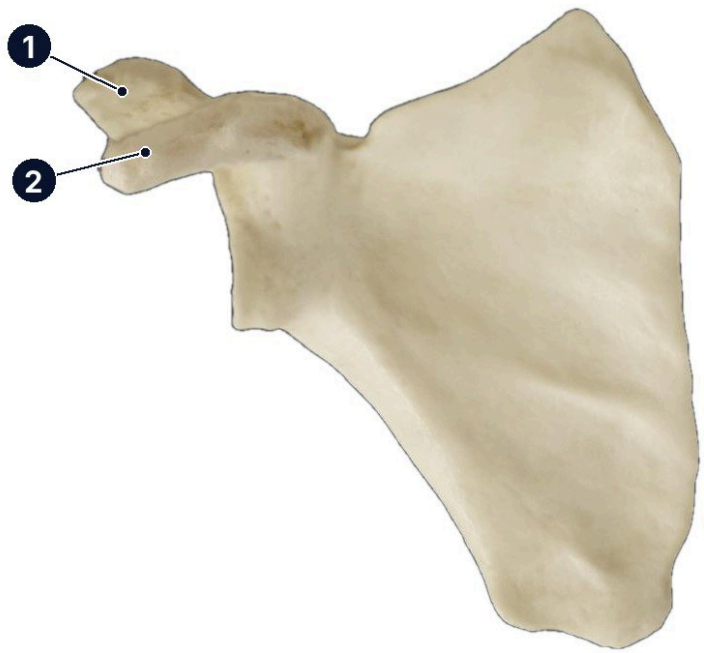

1. Name this end of the clavicle.
   Acromial end
2. Name this end of the clavicle.
   Sternal end

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 2 · PECTORAL GIRDLE

ANSWER KEY

Scapula, anterior view

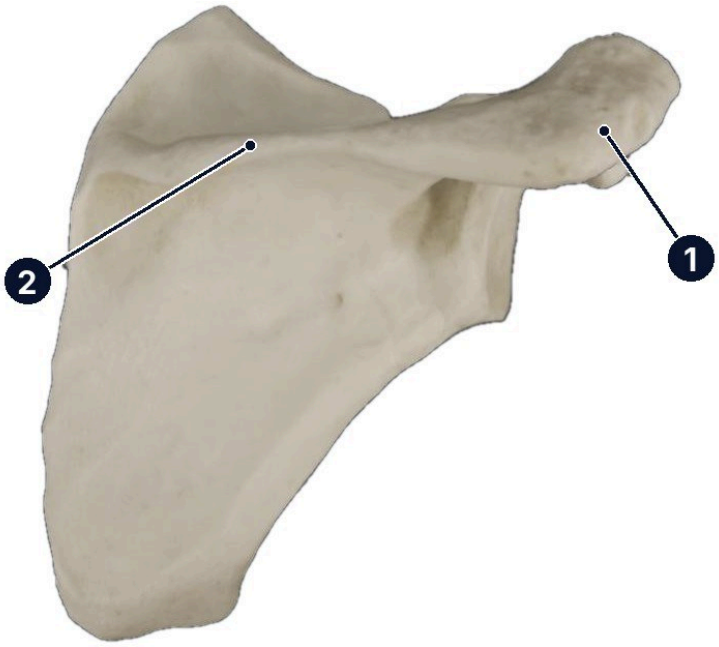

1. Name this bone feature.
   Acromion
2. Name this bone feature.
   Coracoid process

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 3 · PECTORAL GIRDLE

PRACTICE

Scapula, posterior view

1. Name this bone feature. _____

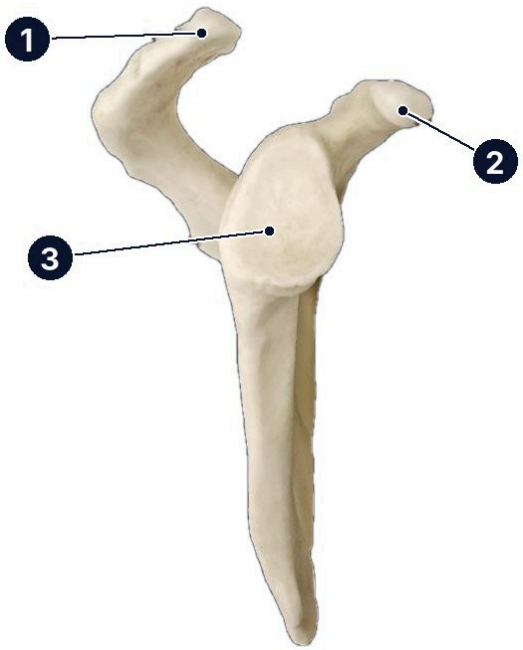

2. Name this bone feature. _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 4 · PECTORAL GIRDLE

PRACTICE

Scapula, lateral view

1. Name this bone feature. _____

2. Name this bone feature. _____

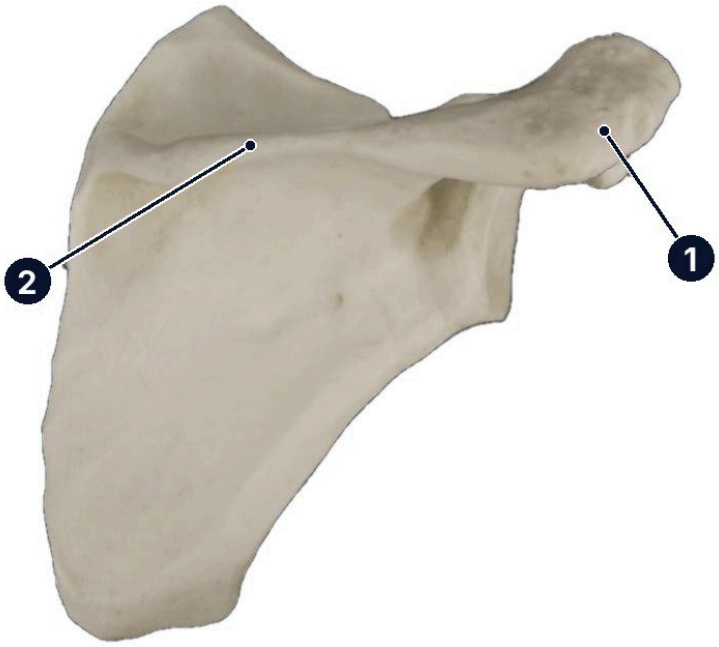

3. Name this bone feature. _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 3 · PECTORAL GIRDLE

ANSWER KEY

Scapula, posterior view

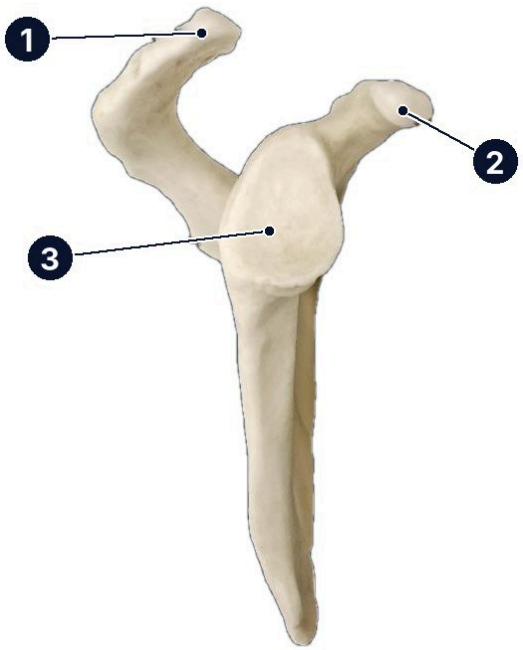

1. Name this bone feature.
   Acromion
2. Name this bone feature.
   Spine of scapula

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 4 · PECTORAL GIRDLE

ANSWER KEY

Scapula, lateral view

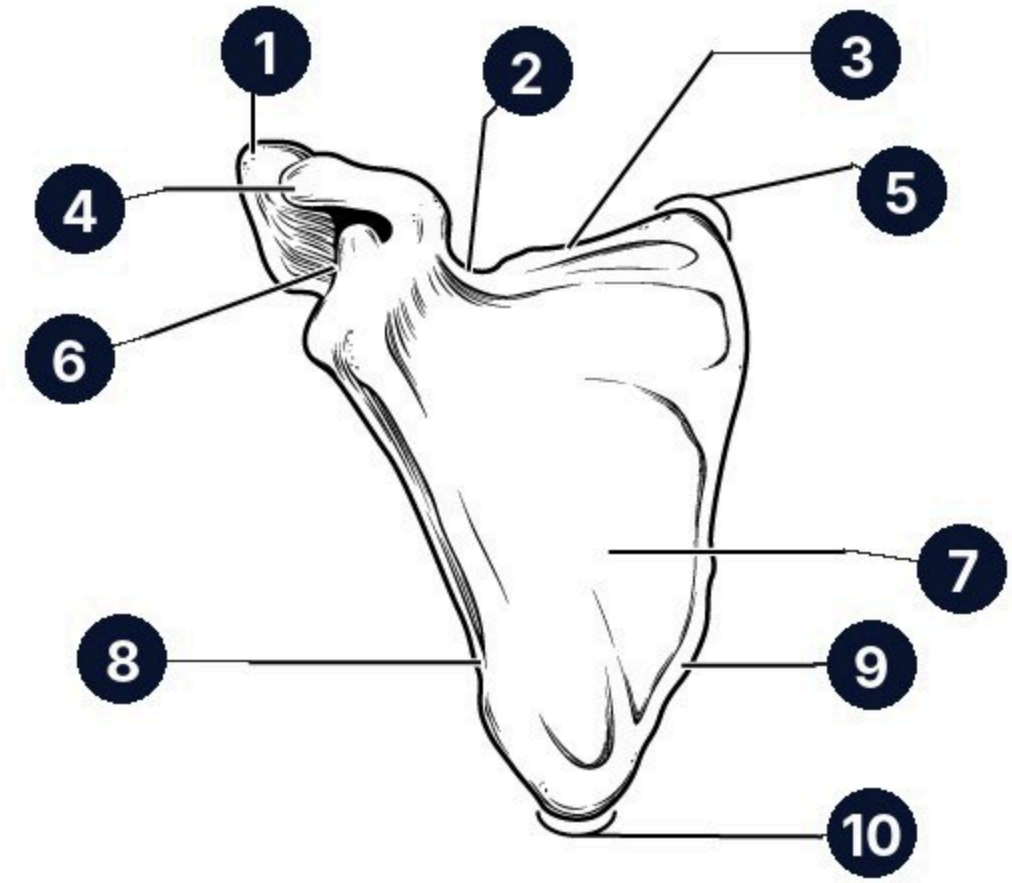

1. Name this bone feature.
   Acromion
2. Name this bone feature.
   Coracoid process
3. Name this bone feature.
   Glenoid cavity (fossa)

Check your answers, then wipe the front clean for the next round.

PRACTICE

Scapula, anterior (OpenStax drawing)

Right scapula, anterior aspect

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

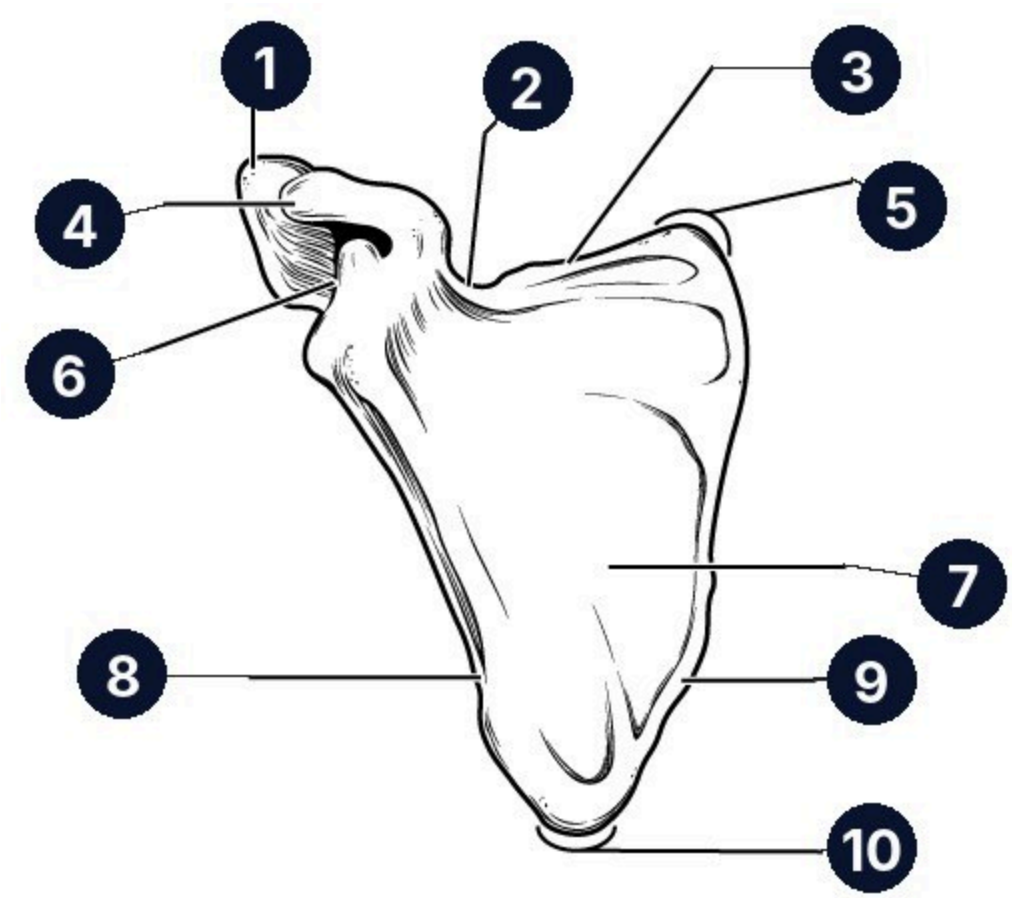

9 _____

10 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Scapula, anterior (OpenStax drawing)

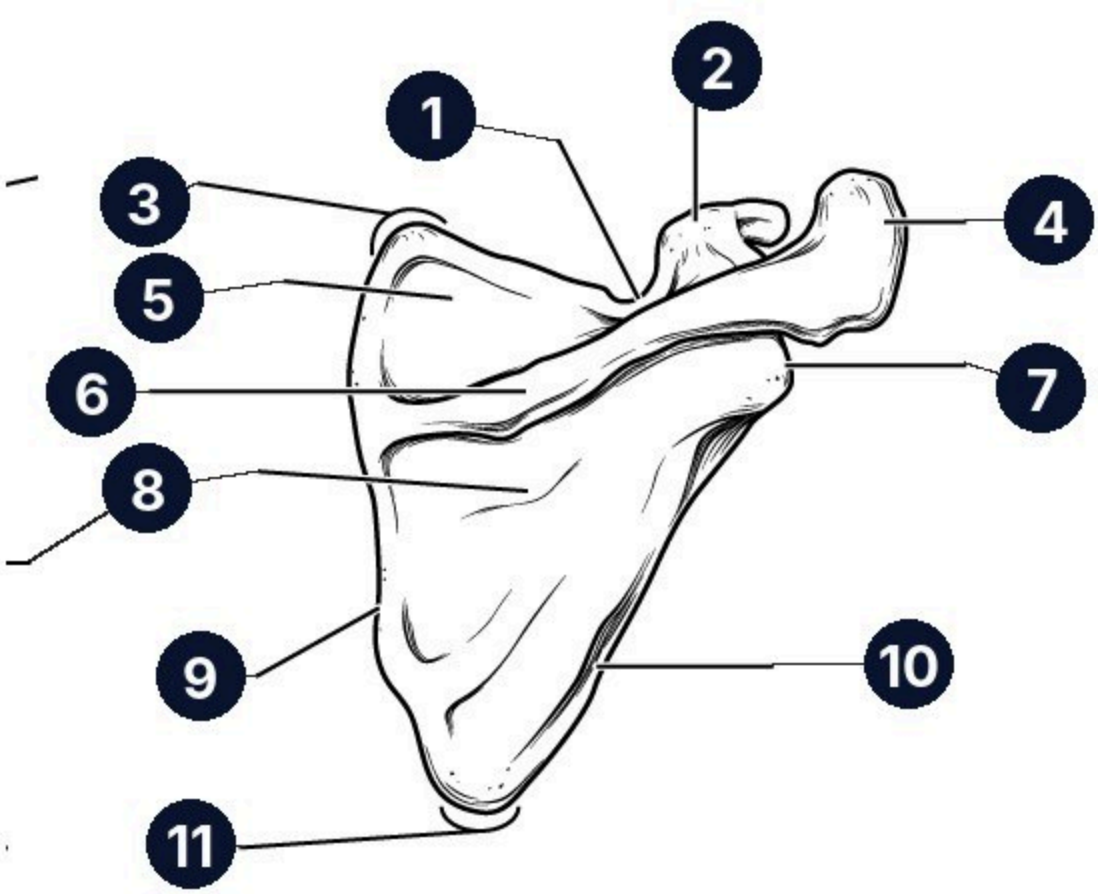

Right scapula, anterior aspect

1. Acromion
2. Suprascapular notch
3. Superior border
4. Coracoid process
5. Superior angle
6. Glenoid cavity
7. Subscapular fossa
8. Lateral (axillary) border
9. Medial (vertebral) border
10. Inferior angle

Check your answers, then wipe the front clean for the next round.

PRACTICE

Scapula, posterior (OpenStax drawing)

Right scapula, posterior aspect

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

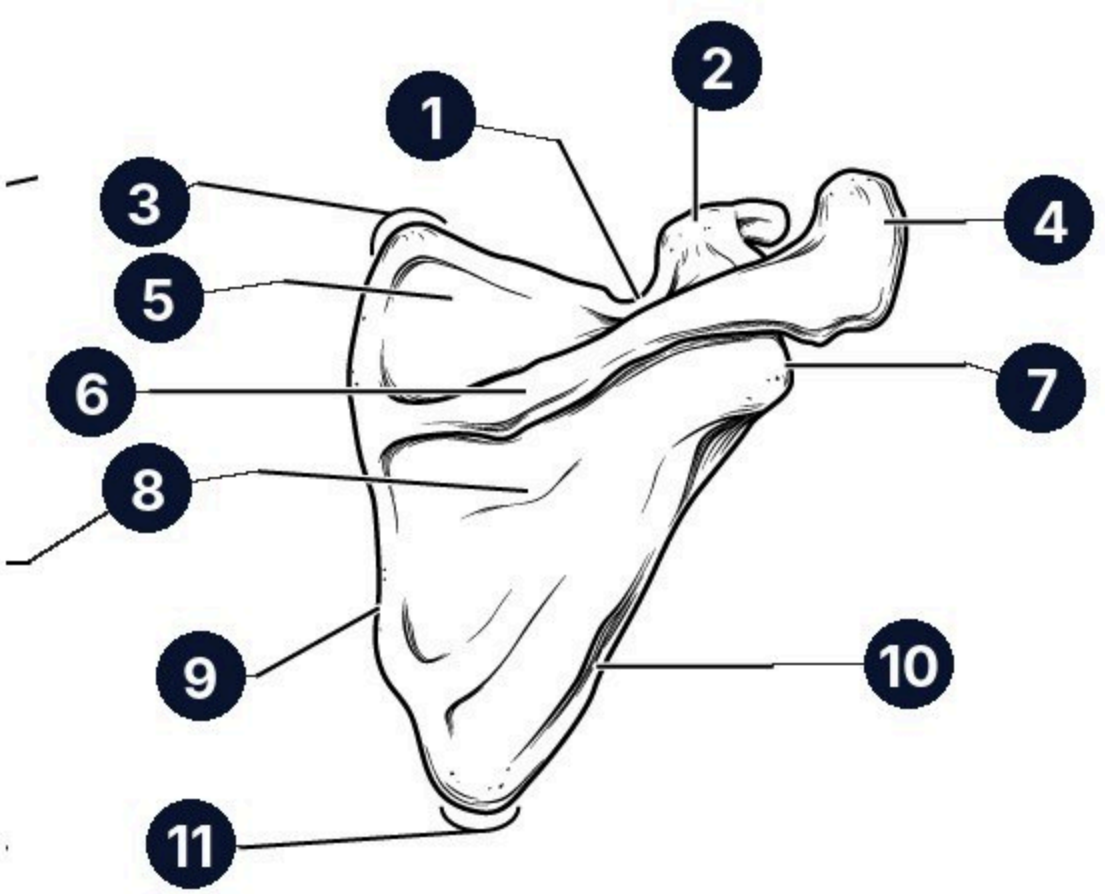

10 _____

11 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Scapula, posterior (OpenStax drawing)

Right scapula, posterior aspect

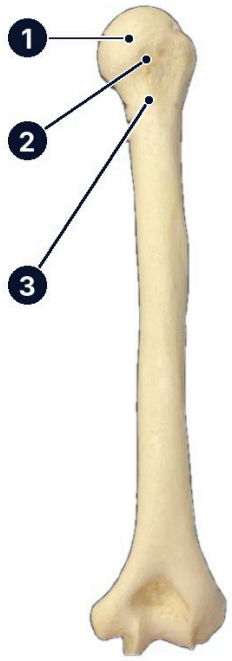

1. Suprascapular notch
2. Coracoid process
3. Superior angle
4. Acromion
5. Supraspinous fossa
6. Spine of scapula
7. Glenoid cavity
8. Infraspinous fossa
9. Medial (vertebral) border
10. Lateral (axillary) border
11. Inferior angle

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 7 · HUMERUS

PRACTICE

Humerus, posterior view: proximal end

1. Name this feature of the humerus.

2. Name this bone feature. _____

3. Name this bone feature. _____

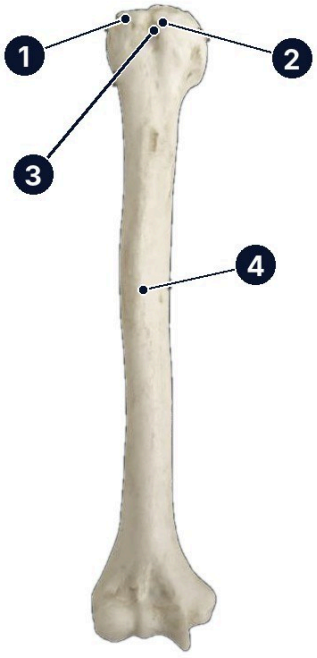

_____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 8 · HUMERUS

PRACTICE

Humerus, anterior view: proximal end

1. Name this bone feature.

2. Name this bone feature. _____

3. Name this bone feature. _____

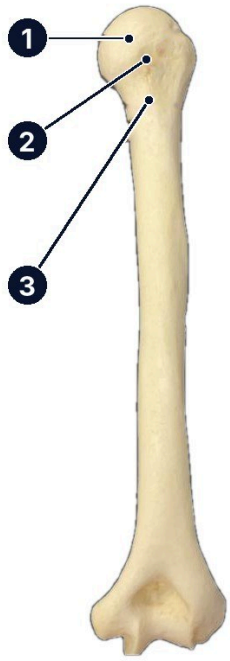

4. Name this bone feature. _____

_____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Humerus, posterior view: proximal end

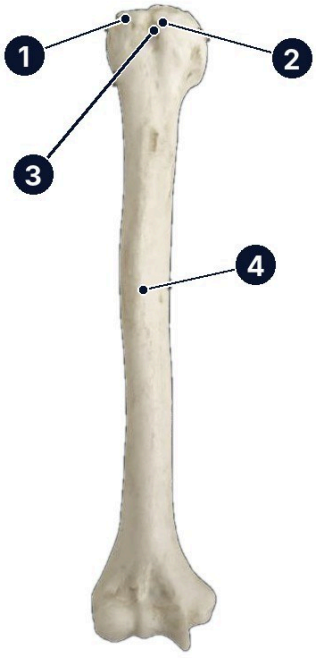

1. Name this feature of the humerus.
   Head
2. Name this bone feature.
   Anatomical neck
3. Name this bone feature.
   Surgical neck

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Humerus, anterior view: proximal end

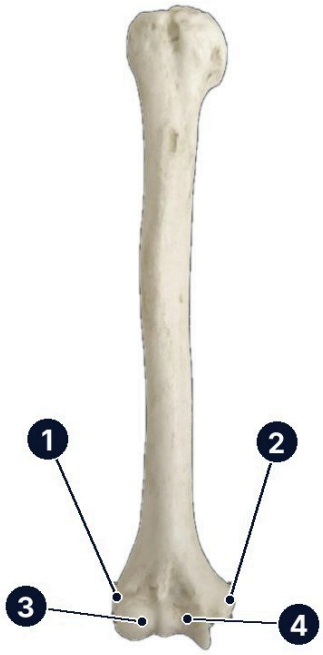

1. Name this bone feature.
   Greater tubercle
2. Name this bone feature.
   Lesser tubercle
3. Name this bone feature.
   Intertubercular sulcus
4. Name this bone feature.
   Body (shaft) of humerus

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 9 · HUMERUS

PRACTICE

Humerus, anterior view: distal end

1. Name this bone feature. _____
2. Name this bone feature. _____
3. Name this bone feature. _____
4. Name this bone feature. _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 10 · HUMERUS

PRACTICE

Humerus, posterior view: distal end

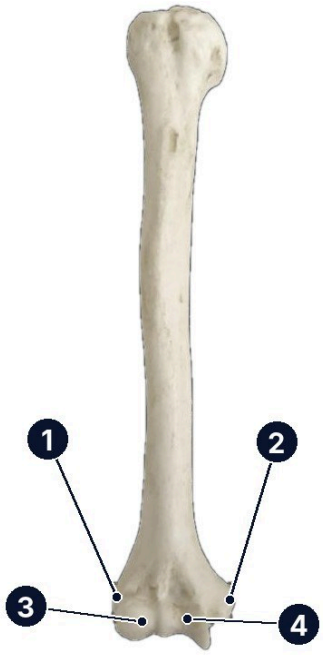

1. Name this bone feature. _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Humerus, anterior view: distal end

1. Name this bone feature.
   Lateral epicondyle
2. Name this bone feature.
   Medial epicondyle
3. Name this bone feature.
   Capitulum
4. Name this bone feature.
   Trochlea

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Humerus, posterior view: distal end

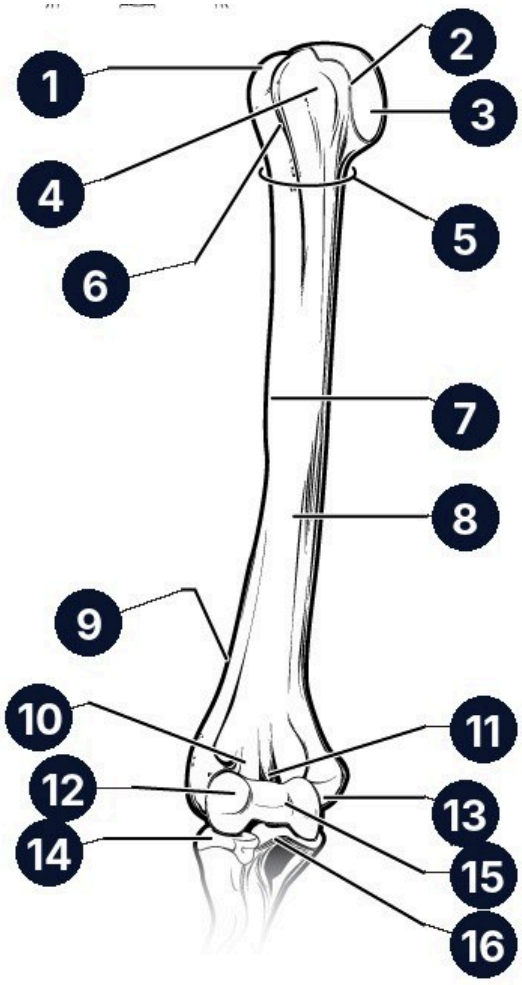

1. Name this bone feature.
   Olecranon fossa

Check your answers, then wipe the front clean for the next round.

PRACTICE

Humerus, anterior (OpenStax drawing)

Anterior view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

12 _____

13 _____

14 _____

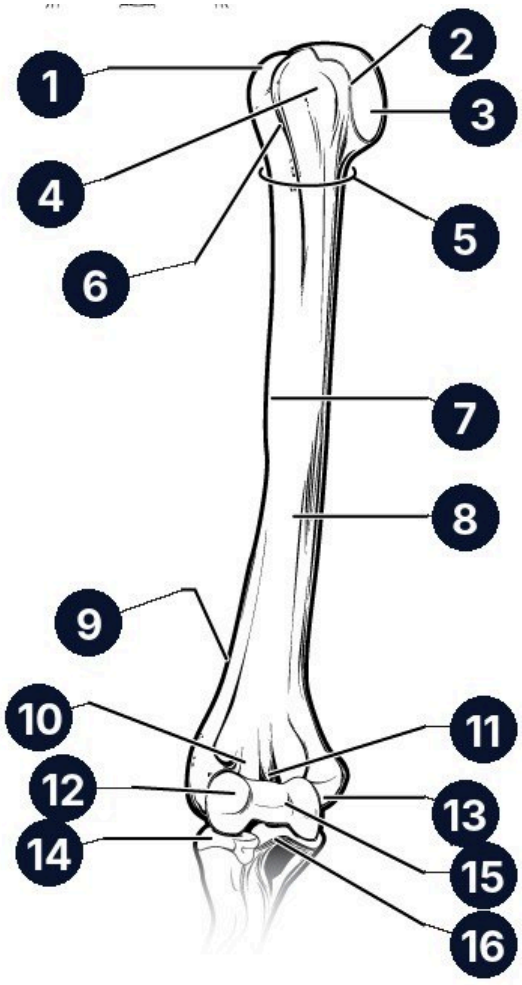

15 _____

16 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Humerus, anterior (OpenStax drawing)

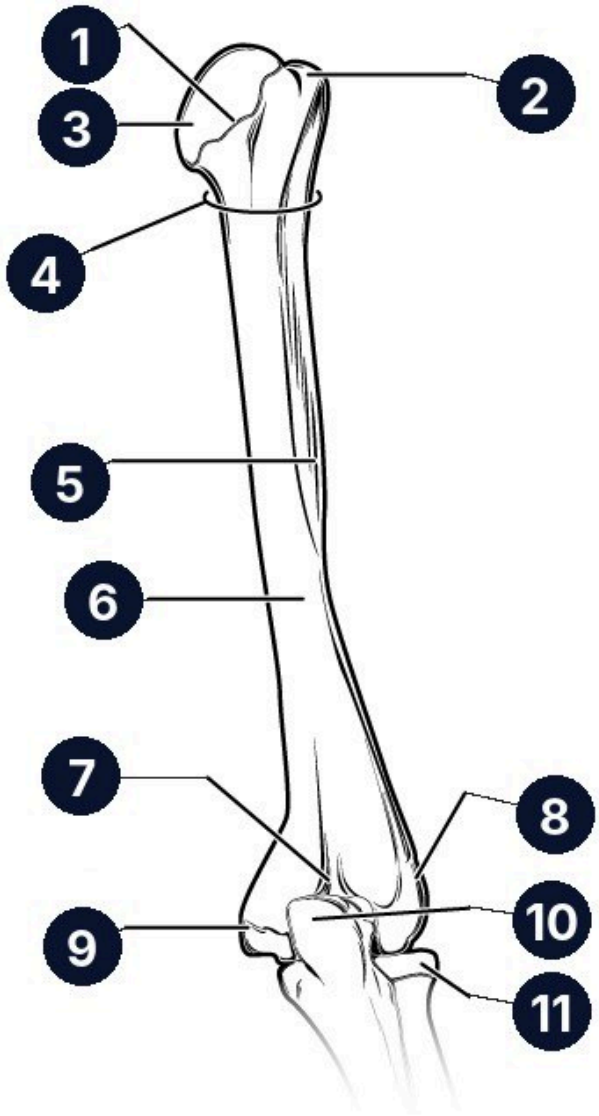

Anterior view

1. Greater tubercle
2. Anatomical neck
3. Head
4. Lesser tubercle
5. Surgical neck
6. Intertubercular sulcus
7. Deltoid tuberosity
8. Body (shaft) of humerus
9. Lateral supracondylar ridge
10. Radial fossa
11. Coronoid fossa
12. Capitulum
13. Medial epicondyle
14. Head of radius
15. Trochlea
16. Coronoid process

Check your answers, then wipe the front clean for the next round.

PRACTICE

Humerus, posterior (OpenStax drawing)

Posterior view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

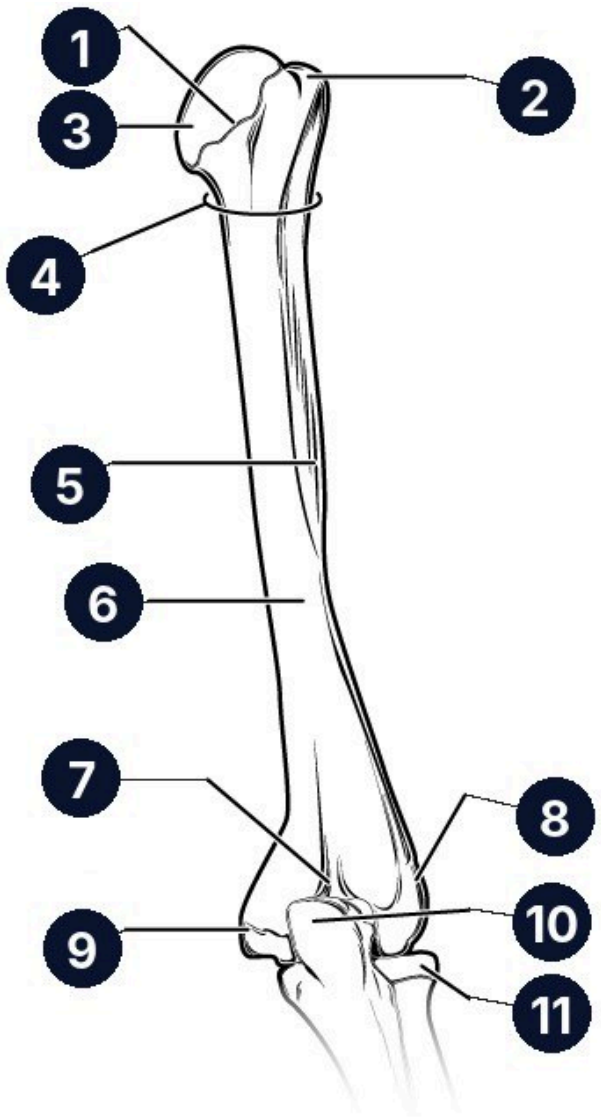

10 _____

11 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Humerus, posterior (OpenStax drawing)

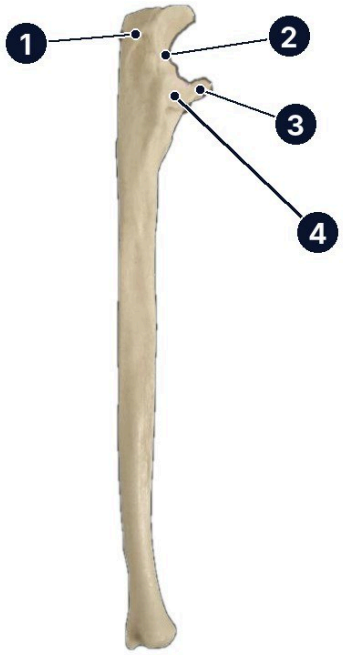

Posterior view

1. Anatomical neck
2. Greater tubercle
3. Head
4. Surgical neck
5. Deltoid tuberosity
6. Body (shaft) of humerus
7. Olecranon fossa
8. Lateral epicondyle
9. Medial epicondyle
10. Olecranon process
11. Head of radius

Check your answers, then wipe the front clean for the next round.

PRACTICE

Ulna, lateral view

1. Name this bone feature.

2. Name this bone feature.

3. Name this bone feature.

4. Name this bone feature.

Write each answer on its line with a dry-erase marker, then flip the card to check.

PRACTICE

Ulna, anterior view

1. Name this bone feature.

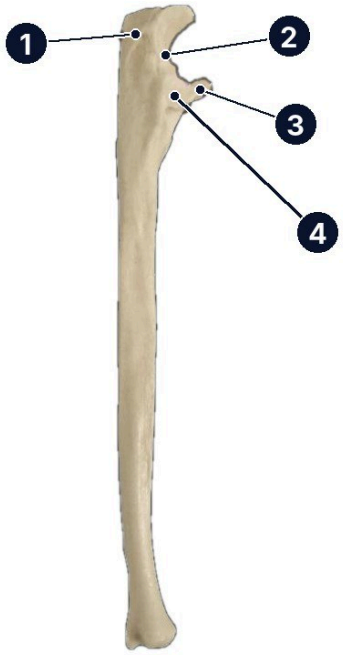

2. Name this bone feature.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 13 · RADIUS AND ULNA

ANSWER KEY

Ulna, lateral view

1. Name this bone feature.
   Olecranon
2. Name this bone feature.
   Trochlear notch
3. Name this bone feature.
   Coronoid process
4. Name this bone feature.
   Radial notch

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 14 · RADIUS AND ULNA

ANSWER KEY

Ulna, anterior view

1. Name this bone feature.
   Radial notch
2. Name this bone feature.
   Coronoid process

Check your answers, then wipe the front clean for the next round.

PRACTICE

Radius, anterior view

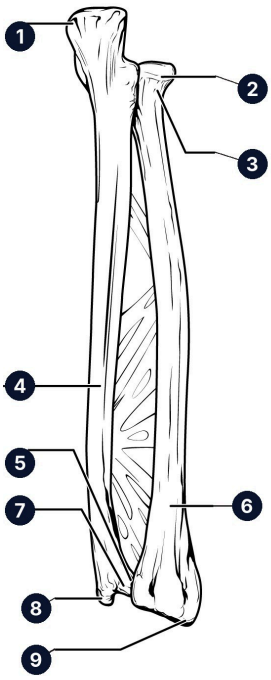

1. Name this feature of the radius.

2. Name this bone feature.

Write each answer on its line with a dry-erase marker, then flip the card to check.

PRACTICE

Radius and ulna, posterior (OpenStax drawing)

Right forearm, posterior view

1. Name this feature of the ulna.

2. Name this feature of the radius.

3. Name this feature of the radius.

4. Name this bone.

5. Name this feature of the radius.

6. Name this bone.

7. Name this feature of the ulna.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 15 · RADIUS AND ULNA

ANSWER KEY

Radius, anterior view

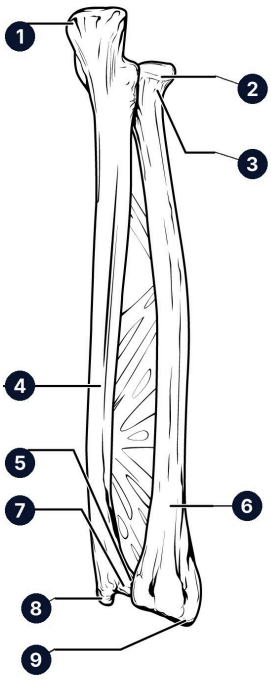

1. Name this feature of the radius.
   Head
2. Name this bone feature.
   Radial tuberosity

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 17 · RADIUS AND ULNA

ANSWER KEY

Radius and ulna, posterior (OpenStax drawing)

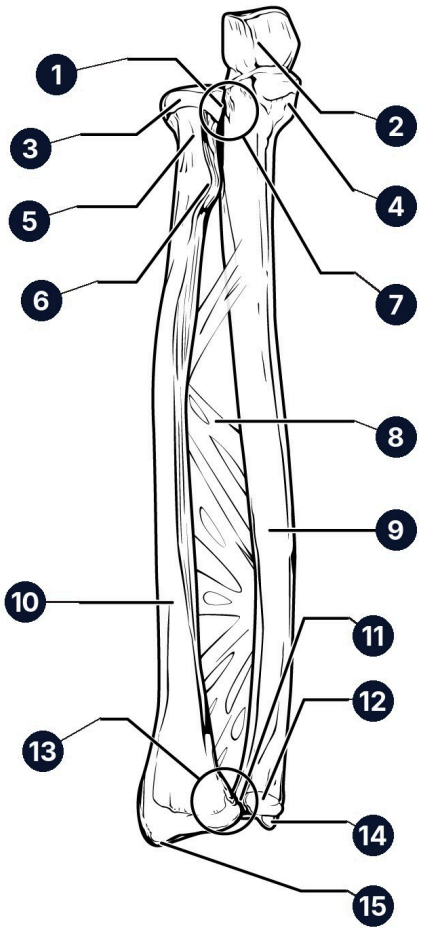

Right forearm, posterior view

1. Name this feature of the ulna.
   Olecranon process
2. Name this feature of the radius.
   Head of radius
3. Name this feature of the radius.
   Neck of radius
4. Name this bone.
   Ulna
5. Name this feature of the radius.
   Ulnar notch
6. Name this bone.
   Radius
7. Name this feature of the ulna.
   Head of ulna
8. Name this feature of the ulna.
   Styloid process of ulna
9. Name this feature of the radius.
   Styloid process of radius

Check your answers, then wipe the front clean for the next round.

PRACTICE

Radius and ulna, anterior (OpenStax drawing)

Right forearm, anterior view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

12 _____

13 _____

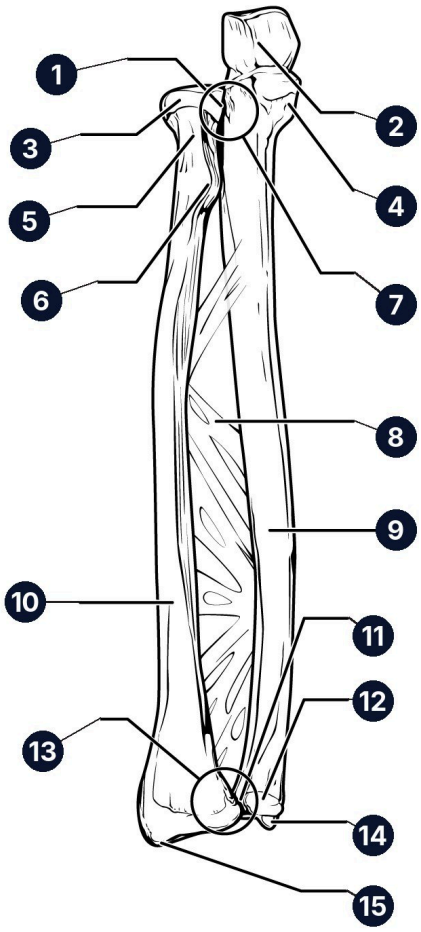

14 _____

15 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Radius and ulna, anterior (OpenStax drawing)

Right forearm, anterior view

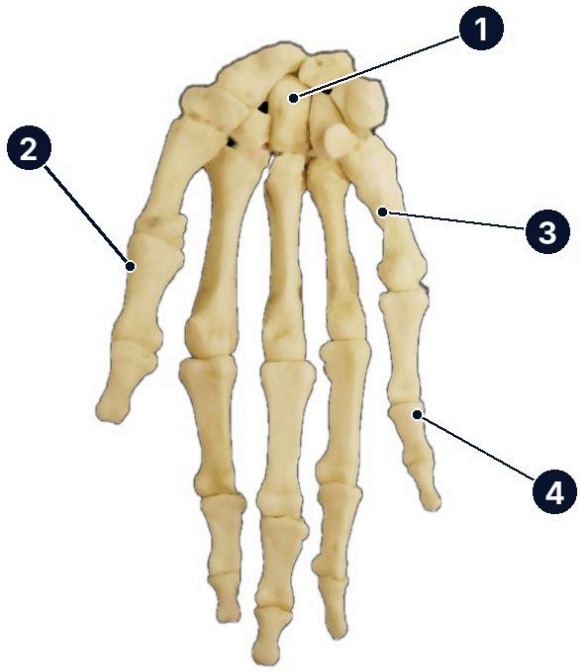

1. Radial notch
2. Trochlear notch
3. Head of radius
4. Coronoid process
5. Neck of radius
6. Radial tuberosity
7. Proximal radioulnar joint
8. Interosseous membrane
9. Ulna
10. Radius
11. Ulnar notch
12. Head of ulna
13. Distal radioulnar joint
14. Styloid process of ulna
15. Styloid process of radius

Check your answers, then wipe the front clean for the next round.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 18 · HAND

PRACTICE

Bones of the hand, anterior view

1. Name this group of bones.

2. Name this digit.

3. Name this group of bones.

4. Name this group of bones.

Write each answer on its line with a dry-erase marker, then flip the card to check.

BIO 004 ANATOMY ATLAS · UPPER LIMB BONES AND STERNUM · CARD 19 · HAND

PRACTICE

Hand, anterior view: one carpal bone

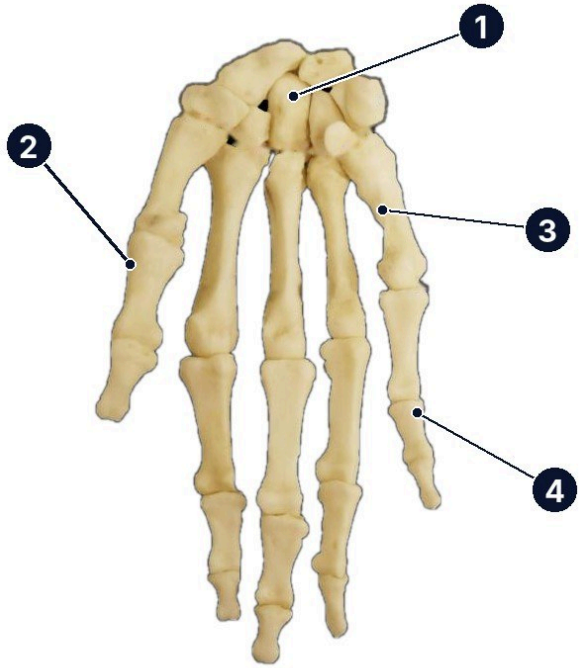

1. Name this carpal bone.

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Bones of the hand, anterior view

1. Name this group of bones.
   Carpals
2. Name this digit.
   Pollex (thumb)
3. Name this group of bones.
   Metacarpals
4. Name this group of bones.
   Phalanges

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Hand, anterior view: one carpal bone

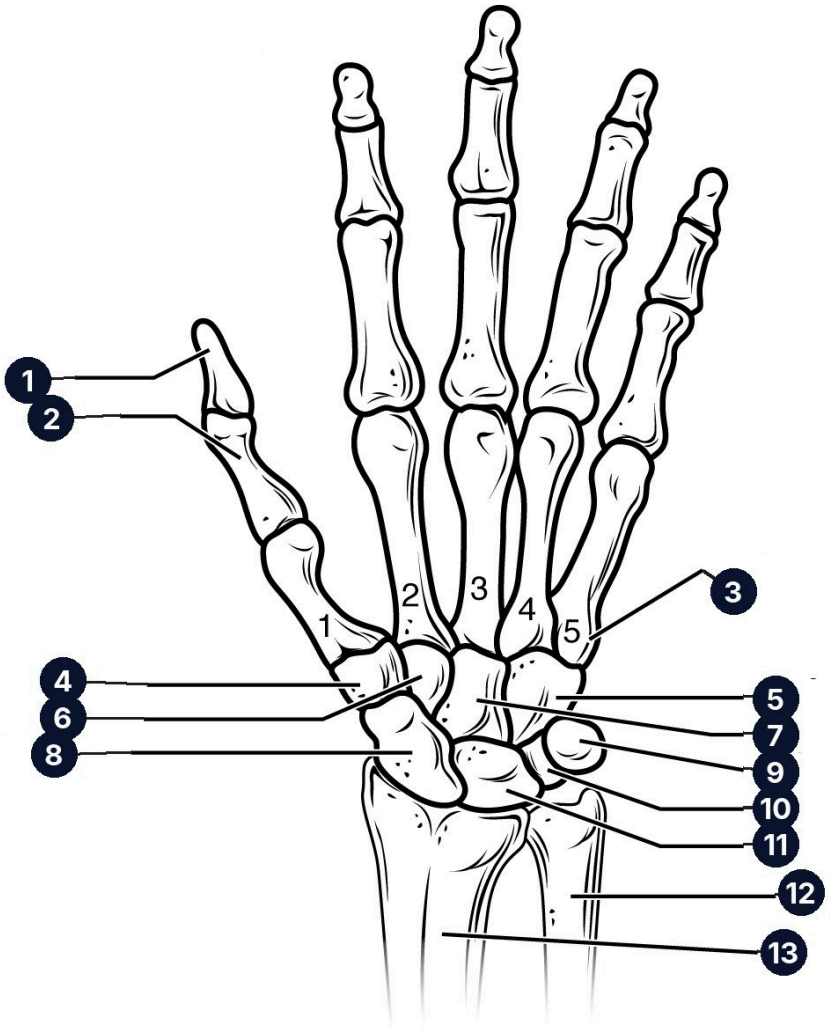

1. Name this carpal bone.
   Scaphoid

Check your answers, then wipe the front clean for the next round.

PRACTICE

Wrist and hand, anterior (OpenStax drawing)

Left hand, anterior view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

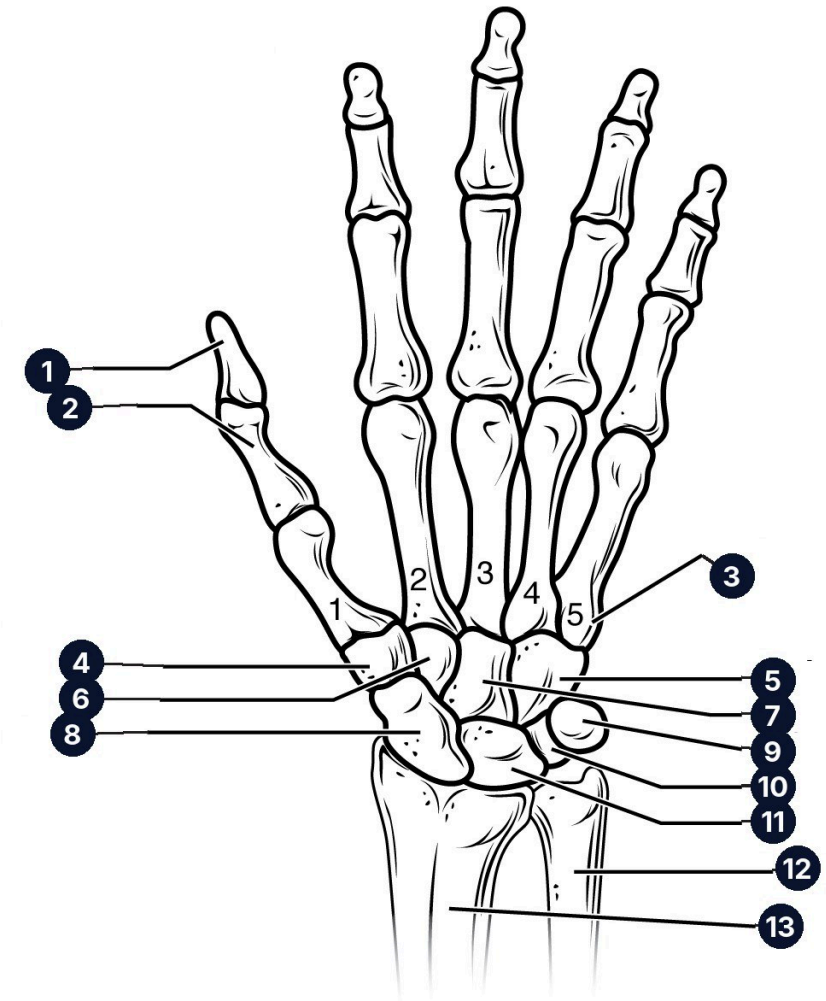

12 _____

13 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Wrist and hand, anterior (OpenStax drawing)

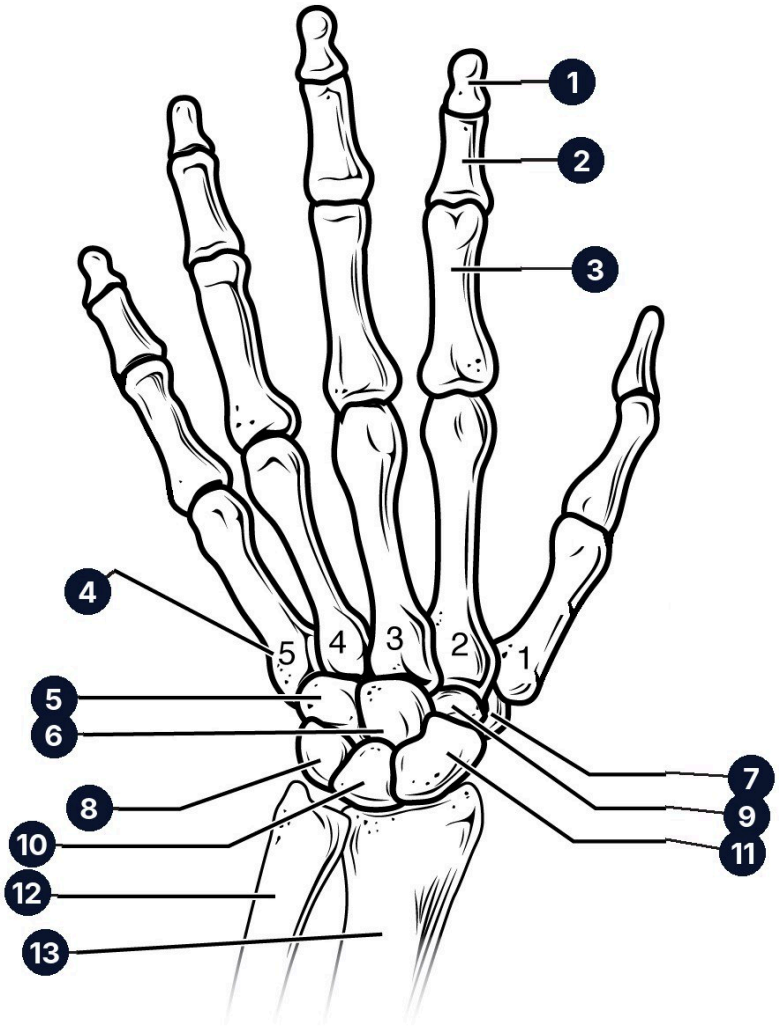

Left hand, anterior view

1. Distal phalanx
2. Proximal phalanx
3. Metacarpals
4. Trapezium
5. Hamate
6. Trapezoid
7. Capitate
8. Scaphoid
9. Pisiform
10. Triquetrum
11. Lunate
12. Ulna
13. Radius

Check your answers, then wipe the front clean for the next round.

PRACTICE

Wrist and hand, posterior (OpenStax drawing)

Left hand, posterior view

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

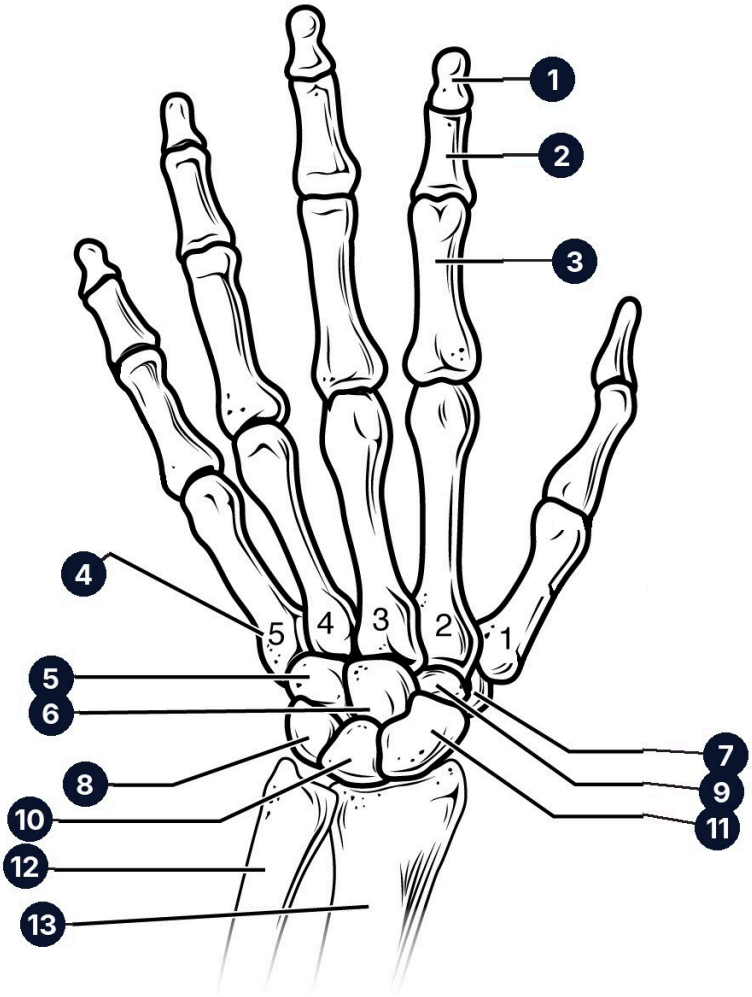

12 _____

13 _____

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Wrist and hand, posterior (OpenStax drawing)

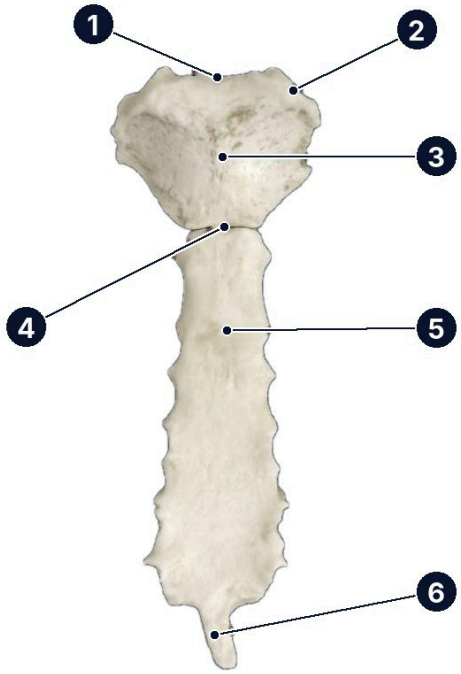

Left hand, posterior view

1. Distal phalanx
2. Middle phalanx
3. Proximal phalanx
4. Metacarpals
5. Hamate
6. Capitate
7. Trapezium
8. Triquetrum
9. Trapezoid
10. Lunate
11. Scaphoid
12. Ulna
13. Radius

Check your answers, then wipe the front clean for the next round.

PRACTICE

Sternum, anterior view

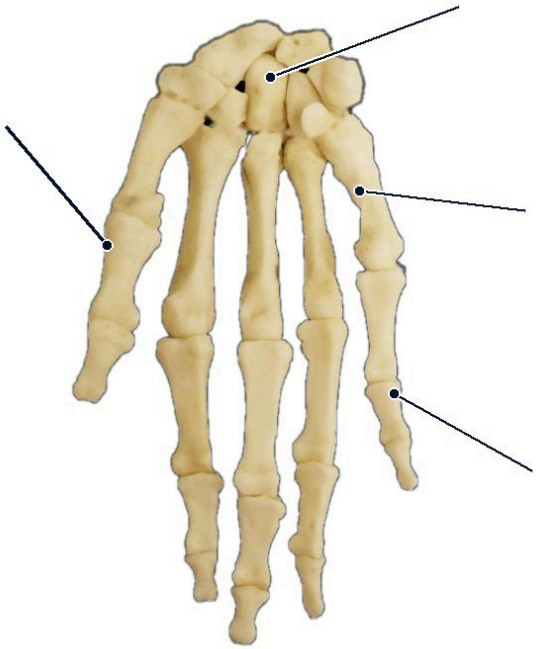

1. Name this bone feature.
2. Name this bone feature.
3. Name this part of the sternum.
4. Name this bone feature.
5. Name this part of the sternum.
6. Name this part of the sternum.

Write each answer on its line with a dry-erase marker, then flip the card to check.

PRACTICE

Upper limb bones: quick check

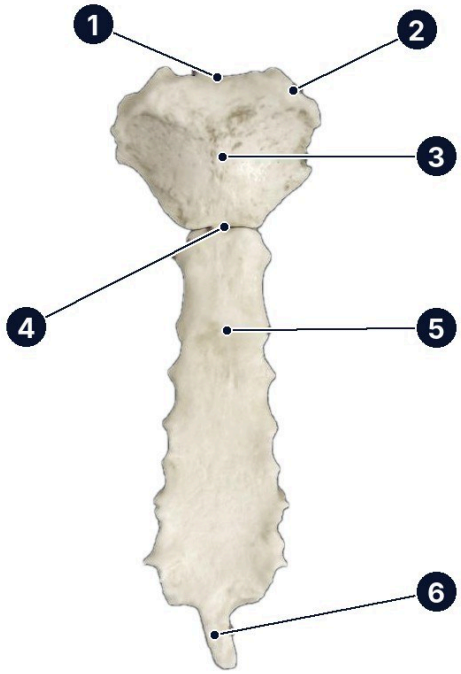

1. Which bone of the forearm is on the thumb side?
2. Which part of the humerus meets the radius? Which meets the ulna?
3. How many carpals, metacarpals and phalanges are in one hand?
4. Which part of the scapula forms the shoulder joint with the humerus?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Sternum, anterior view

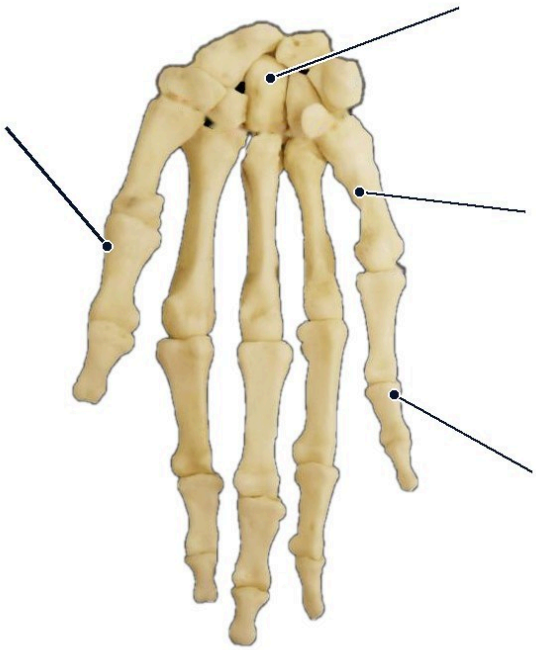

1. Name this bone feature.
   Jugular notch
2. Name this bone feature.
   Clavicular notch
3. Name this part of the sternum.
   Manubrium
4. Name this bone feature.
   Sternal angle
5. Name this part of the sternum.
   Body of sternum
6. Name this part of the sternum.
   Xiphoid process

Check your answers, then wipe the front clean for the next round.

ANSWER KEY

Upper limb bones: quick check

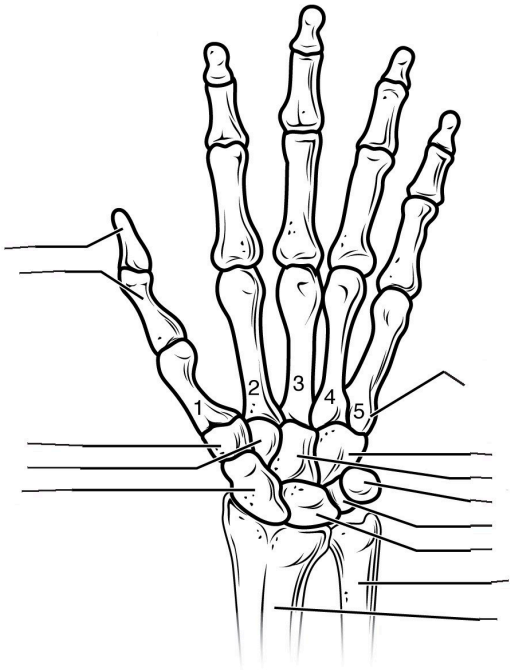

1. Which bone of the forearm is on the thumb side?
   Radius
2. Which part of the humerus meets the radius? Which meets the ulna?
   Capitulum meets the radius; trochlea meets the ulna
3. How many carpals, metacarpals and phalanges are in one hand?
   8 carpals, 5 metacarpals, 14 phalanges
4. Which part of the scapula forms the shoulder joint with the humerus?
   Glenoid cavity (fossa)

Check your answers, then wipe the front clean for the next round.

PRACTICE

Carpals and digits: quick check

Left hand, anterior view

1. Name the proximal row of carpals, lateral to medial.

2. Name the distal row of carpals, medial to lateral.

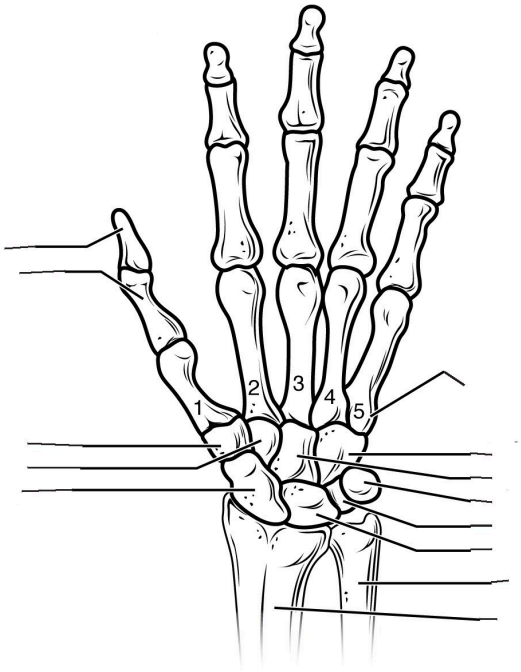

3. Which digit has no middle phalanx?

4. Metacarpals are numbered 1 to 5 starting on which side?

Write each answer on its line with a dry-erase marker, then flip the card to check.

ANSWER KEY

Carpals and digits: quick check

Left hand, anterior view

1. Name the proximal row of carpals, lateral to medial.

   Scaphoid, lunate, triquetrum, pisiform (So Long To Pinky)

2. Name the distal row of carpals, medial to lateral.

   Hamate, capitate, trapezoid, trapezium (Here Comes The Thumb)

3. Which digit has no middle phalanx?

   Thumb (pollex)

4. Metacarpals are numbered 1 to 5 starting on which side?

   Lateral (thumb side)

Check your answers, then wipe the front clean for the next round.
